Old Nippon.

made by hand-bamboo ribs, rattan

handles, and the patterns formed by

different layers of colored papers. The umbrella, writes Elsie F. Weil in Asia Magazine, is as necessary to the Jap-

anese actor or dancer as his fan. In

the old prints the umbrella appears

constantly as a harmonious part of the design. The geisha have umbrellas ap-

propriate for wistaria season and

cherry viewing, for winter and sum-

mer. An umbrella may even oe the

theme of poetry, as it was for the Jap-

anese poet who sang: "In the spring

rain an umbrella passes by on which

petals are softly falling, falling." Yes

the Japanese have been able to find

something picturesque in our wire

framed umbrellas of uniform black;

NOT TROUBLED BY JEALOUSY

Social and Domestic Customs Among

the Eskimos Are Simple and Easily Arranged.

An American missionary is the au thority for the following description of social and domestic customs that prevail in a certain part of the arctic

regions: If a woman is childless, she

often asks her husband to select an-

other wife, so that the home may be

blessed with children. She has no jealousy toward her rival, for her husband generally treats both with equal respect. The system of polygamy

works both ways, for some Eskimos adhere to the single standard. In a tribe where there are more men than women, a woman may often be allowed a second husband, provided she has the approval of her first husband. and her love for some unmarried man does not necessarily lessen her re-

gard for her husband, who may be old or weak, and hence a poor provider. A younger man may prove a real as-

set to the family. Even if it is a case of simple infatuation, no deception is

practiced. The Eskimo woman reveals her feelings to her husband, who, if

the lover is worthy, rarely refuses his

consent for his wife to go away with this rival for a certain length of time.

his own, the abandoned husband will often propose to his wife that she ar-

range matters with the wife of her

lover, so there will be a mutual ex-

ALL HAVE THEIR UMBRELLAS Rainy Days by No Means Times Terror for the Dwellers in A rainy day in Japan! Mountains half disappearing in wraiths of thist like the landscapes in old kakemone scrolls; gray tiled roofs transformed to glossy black by slanting sheets of rain; coolies in bristling straw raincoats, and everywhere great oiled paper umbrellas. Little Japanese women trip along daintily on their wooden clogs, oblivious to the muddy rivers under foot, totally eclipsed under their red, blue, green, yellow or black um brellas. Shop apprentices and errand boys hurry along with umbrellas deco rated with great black characters indicating the name of the firm or their trade. Out in Asakusa, Tokyo's popular quarter, huge red umbrellas protect the old women who sell beans to feed the doves that dwell in the eaves of the Temple of the Morning Grasses. At the entrance to every house a 71 YEAR whole row of open umbrellas are drying. No two paper umbrellas are alike in Japan, perhaps because they are all
