BORROWING TILLAMOOK'S REPUTATION

It is said that imitation is the sincerest flattery.

Whatever the object may have been for the Oakland dealer to sell Coos Bay cheese in Tillamook cheese wrappers, it is nevertheless a fact that some Coos Bay cheese was sold by this method that would not have been sold had the cheese been in the proper wrapping.

Steelhead salmon are at the height of their run in the coast streams of Tillamook county, it is the word brought by George Russell, deputy game warden for that section.

HOME INVESTMENTS

We believe we see a moral for some local people in the failure of the bond firm of Morris & Company in Portland recently.

It is understood that there were several local investors hoping to enlarge their savings by entrusting them to a private investor, and lost all they had.

The moral, as we see it, is that money should be kept at home.

There are several trustworthy enterprises in the county that are in need of capital and the dividends from these would reach a higher per centum of profit than an investment in bonds would be able to pay.

LOADED GUNS

In spite of the fact that people have been warned time and again about the danger in leaving firearms standing around loaded, some person insists on being careless and imperiling other peoples' lives.

The loaded gun that was left at a store downtown and discharged today is just another proof that the fool-killer has not done his work well enough. Such cases should be dealt with by the law and dealt with hard, for while this particular case harmed nobody, there might have been a serious accident.

REX THEATER

Sun. and Mon. Jan. 2-3 45 MINUTES FROM BROADWAY

CHARLES RAY Taken from the famous musical comedy of the same name. It's a knockout. 2 reel comedy—A FRESH START.

Saturday, Jan. 8 HAROLD LLOYD in HIGH AND DIZZY

His funniest comedy. Also H. B. WARNER in FELIX O'DAY Just a little bit o' Irish.

THE LITTLE HOUSE WITH QUALITY PICTURES

TILLAMOOK COUNTY FOLKS ABROAD

F. R. Beals, newly elected representative for Tillamook county, registered at the Imperial yesterday. Mr. Beals has written to most of the other members of the house inquiring whether his colleagues have any special measures. Mr. Beals himself doesn't want Tillamook taken away from Washington county in the circuit court, there being a movement on foot to have Tillamook added to Yamhill county.

Garibaldi and northward along the coast among the beach resorts, there is a prospect of extensive building operations in the coming year. It is estimated that there will be between 50 and 100 cottages erected, a considerable percentage of these being located in the vicinity of the big sawmill at Garibaldi. T. W. Talmadge of Garibaldi is an Imperial arrival.

Steelhead salmon are at the height of their run in the coast streams of Tillamook county, it is the word brought by George Russell, deputy game warden for that section. Mr. Russell is regaling friends with his tales of fish and ducks and crabs and to demonstrate his veracity brought some of the last inas Christmas gifts. Roads are not bad around Tillamook, he says. He drove in as far as Yamhill.

HARRISON BOOTH, WHO HAS BEEN LIVING ON THE TILLAMOOK PLACE NEAR TILLAMOOK, IS VISITING HIS BROTHER LUKE BOOTH, AND HIS COUSIN H. Z. FOSTER OF THIS CITY THIS WEEK, AND ALSO VISIT HIS BROTHER ROBERT AT NEWBERG.

Mr. Taylor of Tillamook is in the city and expects to locate on acreage near the city. McMinnville Telephone-Register.

C. J. EDWARDS, OF TILLAMOOK, WHO IS INTERESTED IN THE COAST POWER CO., WAS IN NEWBERG RECENTLY, AND REPORTED HIS BUSINESS INTERESTING.

A MINIATURE TIDAL WAVE WHICH SWEEP BY CITY CHRISTMAS DAY LEFT ENOUGH DRIFT WOOD IN MANY FRONT YARDS TO PROVIDE MANY FAMILIES WITH FUEL FOR MONTHS TO COME, SAYS J. O. BOZARTH, BAY CITY REAL ESTATE DEALER, WHO SIGNED HIS NAME ON THE OREGON REGISTER.

Two bills each the size of a newspaper page, were issued by two Hillsboro business houses last week. One was printed in Hillsboro and the other in Portland. So far as workmanship was concerned there was no perceptible difference. Perhaps it was a small matter, but a number of small things is what makes a big thing. Suppose patrons of the establishment that used the Portland bill followed the example set in making their purchases, it wouldn't be long before that particular merchant would be obliged to move his establishment to Portland if he expected to do any business. And also the dollars spent in the home town stays there and comes back to your cash drawer, but send it out of town once and it's a long time before it gets back.

THE OSKALOOSA INDEPENDENT REPORTED THE DEATH OF A FORMER CITIZEN, WHEREUPON THE DEAD MAN WROTE AND SAID: "I WENT HOME AND TOLD MY WIFE I WAS DEAD AND PRODUCED A COPY OF YOUR PAPER TO PROVE IT. WHILE SHE IS A GOOD WOMAN AND ALL THAT SHE THINKS YOUR PAPER LIED, AND SHE MADE ME CARRY A LOT OF COAL AND WATER IN SUPPORT OF HER OPINION. NO, MR. EDITOR, I MAY SAY THAT I AM NOT DEAD, BUT I AM MAD."—EX.

NOTICE TO THE PUBLIC

I regret that after one month's trial, I find it necessary to raise the stage rate between Tillamook and Portland. It is my intention to give the best service possible with as low a price as possible. After January 1st the new rate will be \$5.25 to Portland, or \$10.25 for the round trip. I trust that my customers will realize that I am doing this from the standpoint of necessity and not that I am trying to hold them up.

AN ALTERATION OCCURRED IN THE ELKHORN POOLROOM LAST WEEK THAT LEFT ONE OF THE PARTICIPANTS WITH A BADLY BRUISED FACE. WHAT IS THE USE FOR THE BOXING COMMISSION TO SEND OUTSIDE FOR TALENT WHEN WE HAVE IT HERE? Patronize home industries every time.

OUR BIRTH RATE IS NORMAL

Census Bureau Statistics Show That Births Exceed Deaths by About One-Third.

The census bureau, on the strength of registered returns, gives figures to show that the birth rate in the United States exceeds the death rate by one-third, which is a gratifying fact. We are not one of the nations that need be anxious on this vital point as far as present conditions are concerned. One of the most serious troubles in France is the warning in its censuses that in some years more of its inhabitants die than are born. Some of its neighbors grow much faster in population. This disparity was somewhat noticed in the past, yet without fully realizing the terrible menace involved. The desolated towns and farms of France are a monument to the old census adonitions and the awful sacrifice of young French manpower is far more dreadful than the devastation. Often have the public men of France sounded an alarm on the defective birth rate. It is much discussed now by thoughtful French legislators and writers. A census always demands intelligent study.

The United States grows by immigration as well as births, and our school system tends to Americanize the whole body of citizens. Our schools are a great melting pot for Americans of the future and to increase their proportionate number. The welfare of children is a great national issue. The birth rate and death rate need continuous attention.

ALL WANT TO LIVE IN PARIS

So Many Foreigners Are There That the Frenchman Is Being Crowded.

The New York Evening Post's Paris correspondent says that in an article in Excelsior a French writer contends that while Paris before the war was the meeting place of all nationalities, it has now become their permanent abode, so that the Parisians are crowded out into the suburbs or unable to find an apartment in the city.

The writer says that if you take a census of the average apartment you will find that it contains "Belgians who left when the Germans came. Russians driven out by bolshevism. French families from the devastated regions who seem to like it where they are. American students with their omnipotent dollars. Englishmen trying to do business and representatives of the Balkan states, Poland, Turkey and other distressed and unsettled regions who are living on the Lord only knows what. Paris is proud of her cosmopolitanism, but is finding it inconvenient when the peoples of the world show so little inclination to move."

CARDINAL'S HAT SYMBOL OF OFFICE

The peculiarity of the cardinal's hat is that it is not to be worn. On one occasion only is it to be seen on the head of the cardinal, and that is when the pope himself places it there as a symbol of his own's elevation to the Sacred college. When the cardinal dies it is placed in his coffin. The hat is of a deeper red than that of the robe worn by the cardinal. It has long heavy silken cords, each with 15 tassels at the end, hanging on either side. The crimson robes which, like the hat, denote the cardinal's office, are made of cloth which for several generations past has been supplied by a firm of cloth merchants at Burtseid, near Aix-la-Chapelle. The process by which the dye is distilled is a jealously guarded secret.

TRADE WITH AUSTRALIA GROWS

Trading between this country and Australia is showing a healthy growth, according to figures supplied to the department of commerce by A. W. Fern, trade commissioner, who is at Melbourne. They cover imports and exports for the first quarter of the current year, and show the imports during that period to have been about \$27,775,000, against exports to this country of approximately \$16,350,000. February exports nearly equalled in value the totals for January and March, and in that month the outgoing shipments exceeded the imports. In the same month, however, the value of the imports was less than half of the goods brought in during March.

MAKING IT HOMELIKE

On Dolly's birthday she was presented with a baby bulldog, and her delight was delicious to behold. It was very young, and she insisted upon taking it to bed with her, but the next morning she was looking very tired. "Haven't you slept well, darling?" asked her mother. "No, mummy," said Dolly. "Nelson was crying in the night for his mummy, so I kept awake with him for company, and I made awful faces all night to make him think I was his bulldog mummy to comfort him!"—Answers, London.

AERIAL TAXICABS IN CANADA

Seventeen aerial taxicab companies are being formed in western Canada, and a number of these already have been licensed by the air board. Four commercial flying companies have been formed at Winnipeg, and there are companies at Regina, Moose Jaw, Saskatoon, Edmonton, Hinton (Alberta), Calgary, Lethbridge, Banff and in Vancouver. Aerodromes are to be built at Viridian and Vancouver. Passenger flying is the best object of these companies, and mail carrying and distribution for large shops are expected to follow.

"PARIS COMES TO AMERICA"

English Visitor Finds French Influence, Especially in Architecture.

It used to be said that good Americans who did visit to Paris. The Parisian lure no doubt is still powerful; but every day I should guess that more of Paris comes to America. The upper parts of New York have boulevards and apartment houses very like the real thing, and I noticed that the architecture of France exerts a special attraction for the rich man desiring himself a pleasure dome.

There are millionaires' residences in New York that might have been transported not only from the Avenue du Bois de Boulogne but from Touraine itself; while when I made my pilgrimage to Mr. Widener's, just outside Philadelphia, I found Rembrandt's "Mill" and Manet's dead bull fighter, and a Vermeer, and a little meadow painted divinely by Colot and El Greco's family group, and Donatello's St. George, and one of the most lovely scenes that ever was created by Turner's enchanted brush, all enshrined in a palace which Louis Seize might have built.

But America's is still more French than this. Her women can not be less soignée than those of France, although they suggest a cooler blood and less dependence on make-up; her shops are good American society; her shops of the Rue de la Paix and far more costly; and her bread is better than France's best. Moreover, when it comes to night, and the Broadway constellations challenge the darkness, New York leaves Paris far behind. For every cabaret and supper resort that Paris can provide New York has three; and for every dancing floor in Paris New York has 30.

SHIPS' SIRENS SOUND CODES

Whistle Blasts Give All Information Necessary to All Whom It May Concern.

As ships pass in and out of port their sirens sound a code which enables all that is necessary to be said to all whom it may concern. Two tug boats, one concealed from the other by the vessel they are taking to her berth, will rattle away, one telling the other what to do, and perhaps each in turn pleading with the pilot on the liner's bridge to stop his engines, to go ahead or astern, or do half a dozen things.

Sirens of the big shipping liners mostly have individual notes, and they have calls of their own when nearing port. The Commodore announces her approach by three long blasts, the White Star and Allan liner by three, Dominion four, while Leylands vessels run to six sounded in three twos, with a marked interval between each pair. Boats of the African line have a threefold call, one long and two short; Johnsons are quite garrulous with their heavy silken cords, each with 15 tassels at the end, hanging on either side. The crimson robes which, like the hat, denote the cardinal's office, are made of cloth which for several generations past has been supplied by a firm of cloth merchants at Burtseid, near Aix-la-Chapelle. The process by which the dye is distilled is a jealously guarded secret.

HANGED FOR SYMMETRY

One rarely sees a lumbarked person nowadays. People thus afflicted used to be far more numerous. But medical science has learned how to treat such cases, as well as lateral curvatures of the spine, with remarkable success. Harold J. Rink of Chicago, has newly patented a contrivance for the purpose of straightening backbones which is interesting. The patient is literally hung up in a doorway by the chin, his toes barely touching the ground. Thus his spinal column is pulled straight, while cords attached to belts that he wears, one under the arms, and the other about the hips, exert drugs sidewise to correct a curvature.

GUIDING SHIPS INTO HARBOR

Experiments like those which the navy department is now making toward the plotting of craft into the harbor appear to be meeting with success. They are certainly worth making. The method is a combination of cable with wireless guidance. An earlier cable, the frequent breakage of the cable, has been overcome. It only remains to develop the technique in detail. Very likely the time will come when entering New York harbor will be almost as exactly marked a procedure as driving about the streets in the center of the town according to traffic regulations.—New York Sun.

ACQUAINTANCE LIMITED

A new clerk in an Anderson department store was asked by a woman customer where she might find mosquito bar. The clerk, misunderstanding, answered: "I haven't been here long, so I don't believe I know where you will find Miss Keta Barr."

RUBBER IMPORTS INCREASE

A marked increase in the amount of crude rubber imported into this country is shown by figures for the fiscal year ended June 30, 1920, compiled by the National City bank of New York. During the year 600,000,000 pounds were imported, as compared with 522,000,000 in 1919. Two-thirds of the amount imported was for auto tires.

REX THEATRE CHATS, NO. 1

Although I have taken over the REX THEATRE of Tillamook, I intend to continue using the super-pictures that Mr. Bender has been showing, and if possible, to improve upon them. If the people of Tillamook will give me their support, I will give them the best pictures obtainable. Signed, K. LAUGHLIN. Note: Watch for next week's chat.

TO THE PUBLIC

We take this means of thanking the public in and adjacent to Tillamook for the liberal patronage which we have enjoyed in the past and hope to merit the continuance of same in the future.

It has been our aim at all times to give to Tillamook and vicinity the very best class of entertainment the film market affords, and at the present time we feel that never in the past have we had a more elaborate and pleasing list of photoplay attractions coming, than we have now. It will be to your advantage to watch the programs at the Gen Theater each week and avail yourselves of the opportunity to see the greatest film attractions. Again thanking you and wishing you each the season's greetings for a prosperous and happy "New Year," we are, respectfully yours,

PARTIDGE & MORRISON.

A North Dakota man killed eight neighbors as the result of a quarrel over a dog. Suppose it had been a horse or a cow?—Kewanee (Ill) Star-Courier.

From Rheumatism There Is a Road to Health

Health Talk No. 2 By F. L. Howard, D. C.

Rheumatism is one of the most persistent diseases. Most sufferers from rheumatism are able to find temporary relief, but the man with "rheumatiz" expects it to give him a twinge of pain on every occasion, particularly when it is about to rain.

Rheumatism is caused by the absorption of poisons into the blood. The kind of rheumatism may be any one of the several varieties, but the Chiropractor has invariably found pressure on spinal nerves that regulate the healthful action of the kidneys and bowels. Chiropractic spinal adjusting removes the nerve pressure, and restores the natural nervous vigor to the bowels and kidneys. When enough adjustments are taken to build up the spinal cartilages and restore nerve freedom, the relief is very apt to be permanent.

NO EXPOSURE ONLY THE REGION DIRECTLY OVER THE SPINE IS EXPOSED IN RECEIVING A COMPLETE SPINAL ANALYSIS AND ADJUSTMENT.

NO CHARGE Consultation is without charge or obligation
