Conversion of Liberty Bonds.

The privilege of conversion which arose in consequence of the issue of 4 per cent bonds of the third Liberty loan will expire in November 9 next and under existing law can not be extended or renewed. Delay in exercising the privilege will result in overburdening the banking institutions of the country and the treasury department by making it necessary to handle all conversions at the last moment and may result in many cases in the loss of privilege of conversion altogether.

Holders of coupon bonds are strongly advised to exchange them for registered bonds in order to protect themselves against the risk of loss, theft, and destruction of their bonds.

The banks throughout the country as a matter of patriotic service, will doubtless all assist bondholders in converting and registering their bonds.

Twenty-Three Million Men.

Former Ambassador Gerard was once scoffingly told by a German official that America would not fight and that therefore Germany had nothing to fear from this country regardless of her insults and her inhuman offenses against mankind. Fifteen months ago nearly 10,000,000 of this country's best young men registered for war against the offender. Nearly 2,000,000 of them have crossed the seas, and several hundred thousand of them have participated in actual battle against the proud Prussians. In the last registration nearly 13,000,000 more of America's men registered for service against the kaiser's fiendish horde, and before next June, 2,000,000 or more of them will be on European soil ready for the great military tidal wave that will inundate and destroy forever the autocracy that has menaced the peace of the world since the family of Hohenzollern ascended the throne of Germany.

What would the German officer say to Ambassador Gerard now? What are the war lords saying among themselves just now, with the allied man-power doubled by the peace-loving nation that "would not fight"? There was a time no so far back, when William Hohenzollern and his aids believed they had a chance to win the war, and when, in fact, they did have a chance. But that time has past. Germany cannot win, and no nation knows it better than herself. The end may be near or it may be distant; it is unwise to predict victory before next summer's sun moves southward, but victory will come. America has 23,000,000 men registered to bring victory, and it need be other millions will register. America's entire resources are back of those men as the resources of France and England and Italy have been back of the men of those nations who have borne the grievous burden of battle so long. America is in the war sole and body, and it is well that the foes of humanity reflect upon the fact that America has never lost a war.

Essays on Fourth Liberty Loan.

In response to inquiries from parochial and private schools, Fred L. Boit, State chairman of the Essay Committee, announced that all pupils, whether in public or private schools are eligible in this state wide competition of the Fourth Liberty Loan.

Inasmuch as there is no organization to take care of the contest in such institutions, he has decided to leave the matter in charge of the heads of such schools. In some cases there are no grades, only classes correspond to grades, and in division of the public school in such cases, it will be up to the head of the private school, or such school to determine in what relative position the essay of a pupil can be entered.

Essays written in such schools should be sent directly to the state contest committee, care of Liberty Loan Headquarters at Portland. The name and grade of the writer must be on the outside of every such paper.

This is expected to add hundreds more contributions for the Essay Committee to judge.

Portland public schools are devoting time and study to the subject of the essays preparatory to the opening of the Fourth Liberty Loan campaign next week. Throughout the state there is a general interest in the contest; even in districts where school has not been resumed, county superintendents and others have been asked details of the loan.

Prizes have been announced as ten gold medals for the state-wide winners in each of the ten grades of the grammar school and high school beginning with the third grade.

In such districts where school has resumed, teachers of the different grades will judge the best essays in their classes and pass them on to the principal who will forward them to the county superintendent. The winners in the county will be forwarded to State Headquarters for main competition. Where school has not resumed, essays should be sent directly to the county superintendent.

Besides the gold medal for the state winners there will be a silver medal for the best essay in each grade in each county. All essays must be in the hands of the county superintendent on September 27, and mailed immediately to Portland.

Officers Training Camp.

No young man who is a slacker, a draft delinquent or a deserter is eligible under any circumstances to take advantage of the opportunity offered by the government for induction into the Students' Army Training Corps for special training at a university or college before called into service.

On the other hand, once a duly qualified registrant has accepted the opportunity for such induction, and has signed the required waiver of all claims for deferred classification, he must go through with the induction, and attend the college until called into service, even though he should subsequently change his mind.

To obtain this induction, a registrant must first apply in the regular way to the proper authorities of the university or college he desires to attend, for admittance thereto. The regular college entrance requirements, modified to a certain extent to meet changed conditions, will govern action by the college authorities on the application.

If this application is approved by the college authorities, it will be forwarded by them to the Provost Marshal General at Washington, who will issue a competent order for the induction of the registrant, and send this order to the registrant's local board.

The board, upon the receipt of the order, will summon the registrant before it and offer him voluntary induction into the Students' Army Training Corps. He must indicate his acceptance or rejection of the offer within 24 hours, a waiver of all claims to deferred classification being one of the conditions of acceptance.

While attending the college he is subject to call into active service at any time the Provost Marshal shall direct.

Contrary to a very wide spread belief, there is no specific age limit for the Students' Army Training Corps. The age of students accepted, depend considerably on the college authorities.

Students under 18 years of age, who can qualify for admittance to college, of course cannot be inducted into the college through draft boards, inasmuch as they are not yet old enough to register. But there is nothing to prevent the college authorities from accepting them as regular students; later, when they reach the age for registration, they may apply while in college for induction into the Students' Army Training Corps. The granting of which would enable them to continue their college work until called.

TELLS ON THE KIDNEYS

Tillamook People Have Found This To Be True.

The strain of overwork tells on the weakened kidneys. The hurry and worry of business men, the heavy lifting and stooping of workmen, the woman's household cares, tend to wear, weaken and injure the kidneys until they can no longer filter the poison from the blood and the whole body suffers from the waste matter that accumulates. Weakened kidneys need quick assistance. Doan's Kidney Pills are especially prepared for weakened kidneys; tired, worn-out backs—have proven their merit in thousands of cases. Below is convincing proof from this locality.

Frank Gaunt, 432 Lafayette Ave., McMinnville, Ore., says: "Doan's Kidney Pills are the only medicine that does me any good when my back feels lame and stiff. Heavy lifting and exposure gets my kidneys out of fix once in a while. I can hardly lift anything and when I get down it is hard for me to straighten up. After I have taken Doan's Kidney Pills for a few days, my back feels as strong as ever."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Gaunt had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

With Your Help---

The Germans have found themselves powerless to withstand the attacks of the Americans now in France. Their wild-cat courage has given them the proud record, conceded by British correspondents, of never having yielded French ground to the enemy.

Backed up by the other millions of just as courageous troops who are now on their way or training, they will form a force as irresistible as time, and will speedily make the Hun forget his dreams of world rule. Their glory will not be won without sacrifice; the utter sacrifice of life itself for some; lifelong misery from maimed and lost limbs for others.

You can help them and relieve yourself of taint of slackness if you subscribe, TO THE FULL EXTENT OF YOUR MEANS, to the Fourth Liberty Loan. Make YOUR sacrifice now.

Fire Wood.

It is an odd sight, here in Tillamook, to see carloads of slab wood being shipped in for the cheese factories and farms surrounding the town, and it is strange that they should choose to use this fuel for their winter use.

At its best, slab wood is poor fuel. It is expensive. The work of unloading it from the cars is hard. The hauling it from the freight depot is costly. It takes up car space now so badly needed for the transportation of war materials and every loyal American should bear this in mind. When it is finally set down at its destination it must be cut into stove lengths and this costs more money and more time for handling. In Tillamook and all through the county, wood of the finest quality is plentiful, and the only reason we can think of to account for the shipping in of slab wood is a shortage of labor. The cutting of logs has always been a slow job, and we suppose that the ranchers have found it impossible to get out their wood in the usual way, and so have turned to the slab wood.

But the problem has been solved by those who have used the Vaughn Light Drag Saw. This useful little saw eats its way through a big log as a boy bites through a pie. They are mobile as machine guns and as steady as armored tanks. One of them in a day will get out an immense quantity of wood, cut out of big logs into stove length.

A number of farmers or cheese factories might co-operate in buying one of these saws and get out their winter's wood in a fortnight—bid defiance to the slab pile, have better wood at less cost, have more cleared land and more neighbors and the consciousness of having done something towards winning the war. Kuppenbender will demonstrate the Vaughn Light Drag Saw to you at any time. See him.
