GIVE HIM TIME

We cannot resist mentioning here a few things regarding the printing business and its relation to its customers.

Remember that your printer is human don't expect him to do miraculous things just because he is somewhat mysterious and works with little boxes filled with metal out of which he forms words to print books, circulars etc. He is just a mechanic like any other good workman and must have a reasonable amount of time in which to perform his tasks.

Give your printer time, however he is, and you will be repaid by getting better work. The printer has many customers who rush into his shop and demand a few thousand bills or circulars, wants them made up so he can have them in about half an hour, just like that. What does he get? If he gets them made

up in two days he will be lucky for all printers have some work ahead that must be turned out first as a matter of principal. When you find you are going to be in need of a job of printing take it to your printer in plenty of time to have it done properly, give him a chance to make a good job of it. He will think more of you for your consideration. There are very few cases where a customer does not know at least a week ahead that he is going to need some printing done, but the usual thing is to wait until the work is actually needed before he goes around to the job shop at all. Then he wants it right away of course.

So Henry Ford is condemning all Jews, is he? Just because, it is said, a Jewess made a fool of him on the Ford Peace Expedition to Europe. Poor Henry. We didn't think it possible for a Jewess, or anyone else, to make a fool of Henry.

Now that the new city council is in power we expect great things of them, for a while at least. A new city council always starts off with plenty of steam.

In the last issue of the Wheeler Reporter the editor asks: "Several have asked us what we are going to do now that the mill is going to close. We are going to continue to issue the best paper in Tillamook County. What are you going to do?"

Now, Brother Nunn—

Remark the young business women, as she discovered for the first time that the new boss was married and had six children, "Interested ceases this fifteenth day of January 1921."

"You never saw any Bull Durham signs in France."

"No, but you saw plenty of Chocolate Menier ones, and that means the same thing without the Durham."

—American Legion Weekly.

The Recher-Bester Furniture Company is quoting some low prices on Ranges and Heating Stoves. You should see them before you buy.

REX CHAT NO. 4
One of the biggest features in Portland's musical world are the Sunday concerts, featuring the orchestra of organists of the various theaters. Now, Tillamook will have the same musical treat to look forward to. Every Sunday, after-noon at 3:45 the Rex Theater Chamber Trio, consisting of piano, violin and marimbaphone, will present a semi-classical concert. These concerts will last about one-half hour and will be of great musical value. The opening concert, Sunday, Jan. 23rd, will consist of the following numbers: "Battle of Nations" march "Springtime," popular ballad. Overture to "Bohemian Girl," piano solo by K. Laughlin; "Sing Me Love's Lullaby," waltz ballad, and "So Long Oolog," a popular rag. Make it a point to come to our matinee Sunday, not only to secure the benefit of this concert, but to avoid the large evening crowds.
K. LAUGHLIN, Mgr.

A MAN AND A MAID

love to dance, especially when it's a fascinating dreamy waltz or a jazzy, jumpy one step played on the phonograph. Beats a poor orchestra or jazz band every time. Come to our shop and hear your favorite dance played.

E. E. KOCH,
DRUGGIST.

Baby Likes It

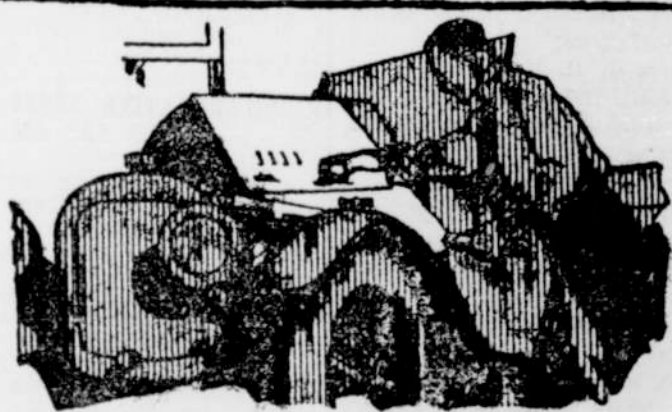

His daily bath is a real pleasure when he has it beside the warm glow of a good oil heater—filled with PEARL OIL. And mother knows that the heater is guarding his health—and she can use it in any room of the house.

PEARL OIL is clean-burning—no smoke—no odor—for it is refined and re-refined by our special process. Economical. Sold in bulk by dealers everywhere and by our stations.

Order by name—PEARL OIL.

THE PACIFIC TELEPHONE AND TELEGRAPH COMPANY.

What Is Your Telephone Service Worth?

The Pacific Telephone and Telegraph Company has built up a telephone system in Oregon from 7027 stations in 1900 to 94528 stations in 1920. This development was secured for the most part during a period when cost of labor and materials was nominal. During these 20 years the Telephone Company has carried out its part in the building of Oregon. Its operating expenses have increased faster than its revenue—for the last five years it has been operating at an increasing deficit. This condition cannot permanently continue.

New capital cannot be obtained by public utilities at all except when rates are such as will afford reasonable assurance, with efficient management, of earnings sufficient to care for legitimate fixed charges and establish for them a basis of credit. This does not mean that rates should be such as in themselves will supply new capital, but that they be such as to justify capital investments in competition with other business ventures.

The proposed rates represent a very small increase to the individual user—FROM 2 1/2 TO 11 CENTS PER DAY. In the aggregate they represent a revenue to the Telephone Company sufficient to enable it to continue to serve the public, meet its payroll obligations and show a reasonable return upon a legitimate investment.

Adequate service is dependant upon adequate rates.
