**THE REASON:** The J. C. Penney Company originated in 1902 at Kemmerer, Wyoming. This little store did \$29,000 business its first year. Last year, just 17 years afterwards, the J. C. Penney Company did nearly \$29,000,000. A goal of \$59,000,000 is set for 1920. Today, if all the J. C. Penney Company stores were to form in a combined frontage, it would cover over two miles. The greatest factor in achieving this growth has been Service. "As you would that men should do unto you, do you even also unto them" is the standard we have tried to live up to in our every-day dealings.

**Transfer Wood Gravel**  
**Phone 37 W**  
Tillamook Transfer Co.  
Liberty Temple.

**Cows Tested in Oregon.**  
During the month of September 4847 cows were tested in Oregon. The average amount of milk given was 533.35 pounds, and the average pounds of butterfat was 25.62. Tillamook tested 885 cows, the largest number of any association. The highest average fat yield went to Rogue River association. The Smith Umpqua association had 13.4 per cent of its tested cows above 40 pounds of fat. The highest yield of fat was by a grade jersey owned by M. Lassen of the Coquille-Myrtle Point association No. 1. She gave 72.7 pounds of fat. A registered Holstein gave the largest quantity of milk, 1545 pounds; she is owned by John Schilde of the Tillamook association. —Oregon Farmer.

**Stock Trout Lake**  
Classic Lake Trout farm received their initial stock of trout for spawning purposes the first of the week. They expected 800 but only received 250; they are 12 and 14 inches long, and are Eastern Brook and Rainbow trout. They were purchased from Groets' pond near Hamlet, and were hauled by team and truck to their new home. In order to properly stock the lake 200,000 eggs will be purchased and hatched before spring. —Wheeler Reporter.

**HAY FOR SALE—BRIGHT, GREEN**  
leafy clover hay. No. 1 grade at \$22 f. o. b. Schefflin, Oregon grower. Write Joe Hanington, Cornelius. 11-254

**Fairbanks Morse Quality—Very Low Price**

This 40 light "F" plant comes to you completely mounted on one base. The power plant is the famous "Z" Engine which can also be used to furnish power for washing machine, churn, cream separator, etc., independent of the dynamo, either direct or through a line shaft.

Low speed engine and ball bearing dynamo assure long life, less attention, and lowest possible maintenance cost. Touch a button to start and another to stop. See this wonderfully efficient plant and let us explain all the details.

Marie Glad, Florence Zuercher, Nadine Williams, Anna Farnstrom, Josephine Johnson, Mary Johnson, Ella Smith, Ernest Zuercher, John Krake, Nils Farnstrom, Harold Glad, Floyd Rhodes, Glenn Zuercher, Kenneth Williams, Frieda Erickson, Elsie Zuercher, Ethel Farnstrom, Thayne Smith, Eunice Krake, Ellen Pinkstaff, Freddie Zuercher, Robert Williams, Gladys Erickson, Irene Buffum, Okly Smith, Robert Culbertson, Everett Glad, Alvin Makinster, Blanch Erickson, Marjorie Krake.

F. H. Pinkstaff, Mrs. Lelia Drew-Doty, Teachers.

**May Dike Tide Lands.**  
M. J. Maddox is the representative of a group of men that will probably undertake to dike 1,200 acres of rich tide lands situated north of Wheeler and west of Nehalem. Options on practically all the land to be reclaimed have been secured, and Engineer P. E. Clarke has made a preliminary estimate of the expenditure, \$125,000, necessary to dike and make ready for cultivation this large tract of fertile land, that is in one body and easy of access. Every foot could be made productive, supporting a population of 200 or more. —Wheeler Reporter.
