## FCRERUNNER OF THE BICYCLE DESOLATE CITY IS NISHAPUR Home of Writer of the Rubalyat One Velocipede Was Considered a Swift of the Most Forbidding Spots

on Earth. The isolated city of Nishapur, in

Persia, was the home of the Persian

best known of all his nation to the

western world-Omar, surnamed Khayyam, or the Tentmaker, author

of the Rubaiyat. The poet is still one

of the great historic figures in his ancient city, but he is remembered there

not as a poet or a tentmaker but as a

sage, philosopher, astronomer and

Nishapur lies in a barren upland plain, many days' overland journey

Looking southward from his city,

Omar saw a level, featureless plain, depressingly treeless, save for here

and there a clump of slender poplars.

The winter turned it to a lifeless gray;

in the summer, pitiless sunlight and

choking dust tormented the eyes. Only

for a brief spring season did the fresh

green of growing crops, the cool mists

that rose after the early rains and

the rainbow gleams of pale color from

the mountains lend the vista a

melancholy charm. Beyond the plain

rose another row of low hills, and be-

yond that, he knew, stretched the end-

ess desert. Each year a few weeks

of joy and beauty; between mountain

and desert a few miles of half kindly

hardly broke the hostile round of na

ture---it is easier to understand the de-

**GREAT POET'S LIFE UNHAPPY** 

John Milton, Wonderfully Gifted Intel-

lectually, Was Yet a Man of

Many Sorrows.

The great English poet, Milton, is

described at the age of sixteen as

"scholarly, accomplished and as hand-

some a youth as St. Paul's had sent

forth." That was at the age when,

He was born on Broad street, Lon-

don. His father was a man of educa-

tion, with a decided talent for music.

Milton inherited all his esthetic quali-

ties-indeed, the rougher element at

college called him "the lady," though

nan-tilled earth-bits of respite that

Moving Vehicle When First Introduced Into This Country.

The velocipede made its appearance in Washington 50 years ago, much having been heard of this new device. which had developed a veritable fever in France. In an article in the Washington Star of November 20, 1868, it was noted that the use of this vehicle had been "brought to such perfection that it is claimed 20 miles an hour has been made with it." The Star said:

"Lately the velocipede has been introduced in this country, and our young Americans, who at one time had the boxing mania, followed by the baseball mania, are now going strong on the velocipede, and it will doubtless have its run all over the country. Graham, the carriage dealer on D street between 8th and 9th, has just imported a first-class velocipede, and it is an object of great attraction at his establishment. It is a smart, stylish-looking affair, but very simple in its working. It can be run most rapidly with two wheels, but it is convertible to a three-wheeler. The working of it brings in play most of the muscles of the body, and it is said to be very healthful. From the facility with which it is steered or turned, it can be used on any sidewalk or gravel walk. The gravel walks of the Smithsonian would be just the thing for velocipeders. The style of velocipede to be seen at Graham's is the latest French style, introduced in this country by the Hanlon brothers, gym-

# TENNYSON NOT IDEAL HOST

Great Artist Who Was to Paint Portrait of Laureate Got Somewhat Dubious Reception.

Here is a tale of Tennyson, told by Sir Hubert von Herkomer, R. A., who once went to Freshwater for the purpose of getting sittings for a portrait of the laureate:

"Getting to the station rather late, I left my things there, not knowing what sort of reception I might get. After I had been received by Mr. Hallam Tennyson, the present Lord Tennyson, old Tennyson came shuffling in-he had a shuffling way of walking because he was near-sighted - and shook hands with me.

"'I hate your coming,' he said; 'I having finished preparatory school, he cannot abide sitting.' was ready for the university. "That did not seem very promising.

However, after he had conversed for some time he said : "'Where are your things?'

"I explained, and thereupon he got up, rang the bell, and told a servant to fetch my luggage. "'You had better put up here,' he

said. "I felt I was getting along. At eleven o'clock I went to my room, still wondering whether I would succeed in my mission or not. Shortly afterward there came a rap at the door and I said, 'Come in,' turned around and saw Tennyson standing in the door. He

## flant pessimism of the Rubniyat after seeing Nishapur. - Chicago Daily Weekly Health Talks What Doctor Pierce Has

Done For Humanity!

BY DOCTOR CRIPPS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human diseases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so to-day the names of Dr. Pierce and his medicines are widely known, and all recognized his intellectuality. Even they stand for better health and better citizenshin.

at that period, long before he was One of this great physician's most twenty, he contemplated writing the great "Paradise Lost," which was not successful remedies is known as Doctor finished, it happened, for forty years. said : "I believe you are honest. Good

night!' and thereupon departed. "It was his way of making amends for the rather dubious way in which he had first met me."

## The Swallow's Back

An Indian legend tells us that when men first came on earth they had no | of being looked after. fire. The Great Spirit taught them how to do many things; he taught them how to get food from the forest, fish from the waters and corn and beans from the earth, but fire they themselves must learn to make.

Even with all the gifts they had showered upon them they were not happy, but kept thinking all the time of the one thing which they still wanted, instead of enjoying the many gifts which were already theirs. All fire was then in the sun, and they could think of no way to get it. Men could not reach it in any way, and no bird cared to go after it.

Finally the swallows, who could fly more swiftly than any of the other birds, offered to go to the sun so far away and bring this gift to men. The swallow's back is still black. but no one ever tried to get fire from the sun again that way. Long years afterward men learned how to make fire by rubbing sticks together.

#### Do Away With Mental Lapses.

There's little difference between the pupil that sits gazing blankly out of the window and the man who sits at the desk conscious of much to do but unable to start things. A truant mind is sure to embarrass any one who per-mits mental lapses. What right have you to be dreaming of the girl you might have married when you have tied up to another? What's the use of fussing about the order you lost yesterday? Nothing you can do today can redeem it. The only thing possible is to take your medicine like a man and fortify yourself with every-thing needed to land the next one. Forget the past and make the present count. After all you are living today and have hope only for tomorrow. Think in terms of making the most of what you have and the result will be entered on the credit side of the ledger.

# Merely Wanted the Materials.

"So you married my daughter thinking I'd pave the way for you in business? Is that it?"

"Well-er-not exactly. I'd do the paving, but I thought you might furthe rocks."-Boston Evening oish Transcript.

turned out: had written some stirring married and been left a widower again; had lost his sight; had found the three neglected children of his first marriage not model daughters; had lived in terrible loneliness in spite of his great fame, and had been persuaded to marry a third time, for the sake

He was an old man when the great "Paradise Lost" appeared, which is called "one of the few monumental works of the world," and his death followed some ten years later.

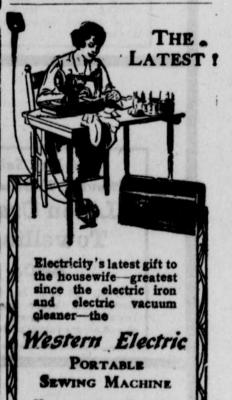

#### How Tosti Repulsed Bore.

Many famous singers were pupils of Tosti. During one of the busiest of his mornings, when he had a long list of singing lessons to get through, a knock came at the door of his flat. His valet being ill, Tosti went to the door himself. A lady, strange to him, stood on the threshold. "Signor Tosti?" she inquired. Tosti bowed. "Oh," said the lady, "I am singing your song, 'My Memories,' at Manchester tonight, and I want you kindly to run through it with me." "Madam," answered Tosti, politely but firmly. "I fear it is impossible. I have two pupils with me now, and a third is waiting in the anteroom, while others will arrive short-

"But you must," the lady persisted. "I am sorry-" began Tosti again. when he suddenly received a violent push backwards, and the lady walked into the studio. Tosti followed, protesting. After a long argument, which threatened every moment to become beated, the lady mapped out: "Very well, then, I shan't sing your song.' "Madam," said Tosti, taking her by the hand. "I am infinitely obliged to you." The lady gave him one look and fied.

#### St. Brice and Football.

In November is the festival of St. Brice, who may be called the patron saint of football players, not alone because his feast day comes during the season of the gridiron game, but for quite another reason. St. Brice's day was long generally observed in England, and in the year 1002 the celebration took the form of a general massacre of the Danes. It was on that day, according to tradition, that the English game of football was invented. with the head of a Dane as the ball. St. Brice, of course, was not responsible for either the massacre or the football game, having died some six centuries before. He was a bishop of Yours and lived in the fifth century.
