AIR CHOPPED UP BY SHELL

Aviator Describes Effect of Heavy Missile Which Passed Some Hundreds of Yards From Airplane.

A British aviator who had been flying in France since the beginning of the war told the story of meeting a sheil from a German 17-inch gun while he was in the air, says Popular Mechanics Magazine.

"I was at an altitude of about 6,000 feet one day and climbing higher at an easy angle, when one of those big fellows, almost at the end of its long flight, came plowing along in the opposite direction," he says. "First a dark little blur appeared ahead at an angle of about 35 degrees above me. At first it seemed to be coming right at me and I swerved to the left in an instinctive effort to dodge the threatened blow. Then a sort of droning hum became audible and that sound increased during the two or three seconds that elapsed before the big missile came up to me and swept past. It was probably several hundred yards away at its nearest, but the distance seemed less.

to rock my machine even before the La Follette Seaman act. He says let shell went by, but the full force of us build the ships, men them accordthe 'air wash' came a fraction of a ing to the terms of the Seeman's act second later. Then an almost solid and enter the field for world comwall of air nearly threw me on my merce. beam ends and I was really hard put | Shipmasters and ship owners and to it to get the reeling machine back men who have put their capital into on an even keel. For the next mile the shipping business and gave it up or two the air was like water in the say it cannot be done. Japan chuckwake of a big sidewheeler-all chopped les gleefully and sends its commisonds after a loud roar astern had told the situation and starts her merme that the shell had come to earth." chant marine for the trade of the

Youngsters First Burned German Emblem and Then Solemnly Buried the Ashes in the Earth.

"The war is making a wonderful im- enough to go to Congress for relief. pression on the mind of American childhood," remarked Dr. Edgar De-Witt Jones, a Bloomington (Ill.) pas-

some friends the other day. Doctor Jones relates a little story about his young son, age ten, to illustrate. In 1910 the pastor made a tour of Europe and brought home with him a flag of every nation visited. Occato exhibit to visitors, but for the last in a box in the doctor's study. One day two months ago the little son very earnestly said to his father: "Papa, haven't you a German flag?" The pastor replied that he thought Lamars' Drug Store-Pd. Adv. there was one in his collection, at the same time explaining to the lad that the Teutonic banner was not popular these days and was not to be exhibited.

A few days later the little son was more insistent. "Papa," he said, "I want that German flag; please get it | \$50 out for me.'

"I got the boy the flag," said Doctor Jones, "and through the window of my study watched what followed. First the boy called his sister, Dorothy. The children took the flag into the yard and with much ceremony burned it. When it had been reduced to ashes the children carefully gathered them and put them in a cigar box. Then they dug a little grave and buried the ashes. There is a little mound in the yard to show where the ashes of the kniser's colors are resting. I have never mentioned the incident to the children and they do not know that I watched them."-Indianapolis News.

Popular Prince. The bearing of the Prince of Wales all through the war has won him the admiration, respect and affection of the British peoples, here and overseas. We need not enlarge upon this, for every one knows that to say so is no courtly form of words. The prince will go to the overseas countries of the empire when the time comes with the unique advantage of having seen with his own eyes the shining qualitiesrevealed during the ultimate test of the king said frankly of himself last -London Times.

Used Liquor as Bait. The burgomaster of Arnsberg, Westphalia, Germany, having failed in all neighborhood to bring in supplies, placed this advertisement in the local newspaper "This municipality will buy all agricultural products for cash at government prices. Every person who delivers 100 pounds of bread grain or rate. 300 pounds of potatoes will receive a ticket entitling him to buy a bottle of brandy or rum at reduced prices from the municipal cellars." Within twentyfour hours the cellars were empty and the residents of Arnsberg enjoyed the first square meal they had had for

When to Cut Walnut Trees. Warning as to the proper time to cut walnut trees is sounded in a letter to the American Forestry Association from Dr. Robert T. Morris, an authority of New York city. The black walnut is destined to play a big part in the war and President Wilson has called upon the Boy Scouts to mark the trees. "From September to April is the time to cut these trees, says Doctor Morris, in his letter to the association. "If the trees are cut at other times the roots will die. It is very important to observe this rule to safeguard our future timber sup-

To Blunder Blindly to Success.

Chairman Hurley of the Shipping Board believes an American merchant "A few faint stirrings of air began marine can be built up in spite of the

to pieces-and the machine rocked like sions to notify us that we must exa springless lorry going over cobbles. pect to meet them as competitors on The air was disturbed for some sec- the high seas. England has coppered world while we are calmly advised CONSIGNED FLAG TO OBLIVION to again try to meet competition under same restrictions that wiped the American flag off the seas before the war started. Chairman Hurley says we will try to render the LaFollette act and if we fail, it will be time

Instead of merchant marine built and equipped upon scientific economic principles we are again to go in tor, discussing current topics with blindly and learn in the dear school of sufefring and experience.

For Croup.

"Chamberlain's Cough Remedy is splendid for croup," writes Mrs. sionally they would be brought forth Edward Hassett, Frankfort, N. Y. 'My children have been quickly retwo years had been kept undisturbed lieved of attacks of this dreadful complaint by its use." This remedy contains no opium or other narcotic and may be given to a child as confidently as to an adult. For sale by

Notice to Subscribers and Advertisers

Owing to the voters discriminating at the general election, giving Multnomah county a fair rate for legal advertising and other counties in the state an unfair rate, the county character-of the races that make up papers will have to raise their adverthe empire. He will go, too, for his tising and subscription rates or go own instruction and enlightenment, as out of business. Hence we will raise year when he foreshadowed his visit. the subscription price of the Headlight, commencing the first of the year, to \$2.00 per year. Advertising rates on new contracts will be 20c. per inch in future for advts below endeavors to induce the farmers of the one fourth of a page. Locals and readers will be 7c. per line. We have been in the habit of inserting a good many items free and in future these will have to be paid for at the line

SANITATION.

That the germ is the cause of most deadly disease is more than mere theory-it is a real fact. The work of tuberculosis sanitoriums, the typhoid hospitals in the canal zone, the vaccine laboratories are all evidence of the fact that the safety of man does not depend on good or bad luck, but upon the fight which each individual makes upon the disease germs, the cause of most losses of life and dollars. In selecting a weapon to kill the germs of disease several TILLAMOOK - OREGON. vital questions must be looked squarely in the face or disinfectanting will be little better than useless. First-Has the disinfectant the power to kill all kinds of disease germs? 2nd, Can the disinfectant be used safely whenever disease germs are found? 3rd, Is it effective, when used anywhere and every where, and by any body, and can it be used with safety? Therefore a disinfectant that can be used with safety must not be a poison or coatine acid, whereas poisonous disinfectants endanger the life of human beings or animals, this can be verified by turning to the files of our daily papers. When buying a disinfectant be sure what you buy as your life may depend on that purchase, look at the label, note the germ killing power and if it is poison or not. Disinfectants are measured upon the germ killing strength of Undiluted carbolic said which they undiluted carbolic acid, which they term a phenol coefficient. Look for the phenol coefficient on the label.

B. K. was tested by the United States Hygiene Laboratory and found Tillamook . . Oregon to have a phenol coefficient 10 plus or ten times stronger than undiluted carbolic acid as a germ killer. Much stronger than coal tar disinfectants -much safer.

Safe-B.-K. contains .no .poison,

Clean-B .-- K. is colorless, leaves stain on floors or walls. Drodorant_B .- K. destroys foul TILLAMOOK, . OREGON

odors leaves no odor of itself. Cheap to Use—B.--K. is so much stronger than other disinfectants that it does more disinfecting for the same money. Use it in Barber Shops, PHYSICIAN AND SURGECN Barns, Bath Tubs, Bleaching, bread boxes, chambers, closets, cupboards, cuts and scratches, house and kitchnursing bottles, operating rooms,

purifying air, sick rooms, etc. B.-K. is not a cure all but athorough germ killer.
