There must have been an awful lot of "kick" in that hard cider they manufacture on the Miami.

It looks as though Oregon needs a law to compel voters to go to the polls when there are elections. Last week, when there was an election to vote several thousand dollars worth of bonds, but 61 votes were cast out of a population of about 1200 persons. What's wrong, anyway, with our bloated Oregon system? A little more taxation voted here, and a little more jumping higher every year and taxpayers staying at home.

The verdict in the Centralia I. W. case was disappointing and discouraging, and it goes to prove what is often said of trial by jury—one never knows what a jury will do. The trial of the men on the other charge for murder must be prosecuted with renewed vigor, for it is plain to most people who followed the evidence carefully that it was a case of pre-meditated murder and that is the only verdict that should have been brought in.

There are three so-called democratic editors in Tillamook county—one in this city, one at Wheeler and one at Cloverdale. We would like to know, however, whether they belong to the democratic party or are Wilson rubber stamps, similar to the democratic rubber stamp United States senators who did the president's bidding and "kept us out of peace." Talk about stand patters the Wilson party is the real stand patters by the way the democratic senators do exactly what Wilson wants them.

The department of justice has a plan to reduce the high cost of living by persuading people to buy cheap cuts of meat on a certain day. The department of justice is barking up the wrong tree, and has started on a foolish idea. If the department of justice would get busy and prosecute the profiteers there would be some hope of reducing the high cost of living. There must be a lot of cracked brained individuals in the department of justice when it starts a propaganda advising people to buy less expensive joints one day in the year.

High finance in politics is what occurred when the government took possession of the railroads. This is the story told in a few words: Two billion dollars extra was paid by the traveling public as a result of the increase in railroad fares, two billion dollars increase in freight rates, and the government in the hole another billion dollars, making five billion dollars in all. McAdoo, heir apparent to the Wilson throne, was the man who played high finance with the railroad for the purpose of getting Goetz and the railroad men lined up for him.

Some of the foreign language newspapers are protesting against the state law which provides when these newspapers use foreign language they must print the same matter in English, and no doubt an effort will be made to repeal the law. The law should remain and the foreign language publishers extra should be allowed to monkey with it. If they want to publish German language newspaper they can easily get back to Germany and do so. The United States is no place for them to carry on their German language propaganda.

There is another revolution in Germany, and no doubt, previously arranged to fool the allies, which brings back into power the junkers and military class, and is a pretty good indication that Germany is preparing to resist the peace terms and planning for another war. We are one of those who believe that the allies and the United States will be at war with Germany before many years, for the arrogant spirit of the German rulers and people go to prove that it was a very serious mistake when the armistice was signed and Germany given a good licking, which would not have been done had the generals had their way. Another war with Germany is on the tapis as sure as little potatoes make big ones.

The democratic party promised to reduce the high cost of living, and Bro. Trombley tossed his little horn for that party—as well as "the kept us out of war." Now that cane sugar has gone to 20c per pound because President Wilson took the advice of another college professor who knew nothing of business when they decided not to purchase the Cuban sugar the people of the United States are paying twice as much for sugar. And one phase of the high cost of sugar was the government advancing the price of Louisiana sugar to 17c per pound wholesale. It is up to Bro. Trombley to explain, with these facts confronting him and well known to most persons who keep posted, how it is that the democratic party "kept us out of war" and "kept us out of sugar."

Maybe that State Treasurer Hoff committed a serious mistake when he bought municipal securities from Portland bond houses and not bidding for them when they were advertised and offered for sale. By doing so he would have saved the state considerable money which went into the pockets of the bond houses. Had he done so we are inclined to think that municipalities would have obtained better rates. We do not think that State Treasurer Hoff has erred

as much as some persons have predicted. The bond houses of Portland are only doing what a large number of other business concerns of Portland are doing. They pester city and county officials whenever there is business in sight, and often public officials are innocently imposed upon by the false representations, for most of them employ slick smooth talkers, and it is not surprising that some honest public officials finds that he has been imposed upon. That, to our way of thinking, is what have brought the state treasurer into bad repute.

The Interchurch movement is endeavoring to do what quite a few other persons are trying to do—work the country newspapers for free space. Those who prepare the matter, the printers and stenographers, the railroads, the express companies, and the post office all receive pay for their services but the country newspaper is not even offered a crumb that falls from the rich man's table. We want to say that we are not going to be the "scape goat" for the Interchurch movement propaganda, for the numerous letters all go into the waste paper basket and the plate matter is dumped into the scrap heap. We hope our friends will not consider this unchristian on our part, but, really, we consider that a workman is worthy of his hire, and as most country newspapers have been overworked and imposed upon in the past, it is time for them to balk, especially as newsprint paper is now over 10c. per pound and it may go to 20c.

There appears to be a disposition on the part of some persons to malign the characters and reputations of some of the Republican candidates who are running for county offices, and we want to say that they should be better engaged than in peddling scandal. We are here to defend the characters of the republican candidates, especially those who have previously faithfully served the people of the county and who have lived in the county for many years. With one exception, (that of Frank Reed) we have known all the republican candidates for many years and have implicit confidence in their ability and honesty, and now that we hear some persons scandalizing them we feel it is our duty to defend them, their characters and their good names. We are well aware that there is a tendency among persons, especially at election times, to accuse county officials falsely, of this or that, and the other thing, when, in fact, it is nothing but malicious scandal, which is one reason that some of our best citizens refrain from running for public office. The people of the county have a splendid bunch of candidates to choose from for county officials and the scandal mongers who are endeavoring to besmirch their characters are, in our judgment, deserving a severe criticism.

We don't want to accuse our friends over in Washington County of being hogfish, neither do we think they want to if they properly understood the situation. The Banks Herald said: "A. E. Westcott for state senator, Yes, as the joint senator for the four dairy counties it stands to reason that a dairyman would be a good man for the place. Especially when this man has every qualification for the position and a broad acquaintance with all the territory under his jurisdiction. Mr. Westcott is a farmer, a dairyman, a worker. The joint senatorship question might as well be called settled."

Yes and deprive Tillamook county of representation in the State Senate, Washington county has one State Senator, and it looks as though the Banks Herald is not satisfied but is endeavoring to deprive the two coast counties, Tillamook and Lincoln, of what really belongs to them. To be fair the state senator should go to Lincoln County the coming term, but that county having no candidate, State Senator T. B. Hadley decided to make the race again. We think that Tillamook County is big enough and important enough to have one representative in the state senate, and one in the house, and as there will be redistribution of seats at the next session of the state legislature, Tillamook and Lincoln counties will not get a look in if Washington county gets away with the joint senator.

It is the privilege of everyone to choose the political party they wish to belong to, and to this end the primary election law was enacted. But there should be honest in politics as in everything else, yet there is a certain amount of dishonesty when a person registers as a republican and then goes to the polls and votes for a democrat for president and United State Senator. In courts of law that would be called perjury, and we are inclined to think that if this is the logical way to look at it, persons who have registered as republicans and then voted for a democrat for president and U. S. Senator does not belong to the republican party and have committed perjury. Persons who do not wish to affiliate with any one party can and should register as independents, when they can vote for any candidate. This is how we have it sized up. The person who registers as a republican and then votes for a democrat for either president or United States Senator is a mug-wump. During the war there was a line drawn between 100 per cent Americans and the pro-Germans. There was no middle ground or fence. One sympathies were on one side or the other, so it should be in politics. This may sound far fetched, yet, after all, persons who register as republicans or democrats should be loyal to their party and not slackers or pro this or pro that.

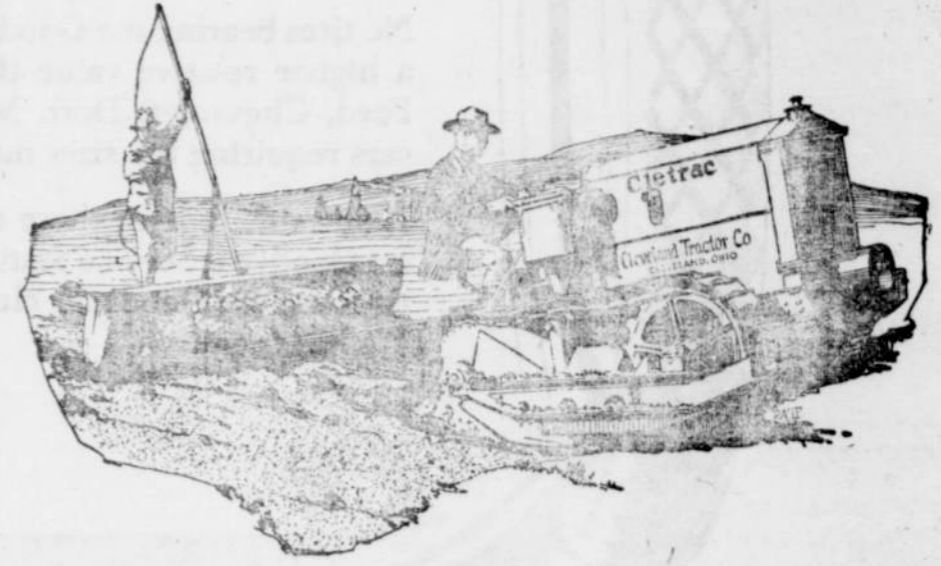

Vice President Marshall said the was nothing, and the next day somebody started a vice presidential boom for J. Ham Lewis.

Resolutions of Condolence.
Whereas, Donald, the beloved son of our esteemed brother and sister Mr. and Mrs. Wm. Hare, has been called to his eternal rest
And whereas, he was called at such an early age, and will be so sorely missed by all his dear ones and the entire community where there is naught but praise for his splendid character
Therefore, be it resolved that Fairview Grange No. 273 extend to the sorrowing family our heartfelt sympathy and commend them to the mercy of the loving savior who will unite them all at last.
Be it further resolved, that a copy of these resolutions be sent to the bereaved family, a copy to the local papers and a copy to the Grange Bulletin.
John Schild, Dan Billings and

Grace Bester, committee.
Whereas death has entered the home of our esteemed brother Peter Schranz and taken his beloved wife to her home above, leaving her husband and little children to mourn their loss
And whereas, though she will be sadly missed we must try to remember that there is a higher power which controls all things here on earth, none of us are sure of the number of our days on earth, and can only obey our call when it comes, even though we leave our loved ones broken hearted.
Resolved that Fairview Grange No. 273 extend to the bereaved family our sincere sympathy and commend them to the father above who can comfort them.
Resolved that a copy of these resolutions be sent to the family a copy

to the local papers and a copy to the Grange Bulletin.
