All Tuned up for a Jazz Campaign

There are a couple of colored barbers down in Louisville who can put as many parts into a bar of music as the little Russian symphony, and you never miss a word. They've got a lot of campaign songs and they tune up every evening in the little back yard of the barber shop, where Josh grows okra and hollyhocks and John is raising butter beans and touch-me-nots. And when the begin this one, all the children in the neighborhood climb upon the whitewashed fence and the dogs try to dig holes around the posts:

"He kep' us out o' wah,
He kep' us out o' peace,
He kep' us out o' sugar
An' he messed us up w' Greece;
He kep' us out o' everything
And goodness only knows
If he'd stayed there any longer
He'd kep' us out o' clothes.
Refrain:
Anothah good man gone wrong."

Oklahoma Democratic organizations in the recent state primary campaign assailed Senator Gore on the ground that he was not a 100 per cent American. These same Oklahoma Democrats did not criticize Senator Gore's position in their state

platform in 1918. The truth is that their complaint against Senator Gore is not that he is not a 100 per cent American but that he is not a 100 per cent rubber-stamp Democrat.

What evidence has Gov. Cox that the mothers of the boys who fought in France are holding President Wilson to a "promise" to involve this country permanently in war-breeding European entanglements? What President Wilson promised these mothers was to "keep us out of war," and that promise was known to be deceptive when President Wilson and Gov. Cox made it four years ago as a means of boosting themselves into power.

NO MONEY TO LOAN IN OREGON! If Interest Measure Passes in November-- Will Cripple Business and Drive Money Over Into Washington.

If the proposed constitutional amendment fixing the rate of interest on money carries at the November election, people will have to go over into Washington to borrow money, as all of the financial institutions of the state of Oregon will have to go there to do business should the people give the measure a favorable vote. The measure is another freak, similar to the newspaper rate bills that were initiated by Jackson, of the Oregon Journal, to injure the newspaper industry. The new freak measure initiated by J. F. Albright, of Oregon City, aims to injure the banking business. Instead of having the prosperous banks in Tillamook county, should the measure carry, they will simply act as agents for some bank in the state of Washington.

Looking at the measure from all angles, any one with ordinary common sense can see that it will drive money out of the state and those who want to borrow money for any purpose will have to get it elsewhere, and they will have to pay the prevailing rate of interest.

This is how the bill reads: Sec. 9. The legal rate of interest in this state shall be four per cent per annum, and no more, on all moneys after the same shall become due, but on contract the rate of five per cent per annum, and no more, may be charged by express agreement of the parties, which rate shall be inclusive of all brokerage and commissions.

No doubt, some persons will be foolish enough to think that they will be able to borrow money at 4 and 5 per cent if the measure carries, but they will not be able to obtain it, any more than if some crank initiated a bill and it became a law that flour should not be sold for more than \$1.00 a sack.

It is simply another case of one person endeavoring to butt in and ruin other person's businesses.

The most surprising thing is that Albright did not exempt Oregon City, the same, as Jackson did in the newspaper rate bill when Portland was exempt.

We have obtained an expression of opinion from some of our leading citizens on this pernicious measure, which will be found below:

Would Work Hardship on Tillamook County

Regarding the Four and Five Per Cent interest measure, we believe that if this goes through it would work a great hardship on our country as it would no doubt drive all capital away as this rate is altogether too low for any person to loan his money and live. From a selfish standpoint, without looking ahead, we would like to see such a measure passed, we borrow a great deal of money from time to time, and also discount a great many notes with our bank, and this would mean a large saving for us, but we know it could not last.

We hope to see the measure defeated.

BRIGHTON MILLS COMPANY,
Thos. B. Watt

Would Cause Industrial Stagnation

Should the Four Per Cent Interest Measure which will be voted on in November become a law, it would be the greatest curse that ever happened to Tillamook county or the State of Oregon. No person who wanted to borrow money could do so, because no money could be had at that rate when a higher rate could be obtained in other States. It would drive Oregon money out, and at the same time would keep outside money from investment in the State, which amounts to more than one half of the total investments. It would mean that all mortgages, notes, and accounts would have to be paid when due, or suit would be brought to collect. Mills would shut down, and all industrial developments would cease. It sounds like U'Renism and that alone should be enough to defeat the measure.

Financial Conditions Should Not Be Tampered With

I am in receipt of your letter requesting me to write a short article on "What Effect the Reduction of the Legal State Rate of Interest would have on the Business and Industrial Development of Tillamook County should Proposed Measure Reducing Interest to 4 and 5 per cent Pass?"

This can be answered in a very few words. In my opinion, if legislation is passed as contemplated, foreign investors outside of the state could not be induced to invest their money in securities within the state, the investors within the state as well would be very foolish to invest their money in low rate interest, when they can buy securities representing a higher rate of interest income. As it is today many thousands of dollars in capital are being taken from our state for investment in Canadian bonds which brings higher rate of interest on very desirable security. I would not like to see the financial conditions of our state tampered with by adverse legislation at this critical time.

ROLLIE WATSON

Would Do Untold Harm to Oregon.

Bay City, Ore., Aug. 23, 1920. Over ninety per cent of the business of the United States is done on

credit in one form or another, and credit means borrowing.

Tillamook county is comparatively new in its development. The great industry here now is dairying, but probably not more than 12 per cent of its land adapted to the raising of pasture is in grass. It is still uncleared and in trees and brush and logs. The same is true of the state at large.

Our state and county have not the means within themselves with which to finance their development. Money must be borrowed and brought in from other centers. We, here in Tillamook county, are in the pioneering stage of our economic life. And as in the case with pioneers in general, we are long on natural resources but short on cash. We want to expand our business and grow, but to do so must borrow heavily at times. In order to borrow we must offer attractive security and pay the going rates of interest.

In my judgement the proposed amendment reducing the legal rate of interest on loans is far too drastic in its terms, and if adopted would stifle industry, because it would stop the loaning of new money. It would prevent outside money from coming in to the state.

It would be a cruel law and do untold harm to the commonwealth. This would be particularly true here in Tillamook county because it is now just entering upon an era of great lumber development and one that will call for borrowing in an immense volume. Such a law would place a greater burden on the industry than is could bear and prosper. It could not compete with other communities outside the state, more favorably situated with respect to financing. Our lumber industry would languish, and so, also, would business in general.

The way to safety lies in voting down the proposed amendment.

FINANCIAL INTERESTS AROUSED

Jackson, of the Oregon Journal, Set a Bad Precedent

We have received a letter from Robert E. Smith, of Portland, Or., who is appealing to the country newspaper men of Oregon to help defeat the interest measure and in reply we mailed Mr. Smith the following reply:

Dear Sir, Yours of the 27 inst. to hand re the 4 and 5 per cent interest measure, and I want to assure you of my active co-operation in putting the measure to sleep.

I cannot help reminding you, however that it was one of your citizens, Jackson, of the Oregon Journal, who initiated measures to injure the newspaper industry outside of Portland, and there is a good deal of similarity in the present measure which is aimed to injure the banking business, but which is more drastic, for it will injure the entire state. Well, it seems, that the chickens are coming home to roost. The business and financial interests of Portland and the state did not fully realize at the time what pernicious measures Jackson initiated, and which formed a precedent for another to follow. Now that a similar bill is initiated that strikes at the very foundation of Oregon's progress and development, they are naturally aroused, and are appealing to the country newspapers to help defeat the measure. This is something of a strange coincidence, for it was in Portland, and by one of your citizens that the newspaper rate bills originated. The financial interests of Portland, should have been far-sighted enough to have seen that Jackson set an exceedingly bad precedent for others to follow and, no doubt, when the Clackamas county man initiated the interest measure, it is only natural to suppose that other pernicious measures will be initiated in the near future to injure other business interests and if the Non-Partisan League ever obtains a footing in this state it will be by the same method Jackson used to injure the newspaper industry for the League will find that the inlative law under our boasted Oregon System is exactly the kind of law to help them obtain control of the political machinery of Oregon.

Oddfellows Notes of Pacific Lodge

Pacific lodge is painting their hall, putting in new glass in front, and an up-to-date lighting system.

Unity Rebekah lodge, No. 51, will celebrate the 69th anniversary of Rebekah Odd fellowship on the evening of Sept. 20th, with a big time and program and refreshments. We cordially invite all Rebekahs and Oddfellows to participate with us.

Pacific Lodge, No. 105, will soon build a road through the cemetery, which will be graded and graveled, also a complete cleaning up the grounds.

We are still taking in members. We meet every Friday night, lots of business, work and pleasure.

Bro. C. I. Myers, of O. 94, has the contract painting the hall.

A big farewell party was given in the hall Saturday evening, Aug. 28th to Bro. and Sister Sullins and Bro. J. S. Douglas and family, who are going to Oklahoma. The Rebekahs presented Sister Sullins with a fine Rebekah pin, and the Oddfellows a camp pin to Bro. Sullins, and an official certificate holder to Bro. J. S. Douglas. We regret their absence, but what is our loss is Oklahoma gain.

Bro. J. P. Coxon, trustee of the I. O. O. F. home, paid us a fraternal visit and gave a fine talk about the home, and Oddfellowship in general. Come again Brother.

I. O. O. F. News Notes

Definite information from railroad headquarters, says the special ticket, for which the writer has been patiently waiting, will not be on sale until Sep. 13th, after waiting two weeks for this coveted rate, two weeks more must be passed likewise, for I am going to have that ticket, but promise to take my departure as soon as possible after that date.

E. W. Perkins, Cicero Proctor, Bob Roberts, Frank Ridpath, Geo. S. Bennett and L. Loll were instructed in the mysteries of the Second Degree, and will take the Third Degree next Tuesday eve.

The Bros. have volunteered to meet at the cemetery on Labor Day to fix up the fences and do necessary work to put same in good condition. All who can please meet at the cemetery Monday, Sept. 6. Those who have no way to go, meet at I. O. O. F. hall at 8:45, and those who have cars are requested to call and pick them up. We expect some of the Rebekah's will meet with the Bros. to do their bit, and maybe they will have a campfire dinner at the cemetery. Say, can't you smell that coffee, come out and see what a bunch of Odd Fellows and Rebekahs can do toward beautifying the grounds, also it, is a good time to show your appreciation of Odd Fellowship.

Some feed at lodge last meeting. Bro. Frank Matthews had the menu prepared at home, but is a safe bet that a Rebekah done the handy work. Ask Sister Matthews. After three months of hard labor, and no lodge attendance Bro. Ray Hammond was in lodge last meeting. Bro. Bettcher also filled his official position. Bro. Watson jut in an appearance, Wilson and Winslow was in their designated places, so when Bro. F. A. Beltz finishes up that honeymoon trip, and returns to his chair; Max Schultz and F. W. Talbott returns from their hunting trip with plenty of venison, then maybe we will have a full house; yes the secretary will miss a few meetings, but Bro. Brodhead will fill the chair as he knows the game, so there will be an answer to my name at role call.

The Patriarchal Degree will be conferred on all eligibles next meeting of the Encampment, Sept. 9. All members are requested to come out and help.

Bro. C. F. Beltz, of Vermillion lodge, I. O. O. F. of Hastings, Minn. is still confined to his bed at the home of his daughter, Mrs. O. A. Schultz, of this city.

Initiatory Degree will be conferred on all waiting candidates Sept. 14. All application on file are accepted, so please be on hand at 8:30 p. m. on that date.

Look up your official receipt, if not up to date, better see your secretary, better be paid in advance, than delinquent; life is uncertain, death is sure. Benefits are paid to members in good standing only. We hope you are up to date.

Rebekahs have installed some much needed light switches in the lodge room. They are progressive. Meet with them Wednesday eve at 8. Odd Fellows, Tuesday at 8.

A Bachelor's Prayer.

Backward, turn backward, O Time, in your flight!
Give us a maiden with skirts not so tight;

Give us a girl whose charms, many or few,
Are not exposed by much peek-a-boo.
Give us a maiden, no matter what age,
Who won't use the street for a vaudeville stage;

Give us a girl not so sharply in view;
Dress her in skirts that the sun won't shine through.
Then give us the dances of days long gone by;

With plenty of clothes and steps not so high;
Oust turkey-trot capers and butter-milk glides,
The hurdy-gurdy twist and the wiggly tail slide;

Then let us feast our tired optics once more
On a genuine woman as sweet as of yore.

Yes, Time, please turn backward and grant our request
For God's richest blessing—but not one undressed.
