

Jerseys for Sale.

Place a purebred Jersey Sire at the head of your Herd!

By doing so you increase the quality and quantity of TILLAMOOK CHEESE.

Katy of Shady Lawn Farm. No. 330122. Age 4 years.

Hermit's Pussy Fancy.

This is a chance for the dairymen of Tillamook County to head their herds with a pure bred Jersey sire. My cows will start to freshen Feb. 20, 1920. I am offering for sale only Male Calves from my pure bred Jerseys. The dams of some of these calves have an official record as follows:

Katy of Shady Lawn Farm—No. 330122, age 2 years, 3 months, 397.67 lbs. fat.
Orinda's Blossom—No. 329164, age 3 years, 473.44 lbs. fat.

Have others on test that will complete their year in May, 1920, they will make some excellent records. These cows are bred to Golden St. Mawes Rosalie No. 161026 who won the blue ribbon at the Pacific International. His dam is Golden St. Mawes Waltz Rosalie No. 299384 who has a record of 559.30 lbs. fat, being milked only twice daily. If milked three times daily she is capable of making seven or eight hundred lbs. fat. His grand dam, St. Mawes Poppy No. 219992 on his sire's side has a record of 952 lb. fat. He is one of our great herd bulls, his daughters in the Junior Calf Class won 1st and 2nd at the Tillamook County Fair and "third" in a class of twenty junior calves at the Pacific International. We often hear dairymen say they would just as soon have a "scrub" bull. I will present the figures that show the result of a purebred sire in my herd. I started using him in 1912. His first daughter freshened in 1915. Will give the figures of each month's cheese factory test for 1914 and total amount of fat per year before any of the bred sire's daughters were in milk and the same for 1919:

Month	1914—No. of cows 56.	Test
January	3.5
February	3.5-3.8
March	3.5
April	3.6-3.6
May	3.5-3.4
June	3.6-3.7
July	3.7-3.6
August	3.7-3.8
September	4.0-4.1
October	4.1-4.2
November	4.5

December	4.7
Total lbs. milk	277,610
Total lbs. fat	10,392.77
1919—No. of cows 57		
Mo.	Test
January	4.5
February	4.4-4.3
March	4.2-4
April	4.0-4.0
May	4.2-4.3
June	4.3-4.5
July	4.4-4.4
August	4.5-4.5
September	4.6-4.6
October	4.7-4.9
November	5.1-5.3
December	5.5-5.3
Total lbs. milk	332,021
Total lbs. fat	14,933.97

This shows an increase of 4,541.20 lbs. fat valued at approximately 82 cents average price for 1919 or \$3,723.78. Compare the two different years and I am sure the figures will convince you that it does pay to have a pure bred sire at the head of your herd. One can readily see that the pure bred sire increased the fat and milk production and also increased the quality of our Tillamook cheese. It doesn't require any more effort to produce a high grade milk than it does a low grade milk and these figures which show you that it increases your bank account wonderfully. I am offering heifer calves for sale from my grade cows. Some of these cows have made a record of nearly 600 lbs. fat and several above 400 and a very few below 300. They are bred to my herd bulls Golden St. Mawes Rosalie and Riolars of Rock Ridge. We have been breeding dairy stock for over fifty years and you are sure to get the best if you select from this herd, the herd that has always, until this year, produced the largest cheese check in the county for any one month and this year the herd was divided into two farms; some of the largest checks for the two were \$2700 (twenty seven hundred).
Every cow is on test; come and look the herd over and get first choice.

DON MEADOWS JERSEY FARM Since 1867.
JOE DONALDSON, Prop., Tillamook, Ore.

WHY

Tradition Has Hallowed the Church of St. Giles

St. Giles church, in Edinburgh, stands for undiluted Scottish tradition. From its massive stone columns, centuries old, to the crownlike dome which towers over Edinburgh St. Giles is typically Scottish—of the old-time Scots who wore the plaid and talked a language of their own.

St. Giles has served as a background for much history and romance. In time of Civil war it has been turned into a well-armed fort, and in time of so-called peace it has been plundered and burned. Its many alcoves have at times been paroled out for distinctly worldly purposes, such as a bill town clerk's office, school and court, while the nave and altar were reserved for the minister and his congregation.

Of St. Giles stories, none is more popular than the dramatic adventure of Jenny Geddes and the three-legged stool. A certain king ordered the service of the Church of England read in St. Giles which was a stronghold of the Scotch Presbyterian faith. The dean of St. Giles started bravely to conduct the service amid harmless but disgusting protests and growls from his hearers. But Jenny Geddes, an old vegetable vender, soon saw that the dean was unimpressed by mere words. She seized the three-legged stool on which she had sat and hurled it with deadly aim. The dean ducked and fled, and the Church of England service was never attempted in St. Giles again.

Why Reform Is Slow in China.

One will sometimes see groups of Chinese women comparing their feet to see who can boast of having the largest. This is particularly true of native women who have become Christians or who have been educated in the Christian schools. They feel a new independence—an independence of body as well as of mind and soul and are proud that the old bodily shackle of maimed feet is gone.

The reform, however, in spite of the fact that China has a law prohibiting the binding of girls' feet, has not reached further than the cities and the higher classes. It has been calculated by the former Peking correspondent of the London Times, after a long journey through the interior of China, that 95 per cent of the women still have mutilated feet. China's numbers are so immense that it will require a long period to lighten the whole lump.

How Hand Reveals Character.

The human hand, like the eyes, has a language of its own and can be made an interesting study. The lines in the palm deal solely with palmistry, but there is still another method of character reading found in the shape of the hand, and in this instance thought may be centered at first upon the fingers.

Long fingers denote perseverance and ambition, while extremely short ones indicate the habits of laziness and indifference. Those coming under the head of medium in length lay claim to vanity. The type thick at the base of the hand and which tapers to a narrow point at the finger tip usually belongs to a selfish and unforgiving individual, contrary to the person possessing flat finger tips, wherein a stubborn nature and strong will is constituted.

Why Bright Colors Are Popular.

There is a craze for sunshine colors in house furnishing and decoration now. The drab years have passed, says the continental edition of the London Mail, and with them have gone the taste for grays and fawns. Rooms now glow with happier tints. A firm which guides or interprets much of the most beautiful and a good deal of the most extravagant schemes of interior decoration has been lighting up the walls and windows, the carpets and the chairs of town and country mansions with blues, purples and oranges, jade, greens and "flame," the last perhaps the newest color for faded rooms.

Why More Railroads Are Needed.

Despite a border line of some 300 kilometers between France and Italy, the frontier is crossed by but two railroads, at Dodane and at Vintimille. Yet on both sides of the frontier are situated rich regions whose industrial activity could be augmented by proper railroad facilities. It is now planned by chambers of commerce representing both countries to remedy this defect. Various projects have been advanced and a certain number of them will shortly be put into execution.—Christian Science Monitor.

Why There Are Noxious Perfumes.

Wild things would disappear if we fixed the perfumes of the vegetation to suit our own desires. The things we call noxious are quite as important in the world as the things we have learned to love and enjoy. Something somewhere, is attracted or repelled by every odor that we encounter out of doors, and the old world wobbles on in bliss because it is so well arranged for the creatures that inhabit it.—George F. Burtin in Columbus Dispatch.

How Lamps Came Into Use.

The inventor of the lamp as we know it at the present time, with the wick fitting into a cylinder and an upward air current supplying oxygen, is said to have been Albin Arzand, a Swiss, born in 1755, but the use of lamps did not become common for years thereafter.

Famous Hall Caine Novel Picturized With Fine Results.

A magnificent picturization of "The Woman Thou Gavest Me," by Hall Caine, the most famous novel by the Manx author, will be seen at the Gem Theatre next Tuesday, February 17th. Hugh Ford, one of the most experienced stage and screen producers, went to California to make the picture with a powerful cast which includes Katherine MacDonald, Milton Sills, Theodore Roberts, Jack Holt, Fritz Brunette, Katherine Griffith and others.

"The Woman Thou Gavest Me" was produced upon the stage by Derwent Hall Caine, son of the author, in 1917, in Boston with success. As a novel it outsold all other works by Hall Caine.

As a picture it doubtless will prove one of the screen's greatest triumphs. The tremendous story of Mary's

struggles after being sacrificed upon the altar of wedlock to a man she hates is unforgettable and as the story covers a wide field—Egypt, Africa, India, England and the South Polar regions—it will be not only powerful dramatically but colorful and fascinating in every other way.

The production is practically an all star cast of players. Miss MacDonald a prime favorite, has the leading feminine role and Jack Holt has one of the best roles of his screen career.

**THE FAMILY'S
REASON.**

Every member of the family likes the Columbia Six.

The younger people like it because of its spirited power and clean-cut design. The older members of the family like its rich appearance, its substantiality—the ease with which it is maneuvered—the confident comfort they enjoy while they are in the car. They ALL like it because it is the same GOOD car each one they take it out—a joy to drive; a beautiful car to own.
