Editorial Snap Shots.

It is about time something was done to put a stop to college professors teaching and preaching socialism. If they would teach less of that stuff and more patriotism, it would be a great improvement. During the war many pro-Germans were discovered amongst the faculties of the colleges and universities, and this is conclusive proof that in selecting men as professors those who are nutty on idealism, fraternalism and all the other isms that prevail, should not be employed.

A great effort is being made to increase the milk production in Tillamook county. The snap shot man believes it is just as highly important to give a little more attention to the feed production, for an awful sight of hay and other feed is being shipped into the county, which takes an awful sight of money. Why not grow more roots? This will, of course, entail more labor, which is very expensive these times, so that is almost out of the question, yet most of the dairymen could raise a small batch of roots and this would help some.

What's the matter with the Hoff investigation anyway? The alleged irregularities don't appear to have materialized. Some of the Portland newspapers make much ado about nothing, and in their efforts to besmirch people's characters and reputations show that they are only ventilating the grouch of some person or persons behind the scene who have an ax to grind. These Portland newspapers are continually giving the state a black eye by the scandalous methods they use in denouncing honest and honorable citizens who hold public office. The Journal is the biggest sinner in this respect and the Telegram is getting tarred with the same brush.

The overhead expenses in running two daily newspapers at Roseburg forest a compilation, and this will answer two purposes: give that city one good newspaper and be a saving in news print paper. There are plenty of cities in Oregon which have two daily newspapers and two weekly newspapers that would be wise to consolidate. How the two editors of different political faith, are going to pull together in the traces will be watched with interest. However, there is a treaty of peace and league covenant with the Roseburg editors, and leave it to them to get along together and to give that city a better daily newspaper. The citizens of Roseburg are to be congratulated.

The New York World, which has been a strong Wilson admirer for many years, and the Saturday Evening Post, knowing that it is almost impossible to elect a democrat for president at the November election, have thrown overboard the president and are now boosting for Hoover. As Mr. Hoover is known to be a republican it must be that the World and the Post are endeavoring to prostitute the Democratic party, and at the same time they have commenced to denounce republican leaders. It certainly does look peculiar after supporting President Wilson for so long, who is responsible for the mused up condition of the whole country, that they should now be denouncing republican leaders. Mr. Hoover is too wise a man to be flattered by the World and the Post, for he can readily see that they are endeavoring to make him a "goat" for the democratic party.

It is highly amusing to hear some of our democratic friends accuse the republican party of killing the treaty of peace and the league of nations covenant. It was the Southern Senators, or the Solid South, who sent the treaty and the covenant to the scrap heap. It is just as well for people to know the facts. The democratic senators were about equally divided, 20 voting for the treaty of peace and covenant as Americanized by the Senate and 23 against. The names of those who voted against the treaty and covenant show plainly that it was the senators from the Solid South who sent it to the scrap heap, viz: Comer (Ala.), Culberson (Tex), Dial (S. C.), Gay (La.), Glass (Va.), Harris (Ga.), Harrison (Miss.), Hitchcock (Neb.), Johnson (S. D.), Kirby (Ark.), McKeller (Tenn.), Overman (N. C.), Reed (Mo.), Robinson (Ark.), Sheppard (Tex.), Shields (Tenn.), Simmons (N. C.), Smith (S. C.), Stanley (Ky.), Swanson (Va.), Thomas (Colo.), Underwood (Ala.), Williams (Miss.). Added to these 23, there were 12 republicans who voted with the democrats who were opposed to a covenant in any shape or form.

Give the people a rest! They are sick and tired of being pestered for money. There's several drives for money on the tapis right now: The Armenian drive, the Y.W.C.A. drive, the Salvation Army drive, the Inter-Church World Movement drive, and, no doubt, many other drives in contemplation. It is surprising the large amount of letters and circulars that are being sent out, all of which go to prove that a small army is engaged in that work and a great pile of dollars is being wasted for propagandistic purposes. Every editor is well aware of these facts by the large number of letters that are sent him every day and which find their way into the waste paper basket. So what is to be the attitude of the people of Tillamook County in these future drives for money? Our opinion is the people who are engaged in these drives would be better employed engaged in some productive occupation, for there are too many non-

producers to feed and clothe in the United States at the present time. We hope the citizens of Tillamook county will not consider the snap shot man hard hearted, but we know we express their sentiments when we say the drives for money are being overdone and it is time to draw the line somewhere.

In regard to the Tillamook County Fair this year, it is to be hoped, that a greater effort will be made to procure a larger display of home products. All that saved the fair last year from being a failure was the fine display of live stock, for that was the redeeming feature of the fair. To make the fair a success it requires persons with plenty of vim and originality, who have the ability and time to get out amongst people and create enthusiasm. We know the disposition of our citizens is to get cold feet and show lack of interest in most everything after a while, but this is no time to be lagging behind. In fact this is the time when renewed effort should be made to obtain the best management that can be secured, for a poor fair this year will put a damper on the efforts that are being made to obtain money to put the new fair grounds in good shape for next year. As the stock breeder's associations are greatly interested, and will, no doubt, give another good display of live stock, it is up to the Fair Board to see that all other features of the fair are made equally as attractive and interesting, for should there be another falling off in the farm products this year it will be a sorry looking display and the fair will not be the success that it should be. We think this is the time to call attention to this, not after the fair has been a failure in that respect. It's up to the Fair Board to have some person who is a live wire to take hold.

The most progressive counties in Oregon are those in favor of good roads, and we are glad to know that Tillamook is one of the progressive counties of the state. For a number of years we have advocated a hard surfaced road through the entire length of the county and we are just as enthusiastic on that proposition, yet we feel a little disappointed at the slow progress with which this is being brought about. The main cause of this was the increased cost in building roads, which, like everything else, made the expense of building roads twice what it was when conditions were normal. However, some progress has been made in building the hard surfaced highway through the county and quite a large addition will be made to this if the State Highway Commission is given more money to do more road work in this as well as other counties. This depends entirely what the people will do. The limitation of state indebtedness for permanent roads is now two per cent only, and it is proposed to increase this to four per cent, and it is exceedingly important at this time that the people go to the polls the 21st of May and vote for this measure. Tillamook county having voted bonds to match the State Highway Commission, should the constitutional amendment fail to carry, it will leave this county up in the air, for the county court has prepared about 15 miles of road bed for hardsurfacing, with the understanding that the commission would go 50-50. That is the situation today, so we are very anxious that the constitutional amendment pass, for then contracts will be let to hard surface at least 15 miles of road in this county. This would mean, when completed, that Tillamook county would have a hard surfaced road from Hebo to Garibaldi. But we do not want to see it stop there, for we intend to keep on boosting for the highway until the hard surfaced road reaches Yamhill county line on the south and Clatsop county line on the north. We hope, however, in future years that more of the road fund will be used in hardsurfacing the highway. With so much road work demanded in other parts, it has been quite a hard problem with the county court to solve the difficulty and do justice to all other roads in the county. Here is a point that must not be overlooked, when the hardsurfaced road through the county is completed, there will be more money for other road projects.

Over Twice as Many to Educate But Only Half as Much Money to Ed. ate With!

That is why the Oregon Agricultural Normal School cannot maintain themselves on the old basis. In 1913 they

Had Only 2250 Students, but they Now Have 5400 Students!

In addition their income in 1913 had twice the buying power of their income in 1920, due to the worldwide rise in costs over which of course they could have no control. The foregoing is one of many equally good reasons why you should vote for the higher educational relief bill at the election on May 21. Save the quality of higher education in Oregon, and give Your boy and girl, and your neighbor's their rightful educational heritage.

It's hard to tell which is the worst frightened for fear the presidential nomination will get him—William Jennings Bryan or William Randolph Hearst.
Every little movement now seems to want a party of its own.

You can't blame a Democrat or near Democrat for wanting all the political parties killed off. Wilsonism has made an end of the Democratic party, and misery loves company in a graveyard.

There isn't one of the fellows who write the smart-aleck paragraphs about the insignificance of the Vice Presidency who wouldn't give his right arm for the job.
