FAMOUS MEN OF GREEN ISLE FLYERS THEIR ESPECIAL CARE Country Has Few More Picturesq

Figures Than the Three Widely Known Myles Brothers.

Lieut. Col. Sir Thomas Myles, M. D. -better known as Sir Tom Myleswho has been in America on a British medical mission, is one of the most picturesque figures in Irish life. As students in Trinity college, Dublin, the three Myles brothers were ed States and in France, with a proper famous for their encounters with mem-bers of the "heavyweight" division of known as flight surgeons and the trainthe Metropolitan police. It used to be ers as physical directors. The medical said of the Myles brothers, that, if branch of the air service is not alone they found it necessary to heat up the confined to the selection of the flyer. Dublin "finest" at night, they were but to his care and condition after he equally assiduous in patching them up has been admitted to the service. It in the morning. So there was no hard has become apparent that the figer is feeling on either side.

of Surgeous in Ireland. It was as mechanism with troubles all his own. house surgeon in Steven's hospital that he made the first examination of the bodies of Burke and Cavendish, to be provided solely for him. the victims of the famous Phoenix park murders. The strange thing was that, at the moment, neither Sir Thomas nor the police knew that one of the bodies was that of the chief secretary, and the other that of the under secretary for Ireland.

It is a habit of the Myles family to be over six feet in height, and with shoulders and fists in proportion. In the Zulu war one of the chiefs was run to earth in his kraal by the British. who wished to capture him alive. Volunteers were asked for and Sir Thomas' brother John undertook the task. He crawled through the long covered entrance and came out ten minutes later, dragging the kicking potentate behind him by the scruft of the neck.

CITY LOYED BY FRENCHMEN

Country's Glary Indissolubly Connected With Reims, Especially Its Old and Marvelous Cathedral.

If citations of Metz have especially interested American renders, references to Reims have appealed most to the French themselves. For Reims is very dear to them-for historic, for patriotic, for religious, and for literary reasons. Nothing, perhaps, has rejoiced our French allies more than the fact that the Germans have never been able to take Reims, however close they have come to it.

It is the damage that has been done to the glorious cathedral of Reims that constitutes one of the greatest artistic tragedies of the war. Here, in this magnificent cathedral, the kings of imperial France were crowned. Here Joan of Arc led Charles VII to his coronation-the sninted Joan who freed Refins from its enemies.

One of the great pieces of news from the western front was to the effect that Reims had been finally and supplied police for 18 towns, in four definitely cleared from the menace of which women have been sworn in the German guns.

Armor Again in Use.

seum of Fine Arts, New York, Daniei Tachaux, has been working for fern varriors with the very hamners and anvils that once were seed in cumbersome that when the weater is upset he has to lie fat on his back until somebody kindly stands him ap again; but it has turned out that, for practical purposes, modern design adds separate pieces of old-time armor.

Greatest Jackplane.

A machine so pigantic that the curvsture of the earth's surface had to be taken into consideration in its construction, is being built for the Enited States army as part of the program for the "salvage" of war waste, mys World's Work. It is a huge planer, 300 feet long, which is to be used in the manufacture of gigantic lathes, which in turn are for use in the enornous "relining" plant which the ord disnapolis Orphans' home had been nance departments is building in given, consisting of the typhoid and France.

Fewer Students

War and the industries made necessary by war have had the effect of depleting the student bodies of English universities to an extent that will be serious this year. At the University of Strmingham, one of the most modern and progressive seats of learning in the of the various overhaulings: Scitain, where scientific training is . They'll be testing us next to see if Stituin, where scientific training is a specialty, all the graduates who received the degree of bachelor of scioce this year were women.

Corps of Doctors and Trainers to Look After the Aviators In This Coun-

try and Abroad.

For the care and conditioning of flyers in the air service the United States government is now appointing a corps of doctors and trainers large enough to equip each training field and camp for flyers, both here in the Unitunlike other soldiers, comments Sci-Sir Thomas was knighted in 1902 ence. In the air service he has become when he was president of the College an intricate, highly sensitized piece of To keep his complex organism physically fit a special master mechanic had

The flight surgeon, therefore, has been given freedom of Independent initiative in all questions of fitness of the fivers. Subject to the approval of the commanding officer, he is expected to institute such measures as periods of rest, recreations and temporary excuse from duty as may seem advisable. He takes sick calls of aviators, he visits such cases as may be in the hos pital and consults with the attending surgeon regarding them. He makes the examination of candidates for aviation and lives in close touch with

The physical directors are assistants to the flight surgeons and their duty is to supervise such recreation and physical training of the flyers as are ensidered necessary.

WOMEN POLICE "MAKE GOOD"

Abundant Testimony as to Splendid Work They Have Done in England Since War Started.

How England's women police have developed into a real force for the maintenance of order and public morallry has appeared in the report of Miss Goldingham, deputy commandant of the women police service, at a meeting in Richmond, where the extablishment of such a force was under disensation.

She said that these forces had been brmed from voluntary workers early the war, as a means of helping refugees and young English girls and beys who were in need of aid or advice. In three and a half years 1,000 women have been trained for the work and have found appeintments.

At present women are policing 20 unition factories, where they perform all the duties, practically, that could be expected of masculine police. The women's police service has also

Once through Templeaux and on An ancient calling is again very the main road for Persone things bemuch alive. The facting men; the see a column of 900 prisoners pass and, in a most distinguished case, the use a column of 900 prisoners pass and, in a most distinguished case, the use a column of 900 prisoners pass and, in a most distinguished case, the clear-cut, faicon faces, and between lurched these heavy-jawed, beetlestaring round with bewildered eyes at their debonnaire exptors. I saw none of that relief at getting out of it which I have read of; nor did I see say signs of feer, but the prevailing impression was an exilie stelldity and fullness. It was a herd of beasts, not nothing to the protective detail of the a procession of men. It was indeed farcical to think that these uniformed bumpkins represented the great milltary nation, while the gallant figures who lined the road belonged to the race which they had despised as being unwarlike. Time and Fate be tween them have a pretty sense of humor.-Arthur Conan Doyle in the London Times.

All night long he coughed. About midnight I awoke shivering. From his coughing I knew that he was awake, I said: "Tommy, I never was so cold in my life," and then in a few minutes I was asleep again.

An hour later I was again awakened by his violent coughing. To my surprise I seemed to be warm and wondered if the wind had suddenly changed, but from its constant whistling I knew it had not. I reached out and feit that?" two extra blankets on me. I suspected whence they had come by that vio- south somewhere."

lent coughing. I got up and carried them back to where he lay, saying: "Tommy, did you put these blankets on me?" He replied: "Yes, Yank, you said you were cold."

"But what about you?"

"Oh, me? I'm used to it." "Well, all I got to say is, thank you; but if you ever do that trick again I'll throw you out of the window in the snow and let you freeze to death." And then I put them back on his shivering. gassed body.-William L. Stidger in Association Men.

INDIAN IS LEARNING RAPIDLY

Beginning After Many Years to See That the Ways of the White Man are Good.

In the old days he depended upon the wild deer and the buffalo for food. He lived in a smoky rogan or tepee. and when anyone died there, he burned it or moved away to keep the ghost of the departed from haunting him.

In the old days he fought against the white men and collected paleface scalps. Then he called upon his medicine man to cast spells over the missionary and drive him away.

Today he is learning to farm and raise cattle. He builds a house like the white man's with floors and a cellar for vegetables, and sometimes a corrugated from roof. In case of a death in the new cabin he does not burn it, but uses the white man's disinfectants to fumigate the place.

Now he is beginning to understand what the "White Father" in Washington is trying to do for him. He has sent his full quota to our army in France and four-fifths of the number have been volunteers. He has subscribed nearly \$7,000,000 to the Liberty loans. Three times out of four he sends his children to school. Now forts are disappearing, and churches are tak-

ing their place. The Indian is beginning to "think white."-Thomas C. Moffat, in World

Spirit of the Army Woman.

These army women don't complain thoroughly mod spert. They know well enough why they are in the struggie, and the knowledge is a kind of wholesome and sustaining spiritual food. They stiffen to their hernic best. One mother and she fates seving-makes all the dother for herself and her little gri. The Southerner, too, has arisen to the occasion and takon half a house for the summer and plans to do all the work for herself and family. We're sever known her. to do anything but dress herself prettily, read navels and take the children to the movies - Ar Officer's Wife in Artispatic.

Stone Laid for Each Tribe.

The foundation stones of the Hebrew university at Jerusalem, recently laid in the presence of General Alentry and representatives of the French and Italian detachments are tribes of Israel.

The site is on the summit of the Mount of Olives, facing Jerusalem on the one side and the Hills of Mosh on the other.

Airplane Travel Fees.

In lieu of the usual allowance of seron cents a mile for expenses of srmy kg. officers traveling by an airplane, the war department announced the other fay, they will be allowed only four cents a mile. According to the railing of the judge advocate general transpertation by airplane is placed in the same class as travel by prairie schooner, dog sieds in Alaska and buffalo carts in the

Expand Air School.

An appropriation of \$1,200,000 is expected to the available for the building program to permit the expansion of St. Paul Aviation Mechanits' Training wheel to twice its present canacity of 5,000 mes. The war department already has appropriated \$300,000 to prepere the school for the winter by installation of heating plants and remodelling of buildings.

Fined for Throwing Kisses.

How Suffering Tommy, Doomed to Few of Our "U" Boat Chaser Skippers Had Had Previous Nautical Experience.

"Where do the officers of the submarine chasers come from?" I asked Tommy just before we turned into an executive officer long in the navy, our sleeping rolls on the coldest night writes Samuel G. Blythe in the Satur-

"Everywhere," he said,

'Were they sallors?" "Not many of them; some had had experience in motor boats and yachts and were amateur navigators, but the way they have picked it up is marvelous. Let me give you an illustration. When I was organizing the first flotilla that came over I questioned the young chaps who came before me as officers for the chasers. Of the first five on one day one had been a shoe salesman, another an accountant, another a nut inspector and another an actor."

'Nut inspector?' I said. "What's

"He worked on a pecan ranch down

"They had had some sailing experience and had taken short special courses at a training school. Now of that bunch three are in command of chasers today, four brought their ships across and the actor is a unit commander, and a mighty good one, too. That's where we got them. The navy just reached out and collected them here. there and everywhere, and they are good stuff and making sallors of themselves mighty fast."

FEW SHIPS ARE TOTAL LOSS

Vessels Sunk by Mines or Torpedoes Patched, Raised and Taken to Port for Repairs.

Any one who imagines that all the vessels sunk by enemy U-bonts or mines are left at the hottom of the sea would be surprised if he could he told the whole story of ingenuity, resource and unremitting toil of the British admiralty salvage corps.

Almost as soon as a vessel is sunk salvage operations are commenced. Divers are sent down to take accurate measurements of the size of the hole made by the torpedo or mine. Small holes are plugged with wood, but large ones are patched with "standards" patches. These are made of 12-inch wooden beams, and a patch sometimes weighs as much as 20 tons.

As may be imagined, the size of the hole varies greatly. In some cases it has measured 4) feet long by 20 feet wide, and in one case it has been known to be 48 feet long by 25 feet

and patched, their cargo removed and water pumped out of them they the proceed to the nearest port where they can be permanently repaired.

Several vessels have been tarmedoed after being refloated and have again been successfully raised and takes into port.

Miracle in the Mediterraneen.

In an article on the submarine wayfare in the Mediterranean contributed to the November Century, Herman Whitaker tells of a lad on one of the American destroyers who had been in a black night storm and was thought to be hope lessly lost till a voice hailed the watch from under the stern. He had caught the logiline, which trails for a couple of hundred feet behind, and hauled himself along it. Another escape was still more marvelous. Washed overboard at night from one of the destroyers, this particular lad was heaved by a wafe upon the deck of another vessel half a mile astern. When he was restored to his own ship at the end of the voyage, his captain hind the German lines. thus addressed him; "Young man, They were much pleased when it you have used up all the luck you slowly dawned on them what had hapwill have in all your life. The navy is no safe place for you. Take my ad- eral Pershing or somebody right away. vice; get out of it as soon as Uncle

Will Live in History as Having Given Their Names to Articles of Every-Day Commerce.

Three towns in northern France have given their names to articles of every-day commerce-Cambrai, from which "cambric" is derived; Arras, a term applied to a certain kind of tapestry, and Valenciennes, noted for its lace in olden times. Cambrai, too. is associated with the name of the great French ecclesiastic and moralist, Francois Fenelon, a statue of whom stood in the cathedral before the Germans captured the town. Fenelon wrote one of the most famous novels of the eighteenth century: "The Adventures of Telemachus," an account of the son of Ulysses. At Cambrai was concluded a very curious treaty, the so-called "Ladies' Peace," between Louise of Savoy and Margaret of Austria, representing France and Austria, respectively, in 1529. At Arras was born the celebrated leader of the French Revolution, Maximilian Robespierre, who organized the Reign of Perror by which he himself was finally to fall. Valenciennes no longer made the beautiful lace which its name suggests, but was a center for the manufacture of hosiery, trimmings, and handkerchiefs. It was the birthplace of two famous men-Watteau, whose paintings are regarded as perhaps the most characteristic products of French art in the eighteenth century, and Froissart, whose chronicles of the wars of the Middle Ages are full of movement and color. Near by is another famous town-Donal-whose name is joined with a version in English of the Bible prepared for the special use of the Catholic church.

ARMENIANS LOYAL TO ALLIES

None of the Conquered Peoples Have Shown More Devotion to Cause of Liberty Than They.

It has been the Armenians who have been most constant in their lovalty to the allies, and eight months ago, from the city of Van. 130 of them went forth to take up positions which had been vacated by Russians.

After the Turks took Erzerum last February they swept on against the national armies of the Armenians and Georgians through to Tabriz in northwestern Persia, threatening the south ern Caspian ports and wiping out an Armenians they met, Maynard Owen Williams writes in Asia Magazine. They boasted that they would keep on until they met the Russian army, then nonexistent. The fight by the Armenians and Georgians, lacking silted support, became more hopeless. The Georgians bravely declared their independence last May; but hardly a onth later 32 Georgian and Armenian delegates in Constantinople were utterly unable to do anything but aceeds to the Turkish demands that they withdraw their troops. It is evident that the Georgiaus are now completeby dominated.

Send in your subscriptions to the Headlight at once.

Real Annie Laurie.

More than once has this question been asked whether "Annie Laurie" the subject of the beautiful song, was a real or fictitious person.

A letter has come to hand that was written by Miss M. E. Riddle, daughter of the late Judge Riddle, for many years a circuit court justice in the Pittsburg district. The Riddles were of Laurie ilk, as Scotch folk say and they had gone to some considerable pains to get the story of the song straight, as there had been considerable contention about it. Here it is:

'Jean Riddell (the name later spelled Riddle) was married to Sir Robert Laurie, the first baronet of Maxwelton. One of their daughters was Annie Laurie, celebrated in Scotch song.

"Annie Laurie was famed for her beauty and eleverness, and was a social favorite in all the country round about, so it was not at all surprising that she captivated a Mr. Douglas, of England, a man of culture and of letters, who composed the song bearing her name.

But seeing that the course of true love does not run smoothly, she married a Mr. Gurgesson, leaving Mr. Douglas to his hunting and his

To this day many pilgrims go to Max welton, drawn thither by the much loved song, 'Annie Laurie' Many also visit Craigdorroch, where she spent her married life in comfort."

WOMEN GIVE OUT.

Housework is hard enough when ealthy. Every woman who is having backache, blue and nervous spells, dizzy headaches and kidney or bladder trouble, should be glad to hear Hillsboro woman's experience:

Mrs. S. A. England, 728 W. Oak St., Hillsboro, Ore., says: "Two years ago I had such a bad attack of lumbago I wasn't able to get up or down stairs. When I sat down on a chair I could hardly get up again. Sharp pains, like a knife sticking in my back nearly killed me. I could hardly drag myself around. I felt so completely played out. I had taken only a few doses of Doan's Kidney Pills when my back began to feel stronger and had used only one hox oner pens talk German like satives, when I was able to get about as well but often the prisoners don't and that as ever. Since then have never had any trouble with my back or kid-
