Health Means Warm Feet and Hands

Health Talk No. 1 By Forest L. Howard, D. C.

When heavy clothing is essential to comfort, sufferers from chronic cold feet and hands begin to know the full misery of their ailment.

Equal circulation of the blood in all parts of the body is seldom attained, except in sleep, for the brain of the average person, requires more blood than any other portion of the body. But when the extremities are unnaturally cold, the cause lies in interference with the free distribution of nerve im-

Persons who suffer from any form of paralysis, which is complete shutting off of spinal nerve power, know that the paralyzed parts are always cold. When by chiropractic spinal adjusting, the nervous balance is restored, the temperature of extremities become equalized with other parts of the body, and the chronic state of colds and

chills becomes a thing of the past. Comfortable warmth in hands and feet becomes a natural condition.

COLD HANDS AND HEADACHES DISAPPEAR

"When a girl I suffered from malerial fever and for six years seemed unable to regain or rebuild my strength. I had nervous headaches and my hands and feet were nearly always cold, but after I started chiropractic adjusting, the first thing I noticed was the warmth in my hands and feet. I have had no nervous headaches since." Mrs. Frank Ingram, Chiropractic Research Bureau, Statement No. 1239H.
