# Job of Spending Gigantic Appropriations Too Big for the Spenders.

Dollar Haters.

#### (By Arthur Capper) (U. S. Senator from Kansas)

The 65th congress just closed made such lavish appropriations during has ever flung money broadcast with and after the war that the job of the reckless abandon with which spending the nearly 80 billions ap- billions have been and are still bepropriated was too big for the spend- ing spent by the present trustees of ers. Consequently about 20 billions the nation. will be saved. The ultimate cost of the war will be about 60 billions. These figures are based on an estimate made in Washington.

No true American begrudged the to hate the sight of money judging amplest expenditures for the war- from the manner with which they we had pledged our all if veed be- throw it away and try to get rid of but dumping our resources in a heap it. and "going it blind" is not to make It is due to this riot if indiscrimefficient use of them. Yet, with the ination and unexampled spending war at an end, no enemy in sight, that the American people at the and the cations discussing peace and present time are the most heavily reduction of armament, this prodigal taxed nation on the globe. administration is urging the appropriation of nearly 2 billion dollars estimates that it will cost the Amerifor a standing army, and a record- | can tax payers 1,200 million dollars breaking big naval program, the a year for the next quarter of a cenbiggest naval program in history. | tury to pay off our net war debt,

The symbolic device on the seal of less the amounts lent to the allies. the United States Treasury should This means we must be taxed every be a sieve. The great pity is that the year for 25 years to raise 765 milmillions and billions which now pass lion dollars annual interest to be through the great vacuum at Wash- paid to bond holders. Also for the adington must be dug out of the earth ditional 417 millions a year to go inby our workers and producers and to a sinking fund in order to pay off then taken from the earnings of the the principal. common people and the pockets of In other words, to lift this debt on

the great consuming class, while at the installment plan-and we now their source they represent natural can lift it in no other way-we must wealth which can never be re-creat- pay 80 billions of dollars to square a debt of 18 billion dollars. ed for us.

It is estimated that our total ex-Income Taxes. One-fifth of every American's in- gregate 30 billions, or 10 billions come will be taken away from us this more than the combined resources year for taxes direct and indirect. of the 12 Federal Reserve Banks. This is the result of the world's For a standing army of 175,000 greatest financial drunk which has men \$1,070,000,000 would have been been going on for months at Wash- appropriated had congress been able ington. No orgy of spending in all to reach the bill. That ought to give history compares with it. One-tenth us an army of 175,000 major generof this country's estimated wealth als instead of soldiers. has been appropriated at a single No country in the world ever spent term of congress. On top of this with so much money on its military arm a 7 billion issue of Victory Loan in time of peace as these approprianotes coming in April-the Treasury tions for our army and navy. The meanwhile borrowing money from naval appropriation alone exceeds the banks to meet running expenses, the combined annual naval budgets with the war an event of the past, of the world's three greatest marithis Congress O. . K.'s though it did time powers preceding the war. Adnot reach and pass an appropriation ded to this, 626 millions more are of 720 million dollars for the navy, the greatest naval appropriation bill shipping board and the Emergency in the history of the world; provides Fleet Corporation and others. for spending 1,070 million dollars The new warships will be obsolete on the regular army; and then, like before there can be another great a drunken sailor strewing the street war. They will be rotting hulks with his pay, throws away nearly long before half our war debt can be 100 million in "small change" on paid. In my humble judgment we are public building and river and harbor in much more danger of going into 'perk". An appropriation for the national bakruptcy than of going to federal employment 'service, which war between now and the time this might have been the means of saving dearly bought war junk would have us from something worse than a war to be sent to the scrap heap even if in Europe-bolshevism in America, the world fails to achieve a permanfor instance-was ruled out of order! |ent peace.

## Weekly Health Talks What Doctor Pierce Has Done For Humanity! BY DOCTOR CRIPPS.

It has always seemed to me that Dr. Pierce, of Buffalo, N. Y., should be placed near the top when a list of America's great benefactors is written. He studied and conquered human discases to a degree that few realize. Whenever he found a remedy that overcame disease, he at once announced it in the newspapers and told where it could be bought at a small price. He did not follow the usual custom of keeping the ingredients secret, so that the rich only could afford to buy the medicine, but openly printed the name of each root and herb he used. And so to-day the names of Dr. Pierce and his medicines are widely known, and they stand for better health and better citizenship.

One of this great physician's most successful remedies is known as Doctor Pierce's Pleasant Pellets. These are little, sugar-coated pills, composed of Mayapple, leaves of aloe, root of jalapthings that Nature grows in the ground. Very often they make a person who
