fix. Having voted for the Wilson again, for it is badly split up just

Governor Cox wants the people of Oregon to re-elect Senator Chamberlain, and Senator Harding asks the people of Oregon to elect Robert N. Stanfield, the Republican nominee, for U. S. Senator. It is generally conceded that there will be a republican landslide in November, and it is to the interest of Oregon as well as Tillamook county, that a republican senator be elected to help Harding straighten out the muss the democratic party have placed the country in. We cannot see how any republican can be so inconsistent as to vote for Senator Harding and then cast their vote for Senator Chamberlain.

Just a word to those who complain about heavy taxation. If you want high taxation in future and a continuation of the wilful waste of public money, then vote for Cox for president and Chamberlain for U. S. senator. The present administration will go down in history as the most wasteful, extravagant and ineffcient government that ever existed. That's why your taxes come high, and why the cost of living continues high. Those who voted for the democratic party eight and four years ago, and placed that party in power are responsible for what have happened. If you want a change, and we know the people do, then there is, only one thing to do, and that is to vote for Senator Harding for president and Robert N. Stanfield for U. S. senator, in fact, vote for the entire Republic-

The democratic party in Oregon is split and there will be thousands of democrats who will "knife" Senator Chamberlain next November. An effort was made to bring George's name before the national democratic convention at San Francisco, but a majority of the Oregon delegates would not stand for it, so they put the "lid" on the Senator's boom for vice-president. Chamberlain has been playing fast and loose with the league covenant and with the democratic party. First he lined up with the Wilson adminstration, then he voted for the republican reservations. Now bbing with Governor Cox, who is running on a democratic platform pledged to the Wilson league of nations. No wonder that George is in bad repute just now, with thousands of democrats disgust-

It was only natural to suppose that all those who bought liberty bonds would not be able to hold them until they became due. It was freely stated when bonds were sold that they would always be worth their fifce value. But alas those who have had to dispose of their bonds know to their sorrow that they have to be discounted. This is another democratic promise that, like "he kept us out of war', that deceived the people. The Liberty Bonds having gone be low par under the democratic administration, it is to be supposed that people that own bonds should take Senator Harding Sends Telegram to ered by the Common Council. an interest in the coming election, for if the democrats win, Liberty Bonds will remain below par and will sell at a discount, while if the republi- to the voters of Oregon to elect Rocans win out, republican leaders say bert N. Truck with pneumatic tires							545.00

The Ford Motor Company makes this reduction in the face of the fact that they have on hand immediate orders for one hundred forty six thousand sixty five cars and tractors.

The Company will suffer a temporary loss while using up the material bought at high prices. They are willing to make the sacrifice in order to bring business back to a going condition as quickly as possible and maintain the momentum of the buying power of the country.

Henry Ford says: "The war is over and it is time war prices were over. There is no sense or wisdom in trying to maintain an artificial standard of values. For the best interests of all it is time a real, practical effort was made to bring the business of the country and the life of the country down to regular pre-war standards."

We are at your command with regular Ford efficiency in service and eagerness to fill your orders.
