

COLUMBIA Storage Battery

HAS your storage battery had a "drink" of distilled water lately? Every storage battery should be refreshed with distilled water every 2 weeks or 4—depending on the weather and on how much it is used for starting, lighting, signaling, or ignition.

All battery manufacturers urge this watering with strict regularity; for water is steadily dissipated by the action of every storage battery, and it **must** be replaced often in order to avoid the battery's failure and rapid destruction. For technical reasons **distilled water must** be used.

No matter what the make of your battery stop in. Let us put you on our regular calling list and help you prolong its life by keeping it in first-class condition.

Columbia Batteries are guaranteed for one year against defects in material or workmanship.

According to the report issued by Creamery association, the cheese situation in this county is better than any other agricultural line in the nation. More than 90 per cent of the season's cheeses have already been sold. It is estimated that the price will run 17.5 per cent higher this year than that of the New York cheese. —McMinnville News Reporter.

Tillamook Portland Daily Stage My Cadillac stage line is in operation for the winter equipped for daily at 8:30 a. m. and one leaves Tillamook daily at 8 a. m. Portland headquarters at Hoyt Hotel, 6th and Hoyt St., but passengers will be picked up anywhere down at special request. Your patronage will be appreciated. IVAN DONALDSON 12-16 if

The Telephone Company Desires

- To give good telephone service.
- To keep its property in good repair and expand it to meet the requirements of the public.
- To pay wages sufficient to maintain an efficient and contented organization.
- To earn a revenue that will enable it to borrow the money absolutely necessary in its operation and to afford a reasonable profit to its owners.

In the State of Oregon today our earnings are insufficient to accomplish these results and we have asked the Public Service Commission of the State to approve a schedule of rates which we believe will provide the added revenue required.

No question of stocks, bonds or capitalization is involved. The Commission will base its decision upon a fair value of our property for rate making purposes and our earnings and expenses.

We believe that the public, realizing the benefits of adequate telephone service, will support this effort on our part to insure the maintenance and development of a high standard of telephone communication.

The Pacific Telephone and Telegraph Company
