## "The White Heather"

YOU will gasp at the dare-deviltry of the man who fight to the death on the ocean floor, eight fathoms down. You will be spell-bound at the sheer beauty of the scene.

The sublime love that leads a woman and a man up to the smashing denouement will hold you so enthralled that--

Come to see "The White Heather!" There never was another picture like it! Adjectives cannot describe it! You must see it to believe that such a picture is possible.

By special arrangement the undersea scenes in "The White Heather!" were produced by the use of Williamson Submarine Tube and patented inventions, the only means by which such undersea scenes are made possible.

We have never been in Tillamook, we're sorry to say, but we have a good opinion of the city, and they are doing business. It is a civilized place and the business men are prosperous. We are convinced of this because we have just finished looking over the Tillamook Headlight. We would advise the editor of the Herald to visit the best part of Oregon.

A. C. Everson has traded some of his Tillamook property for a general merchandise store in Evans, Oregon. The store will be managed by his son and brother-in-law. Evans is in Walla-walla county, situated in a fertile blue-grass valley 80 miles long, rich in rivers and alfalfa. Sounds great! Evans is merely a town site at present, with feeble sprinkling of one depot, 4 storefronts and 10 houses. (Sounds not so great) but it is Mr. Everson's intention to develop it into a bustling Mecca. Mr. Everson says that the natural resources of Wal-

lowa make it an ideal dairy country and already he has interested J. H. Haun and his son Roy, in cheese-making.
