"no muss no fuss"

Having your house wired by folks who know their business is not a thing to be dreaded. It can be done with far less muss and fuss than you put up with in having the house papered or painted.
We can wire your house in two or three days and leave not a scar on your wood-work or plaster.
There's no dirt, nor any inconvenience to you and the cost is what we will come and tell you exactly what it will cost if you wish.

A Continuous Performance

"I have not missed a single milking since I installed the EMPIRE Milking Machine May 23rd, 1915," writes E. F. Gentry of Wallace, Idaho.

We quote Mr. Gentry, not because his experience is anything unusual but because it is like that of all users of

EMPIRE MILKING MACHINES

It is very important in buying a milking machine to select one that has this record, for a milking machine is used twice a day, and one that is not so constructed that it will be constantly "on the job" means loss of milk, time and money.

EMPIRE Milking Machines are simple and efficient—gentle and natural in their action, and above all, they milk the SAME WAY EVERY DAY—more uniform in action than even the calf. They safeguard the condition of valuable cows.

Let us tell you ALL the benefits they offer you. Write for Catalog #1 and also ask for information regarding EMPIRE Cream Separators, Gasoline Engines and Electric Plants.
