SOMEONE IN THE HOUSE

He Lied to Himself and Laughed at Himself What was the girl to him? Nothing, of course. He had the jewels and a clear field... And yet... How those eyes of hers got a man! "Someone in the House" tells the story of a crook who thought, when he planned the theft of the priceless Brent diamonds, that they were worth the taking.

WAR ON DISEASE WORLD WAR
Health Problems of the Remotest Land is the Concern of All Peoples.
The war against disease is a world war. Commerce carries dangerous infections, as well as goods and ideas. The health problems of the remotest land concern all peoples. More and more, nations are coming to recognize their interdependence in health as in industry, government, science, and culture. There are even now foreshadowings of world-wide co-operation in combating the maladies which have long threatened humanity. For this new campaign leaders are needed to extend the frontiers of medical science, to teach, to organize, to administer. Demonstrations are required to convince communities and nations that diseases can be controlled and eradicated. The Rockefeller Foundation, enlisted for this world-wide campaign against disease, is co-operating with many agencies in five continents, is fostering the growth of international confidence and good will, and is seeking the fulfillment of its chartered purpose—"to promote the well-being of mankind throughout the world."
