High School Notes.

Cow bells, horns, whistles and yells rent the air Wednesday evening. The onlookers were amazed at our show of enthusiasm over the game on the morrow. Up and down the streets the rooters went, rooting for T. H. S. The Frosh had built a large bonfire and the rally ended or rather began there. The All Stars' coffin was burned, which proved to be a mistake as they might have used it the next day.

Those playing the teams were:

All Stars	R. E. L.	H. S.
Stark	R. T. L.	Gabriel
Woods	R. G. L.	Farley
Joy	C.	Small
Erskine	L. T. R.	Grey
Eades	L. E. R.	Hoy
Gulstrom	F.	Sharp
Conover		Harris

Foster L. H. R. Lienkaemper
Travis R. H. L. Olson
Wallace F. Moulton

Substitutes. Art Case.
Referee, George Hefley.
Umpire, L. W. Turnbull.

Thanksgiving was an ideal day for football. The game was called at three and during the first quarter not a score was made. During the second quarter Clarence Gabriel made a touch down. Score 6-0 in T. H.'s favor.

Third quarter started amid the cheers of the rooters, another touch-down was made by Gabriel. Score 12-0 in our favor. During the fourth quarter there wasn't a score made but there was some hard fighting. The final score was 12 to 0 in favor of the H. S. The game was the best played for several years.

Another event of Thanksgiving day

was the marriage of Audrey Earl and Chauncey Davis. Mrs. Davis was a prominent high school member and the high school wishes to them a happy and successful married life.

Last Wednesday Dr. Richter and Mr. Grant of the Oregon State Hygiene Society gave some very helpful talks to the boys and girls of this school.

Dr. Richter was one of the 240 women physicians selected of 6000 to give lectures to the girls throughout the United States.

Mass Meeting.
You are invited to be present at a mass meeting in the High School Auditorium to discuss the need of a gymnasium for the Tillamook school.

Do you realize that 38 per cent of the men called in the draft were rejected because of physical defects

which could have been largely or entirely corrected by adequate attention to child hygiene and physical education? Terman estimates that 50 per cent of our school girls have spinal defects which could be remedied.

Mr. Ralph Coleman, instructor in Physical education at O. A. C., will discuss the needs of a gymnasium as shown by the experience of other schools. A number of Tillamook citizens will give four minute talks on the proposition, which will be voted on December 19.

If you are for a gymnasium come and help boost.

If you are not in favor of building one, come and hear what can be said in favor of it—that much is owed to the young people of the community.

High School Auditorium, 8 p.m. Thursday evening.

Dr. Gregory of the U. of O., gave a practical talk on psychology before the assembly on Tuesday afternoon. We welcome him because he is a booster for our gymnasium project.

Jersey Breeders Attention.

A special meeting of the Tillamook County Jersey Cattle Club will be held at the Fairview Grange Hall on Monday, December 8, at 8 p.m. Matters of great importance will be brought up. All Jersey breeders be sure and come as we want a large attendance. Light refreshments will be served after the business meeting.

A. F. Blackadar, Pres.
Joe Donaldson, Secretary.

Portland, Ore.—According to A. J. Jaenicke, insect specialist of the forest service, in the smaller creeks and along their banks in Tillamook County, Ore., there are millions on millions of caterpillars—so many, in fact, that they are found dead in windrows. Even the bottom of the streams are covered to a depth of several inches. When the worms mature into moths the air for miles around is black with them. During the past year, Jaenicke states, the pests have killed several million feet of Douglas fir and Hemlock timber. He believes, however that logging operations and natural causes will serve to prevent a recurrence of the breeding of the worms.—Nashville, Tenn., News.

No wonder the trout don't ever get hungry with so much meat to eat and perhaps this explains some of the cloudy days we have sometimes, the air perhaps is full of these bugs.—Amity Standard.

SPECIAL

We Could Scarcely Believe It

when the new Little Polly first came to our store, and we saw for ourselves the various patented features that make the

LITTLE POLLY
Kembath Process
BROOM

different from any other you've ever used before.

Compare the full, soft, flexible tip of the Little Polly with that of the old style wire wound broom and you will note for yourself the difference.

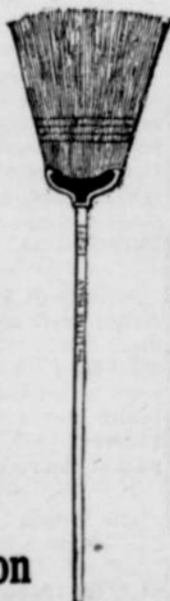

The tip of Little Polly doesn't sag or wear to a point, but wears down evenly straight to the handle.

It is so firmly built, the handle neither loosens nor slips. The fibres are toughened and made pliable by the Kembath process. They are protected at the shoulders by a composition top.

We sell Little Polly, and lots of them.

C. D. & C. M. Dawson

The regular price of Little Polly Brooms is \$1.50, but we shall offer them for a limited time at \$1.35 and give each purchaser a broom holder FREE. Come Early.

When you get your "Little Polly" do not forget what you need on this List :
