

ROAD IMPROVEMENTS IN TILLAMOOK COUNTY.

What the County Court is Doing to Build Permanent Highways.

The people of Tillamook County will be interested in knowing something about the activities of the road department, and what progress they are making towards obtaining good roads throughout the county. The taxpayers will be especially interested, as they like to know what becomes of the road money they pay every year into the county.

First of all, let us see something about the organization of the road department. The County Judge is at the head, of course and has two commissioners, one in each end of the county, who have, among various other duties, to look after the roads. The judge and the commissioners are represented by a road master, who has charge of all the roads in the county. His duties are to superintend all the work going on in the entire county and to order repairs made, etc. He, in turn, is assisted by three deputies, one in the north end of the county, one in the south end and one in the center. The deputies have foremen working under them. This system is very efficient, as it does away with all the so-called straw bosses who think that whatever they want done in their immediate vicinity has to be done, whether it is to the best interest of all the people in the county or not. There are no divisions in the county, no imaginary lines drawn separating the different parts. The system is so organized that all orders revert to the central power. Tillamook county is the only one in the state to have such a system, and it is the most efficient one, hence, Tillamook's reputation as having the best roads in the state.

Starting north from Tillamook we will make a brief survey of the work that is being done in the section between Tillamook and Rockaway.

About two and a half miles out, near Wilson river, a one hundred foot concrete trestle is being put in. It will cost approximately \$100,000, but, as it was before, the road was covered with water during heavy rain, making travel impossible at times during the winter and spring. John Carroll, the Roadmaster, states that contracts are to be let right away for the overhead crossing which is to be built over the rail road at Juno. This will be a marked improvement in the road at that place, as the present crossing is very dangerous. Enough has been said before about the concrete bridge that is being built over the Kelchis river, at UJno. It is enough to say that it is the first of its kind in the county, and that it will be the best when finished.

The new road, the Roosevelt Highway, which is now being cut through from Idaville to Bay City, does not go winding around in and out and over hill and dale (mostly in hill), like the old one, but cuts straight through, near the railroad, eliminating the many curves and steep hills. On the other side of Bay City also, the hills are being cut out of the course. At present there are grades as high as twenty five per cent, but in the new road there will be nothing heavier than five per cent grade. A steam shovel is at work on the road near Hobsonville. The curves are being cut and made wider, and the dirt is being hauled in cars along the road and put in the narrow places widening them. The work at the steam shovel is in charge of C. W. Ross. There are four such shovels at work in the county, and they work at a rate of one yard of dirt per minute. At the Miami river the highway will follow as far as possible on the south side of the railroad, eliminating four dangerous crossings. The route of the highway has not been decided on to a point farther than that, but it is supposed to be settled at the meeting of the State Highway Commission, either this or next month.

A bridge is to be built across the Miami river at the Lou Smith place, opening up the land on the other side of the river. Actual construction of it will commence within thirty days.

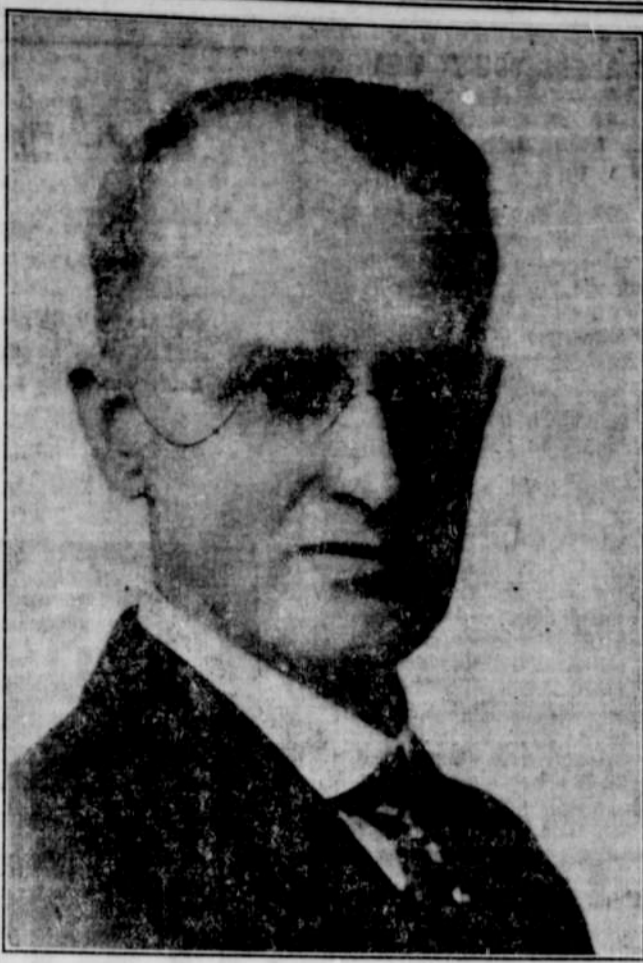

Mr. Carroy says that crusher is being installed at Haddon, to crush rock for the road between Barview and Manhattan, to take the place of the plank which is now on the road. It would cost just twice as much to replace the plank as it will to put on the rock, and the rock will last many times longer. This crusher is capable of crushing at least one hundred and fifty cubic yards per day.

One thing that Mr. Carroll says the present road department is endeavoring to do is to eliminate un-labor. Machinery is more efficient and the county is willing to pay wages to a few skilled work-ers to operate the machines than wages for hand labor. Most of one knows that when a large number of men is employed, only one of the actual labor is received is paid for, and the county has to have one hundred per cent efficiency in its work.

Other road work in different parts of the county will be covered in articles published from time to time.

Nazarene Church Services.

Sunday School at 10 a. m. Mrs. B. King, Supt.
11 a. m. preaching by the pastor, Rev. A. F. Ingler.
7 p. m. Peoples service, led by Rev. J. E. Clink. All welcome.
8 p. m. preaching by the Rev. C. Howard Davis, District Superintendent, of Portland. A large attendance is expected.
Mid-week service on Thursday at 7:30 p. m.
On Thursday of this week, Rev. C. Howard is to preach at 8 p. m.
On Friday night he will hold the annual meeting of the local church.

C. J. EDWARDS, candidate for Joint Senator. And He's O.K.

April Report of the Little Nestucca Cow Testing Association.

599 cows were tested during the month. The average test for all cows in the association was 843 pounds milk each containing 21.84 pounds fat. 162 cows produced over 40 lb. butter and 49 cows over 50 lb. butter fat.

The high grade herds are:
Owner No Cows lbs milk lbs fat
Joe Shriber 17 1107 50.60
F. J. Kumm 9 1343 49.98
L. J. Craven Est 28 1223 42.80
Clem Rust had the honor grade cow of the association, Baby, a grade Jersey, which produced 1074 pounds milk, containing 85.9 pounds fat.
J. L. Gay, had the honor registered cow, Lady Corena 6f Middledale, a registered Guernsey, which produced 987 pounds milk and 44.4 pounds fat.

The following cows produced over 50 pounds of fat for the period ending May 1, 1920.

Nehalem Notes

Mr. Oron White transacted business in Tillamook last week.
Mrs. May Thompson of this city returned from Salem, last week where she has been for a few months.
Messrs. Jim and Joe Walker and Misses Ana Steele and Edith Thompson motored to Tillamook last Saturday.

A very interesting game of baseball was played last Sunday on the Nehalem grounds between the home team and a picked nine from the Brighton camp. The game was easily won by the visiting brothers who will make the home boys bustle. The score was about 18 to 3.

The Steeles, Sunday, entertained their friend Miss Dunn, of Tillamook. The first thing she fished out of the Nehalem river was her hat, which blew off on the trip over from Wheeler.
A glorious rain fell Sunday night which livened up the gardens, the pastures and even the people, along with the early planted crops.
Sheriff Campbell was in town the first of the week renewing old acquaintances and making new ones. Mr. Campbell is a candidate for County Judge.
The Nehalem Public School will close this Friday with a picnic at Mazanita beach. H. S. Brimhall, the principal, is a candidate for County Clerk; and any teacher who can, on the day of the primaries, take his school out on a picnic, and leave his interests in the hands of his friends, deserves no little credit.
Mr. and Mrs. James Richardson, accompanied by Mrs. Richardson's brother, William Osterwald, arrived from Pennsylvania last week and will visit the family of Chas. Kunz. Their first impression of the coast is such that they would like to remain here and they may decide to make

this or California their future home. They will remain here till about the middle of July this time.
Mr. and Mrs. W. S. Shearer of Garibaldi, spent Sunday in Nehalem visiting relatives and friends. Mr. Shearer is one of the directing forces at the Wateco Shingle and lath factory.
Homer Mason, candidate for County Judge, was up from the county seat Sunday renewing old acquaintances and making new ones. Mr. Mason has many friends in this part of the county.
Rev. Warren preached a very fine baccalaureate sermon Sunday night. It was full of splendid advice to every one and the graduating class of the Nehalem high school in particular. The class this year consists of three young ladies, Ana Steele, Edith Thompson, and Mildred Marris. Commencement exercises will be held in the K. P. hall Friday night of this week. The public are cordially invited.

Methodist Church.

Sunday School 10 a. m. You will find this a Sunday School with life and always something interesting.
Reports of S. S. convention will be given. If you are not a member of some other Sunday School come and be one of us.
Special Memorial address at 11 a. m. Evening service at 8 p. m. All welcome.
G. O. Oliver, Minister.

Reformed Congregational Church

10 a. m. Sunday School.
11 a. m. preaching. Theme: "A Spiritual Revolution Inaugurated by the Power of Pentecost."
Everybody is invited to this timely sermon. We all need it and it is the only remedy of present ungodly conditions. If Christianity would equip herself with spiritual weapons it could not be possible to have wickedness ruled all over.
Rev. Richard Schuetze.

Christian Church.

Begin the day by attending Bible school at 10 a. m. Catch the inspiration from the children.
11 a. m. communion and sermon. This services will be made helpful to you. Evening, 8 o'clock, song service and evangelist sermon.
C. E. at 7 o'clock every Sunday evening.
Midweek prayer meeting, Wednesday, 8 o'clock.
Harry E. Tucker, minister
Both phones, Bell 47-R.

Presbyterian Church.

Sunday School 10 a. m. Morning worship 11 a. m. Subject "Our New Body." The fact of death robs us almost of all hope in a here after because our earthly body dies and decays. But what of our new body from God.
Evening worship 8 p. m. Subject: "Lost Lives."
Christ's church is the home of the soul, the altar of devotion, the hearth of faith, the place of prayer. Everybody always welcome.
Allan A. McRea, Minister.

United Brethren in Christ.

Preaching at 11 a. m. and 8 p. m. At the morning service we will deliver a sermon in honor of the members of the G. A. R. and the W. R. C. who will attend the service in a body. Let us turn out and greet them at church thereby showing our respect and love, for those loyal defenders of our country who are still with us.
Evening subject: "Founders of Nations."
Sunday School at 10 a. m. Send or better still, bring your children to this growing school.
Prayer meeting every Wednesday at 8 p. m.
Mrs. Frank Dye will entertain the Ladies Aid next Thursday at 1:30 p. m.
Everybody who can, come to our service and be happy.
E. F. Wriggle.

William Randolph Hearst is gradually working up quite a little enthusiasm for his own candidacy for the Presidency.

Tillamook's Ten Commandments.

7th Commandment: Tillamook Schools.

Thou shalt make Tillamook Public Schools as famous for their high grade standard, as Tillamook Cheese is famous unto the ends of the earth for its fine quality. Verily if the name Tillamook stamped upon the rind of a cheese is an infallible proof that is the best; why shouldst not the name Tillamook engraved upon a school diploma give the same guarantee.

Surely thou wilt pay thy school tax for the new Tillamook Gymnasium and for the Oregon State educational institutions with a glad heart and a smiling face. For verily, if thy boys and girls were pure bred Jerseys or Holsteins, thou wouldst not pinch the tail feathers off the eagle on thy dollars because of the expense.

Remember that the time cometh when the best training for life thou givest to thy children will seem none too good; verily their education will be more precious to thine heart than thy home, of thy \$1000 acre land, or thy graded herd, or thy business, or thy bank account, or any thing else thou hast upon the face of the earth.

8th Commandment: Tillamook Newspapers.

Jersey Breeders Will Organize Boys and Girls Calf Club.

The Tillamook Jersey Cattle Club will meet at the farm of Joe Donaldson, May 27th, and will organize a boys and girls calf club on the same date.

Mr. Donaldson is going to give a calf to the boy or girl that happens to draw the lucky number. This male calf was dropped April 30th, 1920. The dam is Hermits Pussy Fancy, number 286157, a beautiful

As usual, the Attorney General is trying to sidestep responsibility for the sugar situation by pleading lack of authority and saying Congress failed to enact enough law. Of course, Mr. Palmer and everybody else knows that this administration and the Department of Justice possess more authority and more power by far than any previous administration or the Department of Justice under preceding administrations. Excuses based on alleged lack of authority will not get far.
