Charming Picture is "Rags" Starring Mary Pickford.

In "Rags" the story of a girl's rise from the lowest strata of life to a position of social importance, through which she finds it possible to marry the man she loves. Mary Pickford, for which the story was especially written, finds a charmingly effective characterization. This

original photoplay will be seen for the first time at the Gem Theatre Friday, November 7. There is a substantial material in "Rags" on which to build one of those great photoplays in which Paramount has always succeeded in presenting this popular star. There is melodrama in parts of the story refined by a touch of delicacy inseparable from all of Miss Pickford's impersonations.

Christian Church, Thursday Next, November 15, at 8 P.M.
