**Asks an Accounting for Appropriations.**

Provoked by the efforts of the administration to cover up its own past negligence in handling the growing menace of high prices by urging Congress to make additional appropriations with which to attack those responsible. Representative MacCrack, Republican of New York, has introduced a resolution calling upon the President and the heads of all executive departments to account to Congress for the huge appropriations already made for this purpose, and to explain what steps have, or have not, been taken during the past year to combat the hoarder of food supplies, and the profiteer.

"Long ago, Congress gave the administration the power to go into every cold storage, packing and food hoarding plant in the United States to demand information as to cost, production, and current supply of food materials," said Mr. MacCrack, "and the time has come when they should inform Congress what has been done. What has Secretary Houston done with the great appropriation placed at his disposal? In 1918 we gave the Department of Agriculture \$2,225,000 to investigate the very questions that are harassing us now. A little later we gave this department \$7,000,000 to stimulate the production of meat, and last July we appropriated \$1,157,970 for the gathering of facts concerning food prices. Secretary Houston now asks us to give him an additional \$500,000 to combat the high cost of living. I think we ought to know what he has already done before we make additional appropriations."

Colonel House and President Wilson, it is said, have fallen out. As Colonel House is about the only one of the men who put up the money and the effort to put Wilson in the Presidency who was still on speaking terms with him, the report is readily believed.

No doubt when Kentucky goes Republican this fall somebody will be mean enough to blame it on the demise of John Barleycorn.

General Ansell says Secretary Baker fought clemency. That was for real soldiers, however, not conscientious slackers.

One way to raise the wages of the railway men would be to discharge the 159,000 extra hands it took to help the 1919 employes do less work than they did in 1918.

A French deputy says that successful operation of the league of nations is unnecessary unless human nature changes. O, well, we will have a law passed changing that.

American troops are in Silesia to supervise an election. Silesia ought to be able to make out about as square an election as Mississippi or South Carolina without the assistance of federal troops, don't you think?

The peace commission has cost us a million and a quarter already and enough more is asked for to make the total cost two million dollars. It even costs something to get nothing. Surely the other nations of the earth ought to be perfectly willing to foot this bill.

As Railway Administrator, Secretary McAdoo and the members of his family, it develops, had railroad and pullman passes, and even as president of the movie trust, Mr. McAdoo continues to ride for nothing. Evidently Mr. McAdoo doesn't believe in the French army motto: "Thou Shalt Not Pass."

Dr. Paul Reinsch, American ambassador to China, has resigned because he objects to having his pledges to the Chinese government repudiated by the administration which authorized them. Dr. Reinsch seems to be troubled with some old-fashioned ideas about international honesty.

Minneapolis, (Minn.) Tribune: "Perhaps you remember the story of the two men who owned a cow in partnership? One of the partners claimed the end that gave the milk and generously conceded the end that must be fed to his associate in the cow business. For some reason the latter was not satisfied. Strange, but this makes one think of the Plumb plan for the ownership and operation of the railroads."

The Buffalo (N. Y.) Commercial, says: "It is one thing to say that the government shall buy the railroads and quite another for the government to raise the \$20,000,000,000 to put through the deal. When it comes to issuing bonds the people would have something to say about it, and we cannot conceive of their coming forward for such a proposition with anything like the zeal they showed in subscribing to Liberty bonds. Fancy capital responding to an appeal for a labor controlled railway system."

**Can't Do the Work.**

It's too much to try to work every day against a constant, dull backache or sudden darting pain in the small of the back. Be rid of it. Try Doan's Kidney Pills. Your neighbors recommend them.

Mrs. H. Lidyard, 4th Ave., Forest Grove, Ore., says: "Three years ago my kidneys were in a bad way. My back nearly killed me, it ached so. For several days at a time, I couldn't get about to do my work, my kidneys were also congested and my limbs began to swell. My head felt dull and at times I was so dizzy I could hardly stand. All sorts of spots and objects seemed to appear before my eyes. I felt so miserable I didn't care if I did anything or not. I had taken only two boxes of Doan's Kidney Pills when I began to feel better in every way. I used four boxes in all and they cured me of the backache and put my kidneys in a normal condition."
