GLEANED FROM EXCHANGES

The voters went on record Monday as in favor of the one mill tax for the purchase and improvement of grounds for the county fair. The vote was light, only about 12 percent of the registration. Some of the voters along the beaches, feeling neglected in the past, were overwhelming against the issue, and they may in the future have a hard time explaining their attitude toward this improvement that the farmers wanted and needed. Wheelers Reporter.

N. S. Booth, of Hemlock, Tillamook county, who formerly lived near Dayton, was here Saturday looking after business matters. He and Mrs. Booth like their new surroundings greatly, but they like to hear what is going on in old Yamhill. Mr. Booth has been missing his paper and he felt like kicking the editor for not having given better attention to the mailing of his copy each week.

Fred R. Beals, joint representative from Tillamook and Yamhill counties who is expected to do yeoman service at the coming session of the legislature, was in McMinnville Friday. Mr. Beals has many enterprises at Tillamook and is intensely interested in the developing of his home county. He is developing a summer resort at Pacific City which has appealed to many McMinnville people who purchased lots there upon which to erect cottages.—McMinnville News Reporter.

At a meeting held Friday evening Tillamook Post American Legion, passed a resolution favoring the state aid bonus and appointed a committee to confer with the Portland Post of the Legion as to the action to be taken by the Tillamook legislative delegation to further the passage of such measure by the next session of the legislature. In order that similar action may be taken by the Tillamook Post with the legislative delegation from Tillamook county.—Portland Journal.

Art Bodyfelt took his mother, Mrs. Joe Bodyfelt, to Portland, where his brother Will is living, and where she will take electric massage where she will take electric massage of age and is a pioneer of the early 70s, when they came to Tillamook county, and in 1876 took up their

claim on the Big Neetucca river. Everything was then packed in and out on horses by way of Grand Ronde. Butter was the outgoing load. Game was plentiful. Geo. Bodyfelt, sr., went hunting and killed five deer and was gone only two hours.—Hebo Correspondence in Neetucca Valley Enterprise.

Mrs. W. H. Alexander has gone to Portland to meet her husband from Three Hills, Canada. Together they will visit relatives and friends in Tillamook county. They had a big harvest. Wheat made from 25 to 40 bushels to the acre and oats about 80.—Hebo Correspondence in Neetucca Valley Enterprise.

J. C. Jorgensen of Carlton was elected president of the Oregon Butter and Cheesemakers' association at the concluding session of the eleventh annual convention in the Portland hotel Friday evening. Other officers elected were: George Jacobsen, Damascus, vice president; V. D. Chapelle, O. A. C., secretary; treasurer; F. Christiansen, Tillamook; D. McKenzie, Marshfield and H. V. Franklin, Portland, committee on re-organization.—Oregon Journal.

Sea Lion Leather.
 Large numbers of sea lions on the British Columbia coast which destroy annually vast quantities of fish food may be slaughtered and their hides placed on the world's leather market. If a proposition which comes from Premier Oliver and has the approval of many experienced fishermen, is carried out. The sea lion weighs from 2,000 to 2,500 pounds, the hides being nearly an inch thick. These hides make a tough and durable rough leather such as is used in workmen's gloves and in saddles. It is stated that these animals will eat 50 pounds of fish in a day. Four hunters recently killed several hundred sea lions in one day in Charlotte Islands.—Scientific American.

"Lotus Eaters."
 Few flowers have been more identified with the world's history than the mysterious lotus of Egypt. The phrase "lotus eaters" is a common one in literature, and is used to describe those who live in a dream world. The food made from the dried seeds of the Egyptian variety seems to have had an effect similar to various opium products, and once in the clutch of the drug the lotus eaters forgot both past and family and went moping about, oblivious of demands made by society, kin, or even their own physical wants.

Davy Jones' Rich Cargo.
 A diver was sent down recently at New York to locate a case of machinery that had fallen into the river. As soon as he reached the bottom he signaled that he wished to come up. When his helmet was removed, the first thing he said was "What's the number of the case?" There were so many cases at the bottom of the river that he didn't know which one belonged to his employers. The amount of cargo that is lost in loading and unloading ships is enormous.—Popular Science Monthly.

Mosquitoes Dislike Swamps.
 Recent experiments prove that, contrary to the general belief, mosquitoes do not thrive and multiply in foul, stagnant water. In fact, mosquito larvae actually lose vigor and die when surrounded by decomposed vegetation. Whether this is due to bacterial action on the larvae or to an excess of injurious gas due to the decomposition has not been ascertained. At any rate, swamps are not guilty of encouraging mosquitoes, and clearing these swamps does harm.—Popular Science Monthly.
