Wonder what happened to the speed cop's nose the other day? Did you see it? He said that it felt like a sun-burned potato, but we aren't saying what it looked like, only that anything might have hit him from a rolling pin to a flat iron or a cord wood stick.

The heavy shower of rain on Friday morning broke the summer dry spell several weeks earlier than previous years, for it seldom rains in Tillamook in August. The rain was a fine thing for the county, as it will assure considerable fall feed for the dairy herds much earlier than usual.

Miss Ethel B. White returned to Tillamook Friday and will be ready to take up her music classes in a few days, until she is located in her studio anyone may call 27-R for information about her. Bert Edison, Jr., a boy of eleven, was given a hearing before Judge Hare, Monday, and on Tuesday was taken to Salem by his father, to the home for the feeble minded. The cause for the sad state in which the child is in is that he has had epileptic fits since he was four years old, having them every few days, so that his mind was weakened considerably.

Mr. Schmidt was walking along the road, just on the outside of the payment, on the left side. Both he and the car were going south, but, owing to the steering gear's being loose the car swerved to the left and struck him.

A good deal of excitement was aroused Monday morning when the fire alarm was turned in. Smoke was issuing from the upper windows of the Ova Studio, but by the time the firemen had arrived Mr. Lantz had put out the fire. It had been caused by a bunch of rubbish that was in the kerosene stove being lighted, and as there was a little too much kerosene it exploded, burning the floor slightly, around the stove.
Grandma Johnson, of South Prairie, celebrated her eightieth birthday this week, and she received, as a present from her children, a wheel chair, which is very much appreciated by her. Grandma is a very devoted reader of the Headlight, as she reads every bit of it, from the front page to the back page, advertisements and all, every week. She has been ill for some time, but is now able to be up and use her new chair.

The early rain did catch some hay down and not in the barn but on the other hand it was a blessing, for forest fires were becoming numerous and threatening. Yet that was not the only blessing the rain brought. Grass started growing and in a few days Old O'Beary will have plenty of green feed if the weather does not turn hot again with an east wind, this being the time of year when the wind gets into that quarter.

The fire boys wish to thank the First National Bank for the coffee and lunch which it sent up to them Tuesday morning after the fire. It certainly was appreciated by them, as there is nothing like cats and a cup of coffee after hard work. Wednesday night after drill Morris Leach had ice cream and cake sent up to them and J. L. Lawson sent a box of cigars. In these gifts the boys felt that their work of Tuesday morning was very much appreciated.
Lon C. Muscott this week sold the equipment and business of the Star Transfer Company to A. W. Thornton, who for a few years past has been one of the office force at the local S. P. station. Mr. Thornton and his son, who has been in the employ of the transfer company for some time, will conduct the business under the old name. Mr. Muscott has purchased a dairy ranch in Tillamook county, to which he and his wife will move next week.—Itemizer.

W. F. Whitley, who is the field manager for the Whitehead, Whitcomb and Co., Certified Public Accountants, was in Tillamook doing quite a large amount of business here. He says that the company has just completed new offices in Spokane, and with them, also those in Seattle, San Francisco, Los Angeles and West Lake, are the biggest in the west. This was Mr. Whitley's first visit to Tillamook, and he says he likes the place just fine, only if we had a few better hotels, it would be better still.

The work of the fire department Tuesday morning was the talk of the town and it made the Council feel so good that when they met Tuesday evening they appropriated \$200 for the trip of Chief Coates to the Fire Chief's convention to be held week after next. Mr. Coates expects to do things up brown while he is there and see that Tillamook gets her share of the praise, also bring back the Ince cup for us if possible. He wrote a long letter to A. C. Smith, who was here with the fire engine for three weeks, telling him all about the fire.

O. E. S. Kensington Club met in the chapter rooms. The day was an ideal summer day, bordering on towards "Indian summer" and the members and friends were out in a large attendance. There was scarcely any business of any importance so the afternoon was spent in a social way. One new member joined the club. Mesdames Franklin and Hill were the hostesses for the occasion and were acclaimed the right ones in the right place on the right day. Mrs. Foster and Miss Gaylor are to entertain the club in October.
Say! you should have been around the engine house Tuesday and heard Glenn Terry give a tongue lashing to some big stiff who came around and tried to tell him that he should have had an American La France engine, and all that sort of stuff. You know Glenn has an unlimited vocabulary, and uses some pretty flowery speeches sometimes. From what we heard about it his eloquence was excelled only by that of Webster's. This fellow also tried to ball up things at the fire by butting in and trying to give orders, but he was fired out mighty quick by Bert Thayer, the assistant chief, as Mr. Coates was on the other side of the building. Such fellows ought to have the hose turned on them and then be arrested on top of that.

There seems to have been a little trouble in the case of Richard E. Thomas, who is accused of having taken a car to Los Angeles which he had not yet paid for. While T. H. Goyno, the District Attorney was away on his vacation, the matter was handled by R. T. McGrath, the Deputy District Attorney, made out papers authorizing Sheriff Campbell to go to Los Angeles for the man and bring him back to answer the charge. When Mr. Goyno returned he disapproved of the procedure and called Mr. Campbell on the long distance telephone, at the Governor's office in Salem, where Mr. Campbell was, and told him to drop the matter as he thought the man was not a fugitive from justice. After numerous conferences between the peace officer and the members of the attorney-general's staff, and the declaration of Governor Ollcott that the laws of Oregon were not to be used as a plaything, the sheriff left Salem Friday night for the prisoner, after requisition papers had been issued by the governor.

As an epidemic of whooping cough has made its appearance in the state of Oregon, and, owing to the high mortality, terrible inconvenience and the other unavoidable consequences of this disease, it is necessary that everything possible be done to put an end to it. Likewise all other contagious diseases, especially "flu", to prevent the closure of the schools. In a letter to the clerks of the different school boards Supt. G. B. Lamb said that if the following suggestions were followed there need be little danger from whooping cough in the schools. "Before the schools open every room and toilet should be scrubbed thoroughly with hot water and a good disinfectant, also each week thereafter. The school rooms should be provided with plenty of fresh air." The rules and regulations of section 26 of the Oregon State

McGrath, the Deputy District Attorney, made out papers authorizing Sheriff Campbell to go to Los Angeles for the man and bring him back to answer the charge. When Mr. Goyno returned he disapproved of the procedure and called Mr. Campbell on the long distance telephone, at the Governor's office in Salem, where Mr. Campbell was, and told him to drop the matter as he thought the man was not a fugitive from justice. After numerous conferences between the peace officer and the members of the attorney-general's staff, and the declaration of Governor Ollcott that the laws of Oregon were not to be used as a plaything, the sheriff left Salem Friday night for the prisoner, after requisition papers had been issued by the governor.

As an epidemic of whooping cough has made its appearance in the state of Oregon, and, owing to the high mortality, terrible inconvenience and the other unavoidable consequences of this disease, it is necessary that everything possible be done to put an end to it. Likewise all other contagious diseases, especially "flu", to prevent the closure of the schools. In a letter to the clerks of the different school boards Supt. G. B. Lamb said that if the following suggestions were followed there need be little danger from whooping cough in the schools. "Before the schools open every room and toilet should be scrubbed thoroughly with hot water and a good disinfectant, also each week thereafter. The school rooms should be provided with plenty of fresh air." The rules and regulations of section 26 of the Oregon State

completed new offices in Spokane, and with them, also those in Seattle, San Francisco, Los Angeles and West Lake, are the biggest in the west. This was Mr. Whitley's first visit to Tillamook, and he says he likes the place just fine, only if we had a few better hotels, it would be better still.

The work of the fire department Tuesday morning was the talk of the town and it made the Council feel so good that when they met Tuesday evening they appropriated \$200 for the trip of Chief Coates to the Fire Chief's convention to be held week after next. Mr. Coates expects to do things up brown while he is there and see that Tillamook gets her share of the praise, also bring back the Ince cup for us if possible. He wrote a long letter to A. C. Smith, who was here with the fire engine for three weeks, telling him all about the fire.

O. E. S. Kensington Club met in the chapter rooms. The day was an ideal summer day, bordering on towards "Indian summer" and the members and friends were out in a large attendance. There was scarcely any business of any importance so the afternoon was spent in a social way. One new member joined the club. Mesdames Franklin and Hill were the hostesses for the occasion and were acclaimed the right ones in the right place on the right day. Mrs. Foster and Miss Gaylor are to entertain the club in October.
Say! you should have been around the engine house Tuesday and heard Glenn Terry give a tongue lashing to some big stiff who came around and tried to tell him that he should have had an American La France engine, and all that sort of stuff. You know Glenn has an unlimited vocabulary, and uses some pretty flowery speeches sometimes. From what we heard about it his eloquence was excelled only by that of Webster's. This fellow also tried to ball up things at the fire by butting in and trying to give orders, but he was fired out mighty quick by Bert Thayer, the assistant chief, as Mr. Coates was on the other side of the building. Such fellows ought to have the hose turned on them and then be arrested on top of that.

There seems to have been a little trouble in the case of Richard E. Thomas, who is accused of having taken a car to Los Angeles which he had not yet paid for. While T. H. Goyno, the District Attorney was away on his vacation, the matter was handled by R. T. McGrath, the Deputy District Attorney, made out papers authorizing Sheriff Campbell to go to Los Angeles for the man and bring him back to answer the charge. When Mr. Goyno returned he disapproved of the procedure and called Mr. Campbell on the long distance telephone, at the Governor's office in Salem, where Mr. Campbell was, and told him to drop the matter as he thought the man was not a fugitive from justice.
