"Bear this in Mind" says the Good Judge

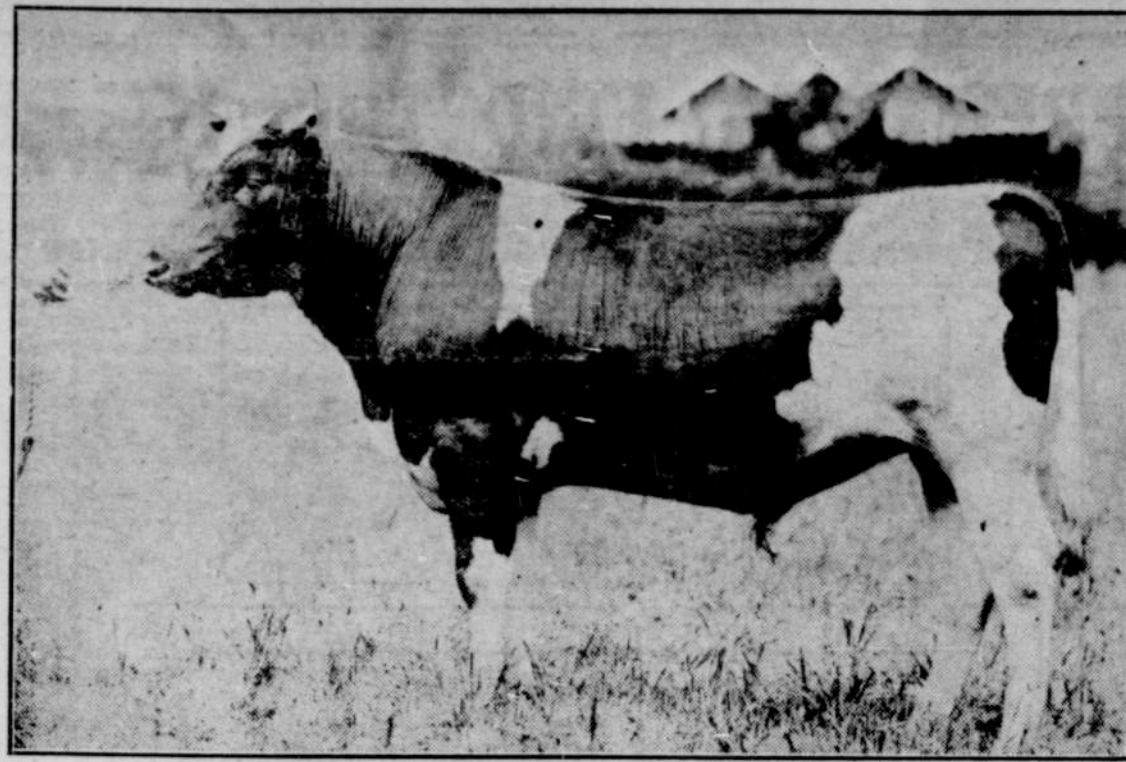

You not only get complete tobacco satisfaction from a little of the Real Tobacco Chew--But it costs you less. The rich tobacco taste lasts so much longer than the old kind--you don't have to have a fresh chew nearly as often.

Any man who uses the Real Tobacco Chew will tell you that.

Put up in two styles

RIGHT CUT is a short-cut tobacco
W-B CUT is a long fine-cut tobacco

Hollywood Farm announces the sale of Hollywood Lillith Adventurers No. 254320, to Mr. J. J. Rupp, of Tillamook, Ore., one of the most progressive dairymen of this wonderful dairy section.

To show what discriminating judgement Mr. Rupp used in his next site, a glance at his pedigree and then at the photo will show that here he has not only the best of breeding but also individuality. These combined are hard to find.

Hollywood Lillith Adventurers' six nearest dams average 30.9 lbs. butter in seven days. His four nearest dams tested semi-officially, including his own dam's two-year-old 305 day record, average for 365 days of 85.0 lbs. of butter. His own dam is now on test and is very sure to go over 1000 lbs., in which case these records will be materially increased. The grand-dam on the dam's side, as

a two-year-old, made the wonderful record of 19954.9 lbs. milk and 874.9 lbs. butter. The great-grand-dam made, as a four-year-old, 30 lbs. butter, and in 365 days produced 891.4 lbs. butter from 21860.0 lbs. milk.

This young bull is sired by Hollywood Lillith Palmyra, whose dam produced 1077 lbs. butter in a year from 26135.9 lbs. of milk; also a 32 lb. four-year-old daughter. Two daughters of Hollywood Lillith Palmyra hold state records, one in Washington, the other in California. Half of his daughters show an average of 30.6 lbs. butter, at an average age of 3 years. He has one 35 lb., one 36 lb. 3 year old, one 35 lb. 4 year old, and two 31 lb. 3 year old daughters. Mr. Rupp's bull has a 31 lb. 3 year old, full sister. This pedigree shows extremely heavy production throughout.

The fact that Hollywood Farm has kept this youngster for their own

junior herd sire, until the recent purchase of King Lyons 3d, who fits, the scheme of mating Judge Segis' daughters better, goes to prove what they thought of him. He was not for sale until King Lyons 3d was purchased.

It will be seen that each dam in the whole pedigree is not only a remarkable producer of butter, but a wonderfully prepotent dam, in that she produces a heifer that excels herself. All the sires have also proven their ability.

We congratulate Mr. Rupp on his purchase. We are assured by him that testing officially is now in order and we are sure to see some good records made by him for his kind to do things.

We also congratulate Tillamook on having such a sire in their community, and hope they will take advantage of his services.
Mr. Rupp paid \$2,000 for the bull.

Report of Nestucca Testing Assn. for the Month of May.

Number of cows tested during the month were 608, averaging 88.0 lbs. of milk, containing 37.61 lbs. of butter fat.

261 cows produced over 40 lbs. of butter fat.
83 cows produced over 50 lbs. of butter fat.

High grade heards are: Jos. Shuber, 20 cows, 1252 lb. milk, 58.12 B. F. J. E. Dunn, 21 cows, 1237 lb. milk, 50.70 B. F. Merle Holman, 11 cows, 1070 lb. milk, 50.80 B. F.

The Honor pure bred cow owned by Mark Bays, Cloverdale, Relma's Pet a registered Jersey which produced 1135 lbs milk containing 55.6 lbs of B. F.

The Honor grade cow is owned by J. L. Craven & Est. of Meda, Ore. Nigger a grade Holstein which produced 1782 lbs. milk containing 11.3 lb B. F.

Three cows were found unprofitable and sold for beef. Five well bred cows were purchased by different members.

Tillamook on the Rind

While Rev. I. L. King, of Michigan, was here visiting his nephew, O. M. Burbank, of Blaine, he composed the following verses:

Tillamook on the Rind.
On Columbia's western shore,
Where the hills are great and mighty
And Pacific's waters roar,
There is found a little hamlet,
Close beside those lofty hills
Where the people are content
And the farmer has no ills;
It is Tillamook of Oregon
That Tillamook on the Rind
Where all else is forgotten
And cheese is only prime.

Far up among the mountains,
Scattered along those icy mountains,
May be found the settler's cabin,
Where of wealth he fondly dreams,
And the cows, whose nightly wand
erings

O'er those hills so lush and green
Gives Tillamook her choicest cream.
It is Tillamook of Oregon
That Tillamook on the Rind
Where all things are forgotten,
And cheese alone is prime.
Oh, Tillamook, that golden city
What a favored lot is hers
While the farmer, brave and sturdy,
Clears away the fallens firs,
And the cows in full contentment,
Grazing where Hebo's snow is seen
Daily brings to Tillamook
Her flow of richest cream;
It is Tillamook of Oregon
That Tillamook so fine,
Where cheese is always proper
With "Tillamook on the Rind."

Tillamook's Ten Commandments.

10th Commandment: Tillamook Churches
Thou shalt know that Christ's church is one united divine institution. Verily it is a spiritual organism "which is his body, the fulness of him that filleth all in all", Eph. 1: 23 "There is neither Jew nor Greek, neither bond nor free, there is neither male or female, for ye are all one in Christ Jesus" Gal. 3:28. "So we being many, are one body in Christ, and being one, members one to another," Rom. 12:5.

Yea, verily, it is generally supposed that church air quickly puts people to sleep; that it is a good place to be married or buried from; that you must not sass back at the preacher; that all members childishly quarrel; that every denomination is always jealous of the other; that all members are hypocrites; that nobody but sissies and mollifodlies attend; that members are an exclusive pious set; that all red-blooded people cut out the church; but these suppositions are not really true.

Remember that Tillamook's eleven churches are all branches of the one Christ. Remember that civic pride and community interest make or marr the churches. If the name Tillamook stamped upon the rind of a cheese places it in the highest class, what does it do when put upon the church? Remember that in Christ there is neither Protestant nor Catholic, neither Methodist nor Reformed; therefore "Behold how good and how pleasant it is for brethren to dwell together in unity."

The suggestion now made that Germany shall pay her indemnity in bonds, and the United States shall underwrite them, goes to prove that the heart of the world isn't in half as much danger of being broken as the Treasury of the United States.

Graduating Exercises.

A large crowd of admiring friends and relatives greeted the graduating class of 1920, at the Christian church Friday evening and witnessed the exercises, which were pronounced a decided success.

Rev. G. O. Oliver, of the Methodist church, gave the invocation in a very impressive and sincere manner, and two beautiful violin solos were well rendered by Robert Driscoll, a player of note, who was accompanied by Mrs. Cloyd Dawson, at the piano.

With a few well chosen remarks, Superintendent Turnbull, of the Tillamook schools, introduced the principal speaker of the evening, Dr. D. V. Poling, of the Oregon Agricultural College, whose topic was, "The Grip that Holds." He spoke of the different grips that have effects upon our lives, first in the example he told of the different hand grips, paternal, friendly, artistic and so on. The grip of tradition is one that holds us in its grip more than any other, perhaps, as we do things the same as people did long ago. These customs are thrust upon us and we are willing to abide by them. He then spoke of the grip of knowledge, faith, and the grip of the heart, the strength of the latter was illustrated by the recent war. Probably the grip that is the most important is that of cooperation, in government, church, politics and games, in fact, in every walk of life. The strength of the grip of appreciation was illustrated by the story of the soldiers' appreciation of Lafayette's services to America. He said that the reason that people should get education was that they could then appreciate and take advantage of the opportunity to help the community in which they lived. The last grip, and the one that must be present if success is to be obtained, was the grip of determination. Several examples were given, as of the determination of the French at the first battle of the Marne.

Dr. Poling ended his address by advising the young people to have high ideals and to work to make themselves like unto their their ideals, saying that Jesus was the only ideal really worth while.

His speech was given in a very forceful and emphatic manner, and we believe that every one present will long remember the grips that holds and the man who told us that the only realm in which we could be just what we wanted to be was the realm of our character.

John Carroll sang the beautiful solo, "The Nightingales of Lincoln's Inn," accompanied at the piano by Mrs. Carroll. Mr. Carroll has a wonderful voice that leaves its impression on our minds long after we have forgotten the song. After Mr. Carroll's solo Mr. Botts, the Chairman of the Board of Education presented the diplomas to the students with a few remarks befitting the occasion. There were twelve in the class and all were present except Clare Small, who had gone to California a few days previous.

The songs by the girls' Glee Club were very pretty and well rendered, which showed that the girls had worked conscientiously in their musical studies, during the past year. After the songs by the girls, Rev. E. F. Wriggle, of the United Brethren church pronounced the benediction upon the assembly.

The graduates received a great many beautiful bouquets, and they have the congratulations of their many friends, for having finished their course, and also their best wishes for the future, as many of them are planning on attending institutions of higher learning.

A Continuous Performance

"I have not missed a single milking since I installed the EMPIRE Milking Machine May 23rd, 1915," writes E. F. Gentry of Wallace, Idaho.

We quote Mr. Gentry, not because his experience is anything unusual but because it is like that of all users of

It is very important in buying a milking machine to select one that has this record, for a milking machine is used twice a day, and one that is not so constructed that it will be constantly "on the job" means loss of milk, time and money.

EMPIRE Milking Machines are simple and efficient, gentle and natural in their action, and above all, they milk the SAME WAY EVERY DAY--mere uniform in action than even the calf. They safeguard the condition of valuable cows.

Let us tell you ALL the benefits they offer you. Write for Catalog and also ask for information regarding EMPIRE Cream Separators, Gasoline Engines and Electric Plants.

BURCHARD, Tillamook, Oregon.
If Your Cow can be Milked by a Call this Machine will Milk your Cow Efficiently.
