#### THE SCHOOL FAIR.

One of The Best and Most Successful Exhibits Ever Held in the County

The School Fair held at the Fair Grounds last Saturday was a success. It was the best exhibit of the work of the school children of the county ever held here. Much more has been accomplished in the Industrial Club Work this year than ever before. Over one hundred boys and girls are competing in the work this year. The training the boys and girls are getting in this line, as given by the O. A. C. will help them to become careful farmers and business men and woman of the future. As a war measure the importance of the proper training of these boys and girls for future usefulness cannot be over estimated. Five boys had exhibits of pigs. The Pig Club boys following the careful direction of government experts have made a profit on the pigs. Thirteen boys were in the project but only five were able to have pigs on exhibition. All the children having exhibits are deserving of great credit, as much careful work was done by them.

The school booths were all very credibly arranged. Two girls canning teams competed for the trip to the State Fair. The club from the Hunt school winning. The girls are Marie and Pauline Glenger and Gladys Klinehan.

The Pleasant Valley team consisting of Edna Wismer, Elizabeth Phillips and Hattie Moore done splendid work, and are entitled to great credit for their proficiency. They were not organized until about the middle of July, so had only a short time for preparation.

Eight boys and girls this year will be sent to the State Fair. H. C. Seymour, Mr. Allen and Mr. Butler, Mrs. Seymour and Mrs. Allen of the O. A. C. and R. S. Jones, County Agriculturist acted as judges. The teachers deserving special mention for the great amount of work done in preparing booth exhibits for the fair are. S. B. Brimhall, principal of the Nehalem school, Mrs. Ford and Miss Ruth, of the Wheeler school; W. L. Bryan, of the Maple Leaf school; Eola Brown, of the Sandlake school; Mrs. Goldsworthy and Mrs. Sperry, of the Beaver school; Miss Drew and Miss Swenson, of the Hunt school, and the Sisters conducting the Academy. All these teachers were assisted in the work by some of the children.

Several teachers representing other schools would have had booths but circumstances arose at the last making it impossible for them to put in a booth exhibit. There was a great many exhibits from schools having no booths.

#### O. Swenson Gets Commission.

Oscar Swenson, one well known and highly respected of our Tillamook boys, has lately been made a second Lieutenant. Lieut. Swenson has been at Camp Johnston, Jacksonville, Florida, in officers' training camp taking the course given there in quarter master corps. He stood among the highest in his class and in consequence received his commission two weeks before he had completed his course; not being required to take the final examinations. Lieut. Swenson was made a company commander instead of Q. M. C. officer and has charge of a company of 300 men of a receiving company, 13th

Co. of 1st Road Regiment He will remain at Camp Johnston, where he has been studying. Lieut. Swenson is the first man of the 10th Company Coast Artillery from Tillamook to receive a commission.

Lieut. Swenson was a deputy sheriff in this county, and when the war broke out was one of the employees of the Tillamook County Bank, and his friends were glad to hear of his promotion.

#### Unlawful to Shoot Pigeons.

It is unlawful to shoot pigeons according to the Federal law. It was not known on Sunday and Monday that this was the law, for quite a few persons went shooting and made a killing. Even C. W. Loughery, district game warden was one of those who bagged the limit. It had been a question whether the federal law permitted the shooting of pigeons, but a letter came by Monday's mail, with a copy of the law, which decided the point in question, which is to the effect that it is unlawful to shoot pigeon. The law reads as follows:

"The High Contracting Powers agree that during the period of 10 years next following the going into effect of this convention there shall be a continuous close season on the following migratory game birds, to wit:

"Band-tailed pigeons; little brown sandhill, and whooping cranes, swans, curlew on all shorebirds (except the black-breasted and golden plover, Wilson or Jacksnipe, woodcock, and the greater or lesser yellowlegs); provided, that during such 10 years the close season on cranes, swans and curlew in the Province of British Columbia shall be made by the proper authorities of that Province within the general dates and limitations elsewhere prescribed in this convention for the respective groups to which these birds belong."

C. W. Loughery, district game warden, received the following letter from E. S. Cattron, United States Game Warden.

"I am herewith enclosing a copy of the Migratory Bird Treaty Act, and regulations thereunder. I have not yet received a good supply of the laws but hope to soon be able to supply the sportsmen more thoroughly. In the meantime I wish you would give the enclosed regulations all the publicity possible in order that none will get into trouble with the Federal laws. Possibly the papers there would gladly print the regulations for the benefit of the sportsmen. Please make it plain that where ever the Federal laws and the State laws conflict that the Federal laws must be followed. The several States are empowered to make laws to regulate not inconsistent with the Federal laws and make and enforce laws for the further protection of migratory birds only. A safe rule for sportsmen to follow is when in doubt do not take a chance, but write to this office for official information only concerning the Federal laws. I hope to get over your way next week for a few days."

People Speak Well of Chamberlain's Tablets.

"I have been selling Chamberlain's Tablets for about two years and heard such good reports from my customers, that I concluded to give them a trial myself, and can say that I do not believe that there is another preparation of the kind equal to them," writes G. A. McBride, Headford, Ont. If you are troubled with indigestion or constipation give them a trial. They will do you good.—For Sale by Lamar's Drug Store.—Pd Ad.

#### SPHAGNUM MOSS DRIVES ARE AGAIN SUCCESSFUL.

Sunday, Monday and Tuesday Added 2000 Sacks—Portland Chapter Appreciates What Tillamook Is Doing.

There was another successful moss gathering drive at Sandlake on Sunday, Monday and Tuesday, when over 2000 sacks were gathered and which proved another valuable acquisition to the large amount already gathered at Sandlake.

The drive on Sunday was under the auspices of the Masons and Eastern Star, but others also took part in the commendable work. Mrs. S. S. Johnson, chairman of the moss gathering committee, with Attorney Johnson and Miss Arlie Jones, Mr. and Mrs. H. Crenshaw and family, Mr. and Mrs. W. F. Baker and Miss Charlotte Banfield, left Saturday about 5 o'clock and camped at Sandlake that night, and early next morning went to work gathering moss, and by the time they had gathered about 100 sacks of moss. There would have been a much larger crowd but no conveyances were available to take them to Sandlake, hence the amount of moss gathered that day fell below what was gathered the previous Sunday. But for the number who were gathering moss they did a good day's work and added 1000 sacks.

As Monday was Labor Day, there were quite a number of persons who wanted to go to Sandlake, but autos being hard to obtain only a limited number of persons succeeded in getting away. These included Allen Page and family, Attorney and Mrs. H. T. Botts, Mr. and Mrs. Bert King, Attorney and Mrs. T. H. Goyno and son, Mrs. Wheeler, Mrs. E. Knight, Miss Dodge, Mr. Deeter, A. Heusser, William Eddis, Thos. Coates and Henry Crenshaw. Mrs. S. S. Johnson and Miss Jones were still at Sandlake and joined the party. Mrs. Botts and Mrs. Goyno gathered and filled 45 sacks in one and one half hours, and Mrs. Wheeler sewed 79 sacks, which made a fine record for these ladies.

A party of Wilson river dairymen arranged a moss gathering picnic to Sandlake on Tuesday, when ten autos left, each being filled with willing workers, the autos belonging to Gust Wicklund, Andrew Anderson Nilse Glad, Erick Glad, Edwin Boquist, Lewis Larson, John Berns, F. Culberson, Peter Heisel and Tom Price. This also proved another successful moss gathering drive, for Monday and Tuesday added nearly 1000 sacks to help supply the urgent demand for sphagnum moss.

Henry Crenshaw has proven himself one of the most willing workers in the moss gathering drives. Thursday night he went to Sandlake and brought out a load of moss not reaching the city till after midnight. Sunday he went on the job again, taking a large number of sacks and returning in the evening with a load of moss. This was repeated on Monday, and in the three trips he brought out 450 sacks. Previous to that he willingly gave up his time and brought out large quantities of moss. The moss gathering committee is truly grateful to Mr. Crenshaw for his valuable help.

Portland, Ore., Aug. 28, 1918  
Mr. Fred C. Baker, Tillamook, Ore.

Dear Mr. Baker—We acknowledge receipt of your telegram announcing the wonderful success of your efforts Sunday in gathering sphagnum moss.

The Portland chapter more than appreciates the wonderful work of the Tillamook community.

If you are able to keep up this pace for a few weeks longer we will surely have sufficient on hand to carry us through the winter months. We would like to have a surplus of from five to ten thousand sacks when October first arrives.

On behalf of the Portland Chapter I extend to you and the entire community our congratulations on your
