At a meeting on Sunday after the morning service Archdeacon H. P. Chambers, of the Episcopal Church made a proposition whereby Washington and Tillamook counties will become a joint mission, one clergyman having charge of the two counties, services to be held in each county every other Sunday.  
Mr. W. S. Cone left for Portland Thursday.  
Clarence Edner of Netarts was in town on business Tuesday.

**TWENTY YEARS AGO**  
(From the issue of December 13th, 1900.)  
We understand that the tug Vosburg, belonging to the Nehalem Transportation Company, will leave Portland the last of this week with freight for Tillamook.  
The butchers' fight is on in Tillamook—may it be bloodless.  
The numerous weddings which have taken place of late must be indications of a severe winter. Who is next to come in out of the cold?  
For the present indications it looks as if there is to be a freight rate war between San Francisco and Portland, at \$1 a ton. Yet from Portland to Tillamook some of the citizens have to pay \$6 a ton for freight. But we see competition in sight for Tillamook as well.  
The question of bonding the city for water, electric light and sewerage systems is being discussed.

**CALL FOR BIDS**  
Notice is hereby given, that Tillamook City, Oregon, will receive bids for the improvement of Miller Avenue, from the South line of 1st Street South to the South line of 8th, street, all in accordance with the plans and specifications therefor now on file with the City Recorder. Said improvement consisting of paving the same 24 feet in width and 6 inches in thickness, building curbs and constructing laterals for sewer connections, and by building concrete sidewalks 6 feet in width on each side of said street, together with all matters appertaining thereto, as set forth in said plans and specifications.  
All bidders must file with their bids a certified check payable to the order of the City Recorder for not less than 10 per cent of the amount of the bid, to be forfeited to Tillamook City if the successful bidder shall fail to enter into contract with approved bond, for carrying out of the bid if required to do so. Bids will be received up to the 20th day of December, 1920, at the hour of 8:00 o'clock P. M. and should be addressed to the City Recorder of Tillamook City, Oregon.  
Dated this 8th day of December, 1920.  
FRANCES B. STRANAHAN, City Recorder of Tillamook City, Ore.

**NOTICE OF SALE OF CITY IMPROVEMENT BONDS**  
Notice is hereby given that bids will be received by Tillamook City, Oregon, for the sale of \$10,000 of improvement bonds issued by Tillamook City under the Bonding Act for street improvements within Tillamook City, Oregon. Said bids to be received up to 8:00 o'clock P. M. December 29th, 1920. All bids to be addressed to the City Recorder of said Tillamook City, Oregon, and must be in the hands of the City Recorder on or before 8 o'clock P. M. on said date, and must be accompanied by certified check for not less than 10 per cent of the amount of the bid, same to be forfeited to Tillamook City if the successful bidder

falls to enter into contract to take the bonds in accordance with said bid. The City reserves the right to reject any and all bids.  
Dated this 9th day of December, 1920.  
FRANCES B. STRANAHAN, City Recorder of Tillamook City, Ore.

Mr. and Mrs. Doty left Thursday for a few days visit in Portland.

**Japanese Government Bars All but Business Firms Approved by War Office.**  
There will be no rush of adventurers to the new fields for exploitation opened up by the Japanese occupation of Russian Saghalien, according to Mr. Murakami, chief of the fishery bureau of the department of agriculture and commerce, who is quoted in the Yomiuri:  
"None except those who really mean business and are in a position to seriously transact business will find any place for them in Saghalien," said Mr. Murakami. "All rights there are in the hands of the military command, and anyone that wants to go there, row must obtain a permit from the war office. Certainly the forests there will yield plenty of wood pulp and other raw material, while there are rich coal mines and possibly oil wells. But the chief product of that region is the output of the fisheries."  
Speaking of the fishing rights in Saghalien, Mr. Murakami said that after consultation with the army command an auction was conducted at Nikolaievsk for those rights over which the army command is able to furnish protection. No detailed report of the auction has been received. The bidders had to file their applications with a deposit to guarantee their good faith, and they had to be persons who were qualified by long experience in fisheries in that neighborhood.  
The Yomiuri says that many reputable business establishments have been holding back from enterprises in Saghalien for fear of the competition of adventurers and the hurt their reputations might suffer in a mad scramble for rights and concessions—Japan Advertisers.

**HOLDING CHEMICAL TRADE**

Statistics Show That United States Has Been Able to Hold High Mark Set During War.

Official statistics for the fiscal year 1920 demonstrate that this country has been able to keep its trade in chemical and allied products very near the high mark set during the war, despite the loss of markets for purely war supplies and despite the pressing demands that must be met in the domestic market.  
Such is the conclusion reached by O. P. Hopkins, a well-known statistician, writing in the Journal of Industrial and Engineering Chemistry.  
"In almost all lines except munitions," he writes, "the exports in 1920 exceeded in value those of 1918, a fact that can be explained in some cases, perhaps, by rising prices, but which nevertheless warrants the assertion that the position has not been weakened. These exports, which very greatly exceed those of the last normal pre-war year, are made up almost entirely of manufactured products.  
"Imports have more than held their own and comprise raw and partly manufactured products required for further advancement by American chemical manufacturers."
