WHEN new positions open up—when better men are needed to fill the places that are on up ahead—those who have regularly saved money are selected for the opportunities.

Such men know the principles of business management because they have long applied them in their own interests.

Thrifty people find that a savings account in this strong, progressive bank has many advantages. Our specialized study of business and financial subjects permit us to be useful to the progressive.

SURPLUS OF MEN.

Investigation Proves There are Fewer Females in West.

There is in the United States no surplus of females. The contrary is the case. For every 100 women there are 105 men. For this condition of affairs immigration is to some extent responsible. But for every 100 native born white women there are 103 native-born white men.

Husbands, of course may be picked up anywhere. But in some places they are much thicker than in others. Take the case of an average girl in New England. Suppose her to have no immediate husband in prospect. The local opportunity matrimonial is poorer in that part of the country than anywhere else. Why not look elsewhere? And if so, whether shall we look.

She need not be left in doubt, for the government census will give her the exact advice on the subject that she needs. It will tell her in definite figures where the supply of bachelors is most plentiful, relatively, to available spinsters.

She may thus learn that the bachelor supply is at a maximum in Wyoming, Idaho and Arizona, where there are 10 unmarried men for every unmarried woman. Obviously, for unattached females, these states are a great matrimonial hunting ground.

In Washington, Montana and Nevada there are seven uncaptured males for each maiden. Think of the premium on the individual spinster!

It falls to less than five in Oklahoma, Colorado and Oregon, to three for each spinster in California, the Dakotas and New Mexico, to two and a half bachelors to every maiden in Utah and Minnesota, and to a bit more than two in Nebraska and Texas.

From these figures the spinster may learn just where in the United States she can find her best matrimonial market. It is no gamble.

The surplus of unattached males is mainly to be found in the west, but there is more or less of it everywhere—even in New England. It is smallest in Massachusetts, where there is an excess of bachelors amounting to a fraction of 1 per cent. In Rhode Island the surplus is 2 per cent, in New Hampshire 9 per cent, in Maine 37 per cent, in Vermont 54 per cent and in Connecticut 50 per cent.

Do You Sleep Well?

To be at his best a man must have sound, refreshing sleep. When wakeful and restless at night he is in no condition for work or business during the day. Wakefulness is often caused by indigestion and constipation, and is quickly relieved by Chamberlain's Tablets. Try a dose of these tablets and see how much better you feel with a clear head and good digestion.—Adv.

IN THE SPRING

When Energy and Vitality are Lowest, then—Influenza!

(By S. C. BOWER, M. D.)

At this time of the year people feel weak, tired, listless, their blood is thin, they have lived indoors and perhaps expended all their mental and bodily energy and they want to know how to renew their energy and stamina, overcome headaches and backaches, have clear eyes, a smooth, ruddy skin and feel the exhilaration of real good health singing thru their bodies. Good, pure, rich, red blood is the best insurance against ill of all kinds. You are apt to suffer from an attack of Influenza if your health is run down.

Purify the blood and you can defy influenza. This is the time to clean house and freshen up a bit.

Drink hot water a half hour before meals, and for a vegetable tonic there's nothing better than Dr. Pierce's Golden Medical Discovery, the old-fashioned, herbal remedy, which has had such a fine reputation for fifty years. It contains no alcohol or narcotics and is made into tablets and liquid. Send 10 cents to Dr. Pierce's Invalids' Hotel, Buffalo, N. Y. for trial package.

Marysville, Calif.—"I needed a tonic; my blood was thin, I was run-down, my back ached, my kidneys were weak and digestion was so bad that I could not even drink milk. I remembered that mother had always depended on Dr. Pierce's Golden Medical Discovery, so I decided to take it. In a short time I was greatly benefited. I continued taking it and was a well woman."—Mrs. J. S. Barker. 219 SIA St.
