Adults 25c. Children 15c.

LEAGUE'S SITUATION COOPERATION MET WITH OBSTACLES

Reasons Given as to Why There was Delay in Functioning of Organization

(Cooks County American)

W. C. Cutler, director, who attended a meeting of the Dairymen's League while in Portland recently brought with him a statement from the officials of the league, who explained some of the reasons for delay into getting the organization to functioning properly. The statement follows:

The Oregon Dairymen's Cooperative League commenced operation July, 1920, and contemplated operations were primarily divided into two zones comprised of the territory contiguous to Portland and the territory embraced by Coos and Curry Counties.

Considerable criticism has been leveled against the organization on account of the delay in reaching the efficiency necessary for full and successful functioning.

The causes for this delay are various and can only be rightly dealt with separately in relation to each zone.

Portland Market Zone.

The essence of the contract between the Oregon Dairymen's Co-operative League and its members is the absolute transfer of the title of the product of the member to the League. The local distributors and purchasers of the League product did all within their power to disrupt this particular feature of the League contract for the product delivered.

The practice reached such a stage that the League was compelled to get a temporary injunction against the dealers and distributors to restrain them from this practice, which culminated in the now famous case in the circuit court, at which time the milk distributors attempted to have the injunction removed.

Upon this hinged the right of the dairymen to have a co-operative marketing association, which is of major importance to all, and inasmuch as the case dragged along for two weeks, it necessarily delayed the usual functioning of the office.

The result of the temporary injunction was that a great many of the dealers, after being restrained from setting direct with the producers, refused to settle with the League for product delivered and this seriously hampered the operation of the League, inasmuch as the basic idea of the cooperative marketing agreement is the pooling of all products of a like kind, and no pool can be completely closed until all records and figures are in.

The accounting system of the Dairymen's League, as applied to the Portland Market Zone, is so built as to permit of the closing of Pools on the fifteenth of each month following the delivery of the product, but on August 12th, it was realized that owing to the opposition of the dealers it would be impossible to close the July Pools on schedule time, and as so few reports had come into the office and so little money had been received on product delivered by members, it was deemed advisable to make the members in the Portland Zone a partial payment of \$1.50 per hundred pounds, and this was done on August 16th. Twelve days additional returns had been received and a further partial payment of \$1.00 per hundred was made to the members, but at this time it was still a mathematical impossibility to close the July Pools for the reason that initial capital investments were not fully determined, unearned pro-

fits on insurance had not been fully determined, depreciation could not be calculated, and a great many of the members who had received their checks direct from the dealers early in July had not turned into the League office the checks and statement of weights, which are necessary for the closing of a Pool.

In addition to this, some dealers went so far as to deliberately report erroneously as to weights and tests, deliberately returned to producers many shipments as sour, the adjustment on all of which caused additional delay. As recently as last Friday, the 24th, a check and statement of weights that should be included in the July Pools was received in the League offices and this after regular notice had been served on the dealer, but at the present writing the closing of the July Pools is in process.

Conditions have greatly improved as relating to the August Pools and it is more than likely that the August Pools will be closed within ten days of the July Pools.

Coos and Curry Zones.

The primary reasons for the delay in remitting for the product delivered in July in the Coos and Curry Zone is with the one big difference that the greater part of the product delivered in this Zone has to be manufactured into by-products and such of necessity be sold before disbursement of proceeds can be made.

The principal product manufactured is cheese and this has to be two weeks old before it can be inspected, and further two weeks must elapse before it can be marketed.

It was this phase of the situation that prompted the League to start its system of trade acceptances, which is merely a means of obtaining the immediate use of money which is not yet due and is exactly what any business man or business concern has to do to get immediate money.

Another disturbing factor in this Zone was the strong opposition of the Nestles Food Company, who flatly refused to have any dealings whatsoever with members of the League as League members, but who have dealt with them individually and have settled with them direct. This caused considerable disturbance and delay as the members in that district did not thoroughly understand the Pooling system, nor did they thoroughly understand the necessity of sending their checks and statements to the League offices for the purpose of participation in the Pooling.

Another factor that entered into the delay as related to Coos and Curry counties was the slowness with which the League received reports of inventories of supplies on hand in the various plants and it has been with extreme difficulty that the League has at last received full reports. The details of appraisal and purchase of plants took more time than was anticipated inasmuch as several serious discrepancies were encountered in the statements of some of the plants.

In connection with the Coos Bay Mutual Creamery, at Marshfield, it was discovered that the indebtedness of the concern was reported to us at a very much lower figure than the actual indebtedness, which was found to be so large that the production stock of the by-products Corporation could not at this time be converted so as to liquidate this indebtedness, and less than ten days ago it was found necessary to execute a lease on this plant as of July 1st. The settling of this phase of the Coos and Curry situation has very much delayed the closing of the

Report of the Nestucca Valley Testing Association

The entire number of cows tested during the month of September was 549, the average pounds of milk for each cow being 596 and the average pounds of B. F. for each cow was 249.7.

During the month M. N. Bays had the honor pure bred cow of the association, Lady Linn Lee, a registered Jersey. Her record was 732 pounds of milk, containing 42.5 pounds B. F. Joe Shriber had the honor grade cow, Nellie, a Jersey which produced 1074 pounds of milk and 566 pounds butter fat.

Three highest her averages:
Joe Shriber, Cloverdale, 21 cows, avg. milk, 774, avg. fat 38.34.
Frank Kumm, Beaver, 10 cows, avg. milk, 1065, avg. fat, 36.70.
J. L. Craven, Cloverdale, 30 cows, avg. milk, 711, avg. fat, 31.30.

Five best cows for the month:
Owner cow lbs. milk. lbs. B. F.

Morning worship, 11 o'clock.
The pastor will preach the seventh of a Sunday service course of sermons on "The Commandments Up to Date." Subject: "The Sixth Commandment."
You are cordially invited to our services.
W. G. Lienkaemper, pastor

HIGH SCHOOL NOTES

Football Season Opens in Tillamook

Last Friday our boys battled the Oregon City boys in a game of football. When the last quarter was over the score was 13-9 in favor of Oregon City. It was a fine game altho our boys matched them in tactics their team far out weighed us. All of the boys who did unusually fine work were James Sharp, Emmett Gray and Bill Olson. Sharp understood the game thoroughly and used his power and strategy to thwart the opposing team. Sharp's work was watched and admired by the spectators on the side lines. Grey and Olson were admired chiefly because of their grit during the game; Grey, however was carried from the field during the second half. The line-up for the game was as follows: center: Grey; guards: Pete Gabriel, Moulton; tackles: Farley, Tone; ends: Tiffin, Driscoll; backfield: Anderson; half-backs: Harris, "Shingles"; fullback: Sharp. Substitutes: Halton for Pete Gabriel, Olson for Tiffin, Hoy for Halton, Gillock for Moulton, Moulton for Grey.

Russell Dark, is the latest addition to the Junior class, was formerly a Woodburn student.

Thursday evening seventy-odd enthusiastic H. S. students septinated thru the business district giving H. S. yells. When they had serpentine thru the streets once, Prof. Bennett was seen on the main street in his red gum boots and the yells were renewed with a greater vigor. This rally kindled the enthusiasm that was such a prominent part of the football game Friday.

Miss Brakel, the English teacher, was ill Thursday but was warmly welcomed back to the classroom Friday.

Oct. 30, a game of football is scheduled with Woodburn to be played here. The game that was to have been played Saturday with Forest Grove is postponed indefinitely. The High School and football boys wishes to thank the business men of the city for so courteously closing their places of business for the football game last Friday.

Administratrix Sale.

Notice is hereby given, that the undersigned, administratrix, will offer for sale at public auction on Monday, November 1st, 1920, at the J. E. As a Citizen of Oregon

YOU NEED THE PORT OF PORTLAND

If you owned a store you could not make a big success unless your business methods were as modern as your competitors. Unless Oregon develops her shipping facilities she cannot expect to get her share of the world's business. It rests with the citizens of this state whether Oregon shall develop her wonderful resources and reach out for bigger markets, or remain practically an inland state.

To become a real port, a 30 foot channel must be dredged in the Columbia and Willamette Rivers from Portland to the Pacific Ocean. This will enable farmers, stockmen and lumbermen in the interior of the state to reach the markets of the world at a lower freight rate and greater profit to themselves.

The taxing and bonding power to make these improvements can be granted the Port of Portland only by the people of the state. You and every other citizen will benefit if you, on November second.

Vote 310 Yes on the Ballot--The Port of Portland Dock Commission Consolidation Bill

OREGON PORT DEVELOPMENT LEAGUE

L. W. Trimble, Secretary.
