Attention.

I have a most beautiful line of Spring and Summer Hats for all ages (A speciality on Paris Novelties). My prices are as they always have been-very reasonable.

Mrs. E. F. Rogers ..

General Contract Bids Wanted

Bids are wanted for the general construction for a press brick and tile building, two stories and basement, to be build for Morris Schnal, at Tillamook, Oregon.. Plans and specifications may be had from Morris Schnal at Tillamook, or from the office of the architect, F. M. Stokes 1003 Chamber of Commerce Bldg. Portland, Oregon.. All bids must be submitted before April 1st.

Nunn Celebrates First Anniversary.

Bro. Nunn celebrated his first anniversary as editor of the Wheele: Reporter last week, it being quite a long time, for his predecessors only stayed on the job for short periods We must say that Bro. Nunn is turn ing out a newsy sheet and he is t be congratulated on his first anni versary. Yet we must confess that we think a free trade democrat is out of place running a newspaper in a milling and lumbering center, for it will not be long now before free lumber from Canada, where there is cheap Hindu labor, will be cutting a big figure in the lumber industry of Wheeler and other parts of Tillamook and other parts of Oregon, The democratic party placed lumber on the free list, and now that many articles are coming into the country free, and a whole lot from Germany, something is going to happen soon to the lumber and other industries.

The New Sawmill.

The manager of the Tillamook Lumber Company reports that the construction of the new mill, which is being built on the Kilchis river is progressing as rapidly as could be expected under present weather conditions. At this time they have practically 1000 feet of railroad sput for the tie and have also put in 1800 feet of wagon road to the mill. This wagon road is for the convenience of the married employes who live in

Within a week all the camp buildings will be completed, as the material is now on the ground, and the installation of two high pressure mill boilers will be commenced within another ten days.

A new 111/4 compound Tacoma Yarding Donkey arrived yesterday and will be unloaded immediately to commence the construction of a dam for storing logs. This donkey is known as oblong pressure and is

The mill will be equipped with two 60 inch circular head rig and all live rolls throughout. Steam lift edger, high speed plainer and the power for the mill will come from a 17 by 22 unique and original one, and one death of a beloved mother and wife.
