Roosevelt Highway

The Roosevelt military highway bill, which was introduced into the legislature during the present term and which called for the immediate commencement of a large amount of roadwork along the coast and provided for the financing of the work passed the state senate Tuesday by a vote of 26 to 4.

The measure was originally referred to the voters at a special election in May 1919 and passed with a satisfactory majority. Recently, some of the sponsors of the bill decided that to wait for federal aid, as had been intended, would mean a loss of valuable time and they had the present measure drawn up and introduced.

Now come several legislators and, because they can't see how the highway will benefit their own particular communities, try to defeat the measure.

Sectionalism seems to reign in several places beside Tillamook.

Foolish History

We are in receipt of a copy of "Foolish History of Roseburg and Douglas County" by Bert G. Bates of Roseburg.

The book takes up from the time the first cave man, or someone of other, discovered the town of Roseburg and laid out the streets of the town. It also explains, with illustrations, how Douglas county won the war, setting our mind at ease on that subject.

After a perusal of the book we have decided that if Douglas County only had a little more rain and produced cheese it would be a good place to live in.

Mr. Bates is now preparing another book, "Who's Who in Oregon", and we predict a big reception for it if it measures up to the "Foolish History".

Apparently our legislators at Salem were unable to devise a plan to handle loans for ex-service men without referring the matter to the people's vote, which will take nearly two years to do; and many things can happen in two years. "Passing the buck" was a common and well known expression in the Army.

The United States has apologized to Germany for the actions of two Americans who attempted to kidnap the arch-draft evader Bergdoll. Now the nice thing to do would be to ask the Hun's forgiveness for entering the war against them.

One noticeable thing about town nowadays is the number of wooden windows that have been installed. Must be trying to beat the high price of business and at the same time patronize home industry.

What has become of the bootleggers? The county "hotel" seems to have become a lounge. Some resort during last month.

If every cloud has a silver lining an early Spring should follow the heavy storms we have had recently.

Did the groundhog see his shadow in Tillamook yesterday?

REX THEATRE CHAT NO. 6

I have noticed during my stay here that the people of Tillamook enjoy real thrilling western stories. What would you think of a western serial? Starting Friday, Feb. 18, we will commence showing the world's most famous serial star, RUTH ROLAND, in the world's most famous serial, "RUTH OF THE ROCKIES." This serial is now playing at the Hippodrome Theatre of Portland, and in approximately fifty other theaters throughout the state, and wherever it is shown it is proclaimed a knock-out. Each of the two reel episodes has a real punch, every one of which is different. It won't tire you, and it will hold your interest to the last minute. So don't forget the date—next Friday, February 18.

In connection with the first episode we will show a famous Allan Dean production, "The Scoffers." Allan Dean is the producer of such plays as "Luck of the Irish," and "In the Heart of a Fool." "The Scoffers" ranks high among real productions of the age and it will pay all to see it. As an extra attraction this entire program will be repeated Saturday, Feb. 19th at 10 A. M. All children under 16 years will be admitted free. We also welcome their parents and any others that may have failed to see the show the night before.

INDIANS NOW 336,337

Estimate of Population Is Given Out by Commissioner.

Increase of 31,387 for Last Ten Years Is Shown—Total Area of Indian Lands 589,111 Acres.

Green Bay, Wis.—The Indian population of the United States, according to Cato Sells, commissioner of Indian affairs, is 336,337, as against 304,950 ten years ago, showing an increase of 31,387.

The Onondaga Indian reservation, near here, has a population of 2,857, Commissioner Sells' annual report states. Although no figures for last year are available, he believes this year's total is a substantial increase over that of 1919.

Population of other Indian reservations in this vicinity show: Keshena school, 5,023, including a large number of students from the Onondaga reservation school, which was closed last year; Laona agency 364; Winnabago, 1,251; Menominee, 1,709.

Wisconsin has a total Indian population of 10,310, Commissioner Sells reports.

Marriages last year between Indians and whites total nine in the state, while those between Indians totaled seventy-eight. Of the total number of Indians in Wisconsin, 3,461 are Protestants and 1,955 Catholics.

The total area of Indian lands in the state is shown as 549,111 acres, Keshena reservation is the largest, having 231,080 acres.

Tuberculosis is still the "white plague" among the Indians, but the commissioner details the progress made in fighting it, a series of lessons in sanitation and correct living.

AN ENGLISH BEAUTY

A charming portrait of Lady Geolla Katherine Wellesley, daughter of Clare, Countess of Cowley. Her mother is a daughter of Sir Francis George Stapleton, and widow of the third Earl of Cowley.

HONOR FOR 'HIGHLAND MARY'

Admirers of Robert Burns, Scotch Poet, Remove Body to its New Resting Place.

Greenock, Scotland.—With great solemnity the remains of Mary Campbell, Robert Burns' "Highland Mary," were transferred from the Old West Kirk yard here to a new grave in Greenock cemetery.

The removal was necessitated by an extension of a local railway.

From the spot where Mary was buried 184 years ago the coffin was borne reverently on the shoulders of representatives of Burns clubs from all over the country to its new resting place, and a large crowd of Burns admirers attended an impressive funeral service.

The monument which Burns admirers erected on Mary's grave in 1842 covers the new tomb.

Human Fly Helps Anchor Shabby Walls

New York.—Aided by a "human fly" workmen assumed the hazardous task of anchoring tottering walls of the nine-story Strathmore apartment and store building at Broadway and Fifty-second street, half of which collapsed Wednesday, burying it, it is believed, seven workmen in debris.

While the steeple jack in the glare of powerful searchlights sealed the first cables and at each tier made fast cables anchored in the center of the structure, a corps of firemen dug in tons of brick and plaster below searching for bodies of victims.

Father and Son Join Army. Louisville, Ky.—After passing the army medical examination, Jacob Barnett, aged thirty-five, and his son Hurley, eighteen, have gone to their home to get their affairs in shape. They will become members of the same unit, and are now under orders to report to San Diego, Cal., for coast defense service.

OFFERS TO SELL SELF FOR \$2,500

Jack Tar's Body and Soul Goes for Year to Man Who Will Put Up the Money.

STICKS FOR HONESTY ONLY

Will Do Anything to Help Him Care for Wife and Baby—Goes Superfluous to Buy Milk for Infant.

Chicago.—For those who like to ponder the riddle of existence there is presented Overt Firmin, who offers himself for sale, body and soul, for one year. Price, \$2,500.

His only stipulation is that his purchaser shall not expect him to participate in any unworthy action. He will go anywhere in the world upon the most hazardous adventure. He says he will labor "at any task that 160 pounds of brain, two capable hands, and a clear brain can perform."

But he insists he must sell himself. There are two reasons. You will find them in a one-room housekeeping apartment on the third floor, back, at 1252 West Madison street. One is the nineteen-year-old wife he eloped with three years ago. The other is Martha, thirteen months old and undernourished.

A Marooned Jack Tar. It is the story of a Jack tar marooned among landlubbers. Firmin was born in St. Johns, New Brunswick, Canada. His father was a deep sea sailor. As a boy Firmin used to go out with the fishing smacks. He could navigate a deck before he could walk a pavement.

As soon as he was old enough he went to sea. He has circumnavigated the globe five times. He has been in every nook and cranny where ships wander. He enlisted for the navy when the United States entered the war, but the shipping board diverted him to the merchant marine.

In the fall of 1917 a freight packet on which he was serving as quartermaster touched at Cleveland. Firmin had shore leave of five days. He met Myrtle Smith. They loved. Her parents objected. They were married secretly. His time expired last November. He went to Cleveland. They notified the parents of their marriage. Forgiveness was refused. They came to Chicago.

"I've Tried Everything." "But I don't belong on dry land," he said. "I've tried everything. My wife is not well and I didn't want to leave her and baby. I finally began washing windows and cleaning flagpoles. I'm pretty handy at climbing. But the money didn't come in.

"Tonight we got down to our last cent. We were able to buy milk for baby, but we went superfluous. So I decided the thing to do was to go back to the sea again. There I'm at home. On dry land I'm as handy as a fish out of water.

"So that's why I offered myself for sale for a year for \$2,500. I'm well worth it. All I want is assurance the wife and baby will be cared for. About myself I'm not worrying. I don't care where I go or what I do, just so it's honest.

"Please get this straight: I don't want any charity. I just want a chance to make good for the \$2,500."

MORE WIRELESS FOR BRAZIL

Bill in Chamber of Deputies Aims at Service to Reach the West Coast Nations.

Rio de Janeiro.—Increased wireless communication with neighboring American republics and within the vast territory of Brazil itself is the aim of a bill just introduced into the chamber of deputies.

It provides for the installation of high-power wireless stations in the federal district, and, by arrangement with Paraguay, in Assunção, and at convenient points in the Brazilian states of Matto Grosso and Rio Grande do Sul.

The measure states that this means of communication would be more economical than by the present land telegraph or cable systems. It suggests the possibility of wireless communication between Brazil and the countries on the west coast through the erection of stations in the interior.

CHINA BARS REDS AND KINGS

Neither Has Chance to Return, Says Dr. Philip Tsau of the Foreign Office.

Peking.—Neither Bolshevism nor monarchism has a chance in China, in the opinion of Dr. Philip Tsau, assistant undersecretary in the foreign office.

Doctor Tsau, who is a student of international law, refutes "erroneous reports and inspired statements of a damaging nature, which have been circulated recently, both in China and abroad, and which not only mislead public opinion, but have a serious reaction on trade."

Smiths and Cohens Lead in New York. New York.—In the 1,000,250 people listed in the New York city directory there are more than 8,000 Smiths and slightly more than 7,100 Cohens. The Browns, Johnsons and Joneses come next.

COIN WON'T BUY LOVE

Woman Turns Down Husband Who Deserted Her.

Prefers Work in Department Store to Life of Ease With Father of Her Children.

Chicago.—Mrs. Margaret Reeves, mother of 11 children, can leave her work in a loop department store and have servants and a thousand other things she has craved—if she wants them.

She doesn't want to. She's decided to keep plugging along at her grocery counter until she dies.

The reason for Mrs. Reeves' choice is that if she leaves her job for the ranch she will be compelled to live with her husband, James Reeves, who deserted her eight years ago.

Her children were small then, and Mr. and Mrs. Reeves were having a hard time of it, but Mrs. Reeves always managed, some way, somehow, until her husband slid out with every cent in the house—\$100 and a few cents.

Thereafter, Mrs. Reeves continued to manage, but not so well. She went to work. The children—those who were old enough—worked, too. Then one by one they died, until only four were left.

A week ago Reeves experienced a change of heart and wired Chief of Detectives Hughes that out in Pocatello, Idaho, where he had gone, he had been lucky. He said he had a ranch, all paid for, a lot of money and two kittens for the twins.

By the time Mrs. Reeves gets around to write her husband he will know the twins are dead. And he will tell him her love died with the twins and with the other five children who are gone.

But she will add, on second thought, that they are still in poverty, although happy without him, and some of the money he has been bragging about can be used.

MADE OF VEGETABLES

It would need the discerning eye of a flower lover to tell at first glance that the specimens pictured here are not flowers. They are samples of the wizardry of M. Leopold Leone, an Italian ex-soldier and chef, whose converting of potatoes, turnips and other vegetables into beautiful "flowers" is at present the talk of London. The flowers pictured here are samples of M. Leone's finished work.

WHISPERS; FINED IN WHISPER

Louis Judge Objects to Confidential Conversation of Speeder Defendant.

St. Louis.—Charles W. de Lary, a real estate dealer, appeared in police court to answer to a charge of speeding, and attempted to whisper to Judge Mix, but the judge whispered back at him in a staccato voice: "330 and costs."

A policeman had testified that De Lary was going 30 miles an hour. Then De Lary leaned forward and whispered something which Judge Mix could not understand. The judge's repeated requests that De Lary talk louder had no effect, and finally the judge asserted "there would be no whispering in his court" and assessed the fine.

De Lary explained later that he did not like to hurt the feelings of the policeman by contradicting him.

With \$26,000 in Bank, Man Lived in Poverty

William Girth, an inventor of New York city, suffered partial loss of memory in 1912, after placing \$26,000 in a savings bank. He had since lived in destitute circumstances until Ralph Kutz, an employee of the bank, located Girth. He asked the inventor if he was in need of money, and received the reply: "My God, yes; I am nearly starving."

SHELTER COVE HOMESTEAD TO be sold. I, the undersigned, will sell my homestead of 160 acres, part of it cleared and in grass, the other in small brush such as vine maple, bear berry, salmon berry and a few scattered alders, very easily cleared. Fern and logs very few. There is a house, barn, orchard and good meadow. Accommodate 12 or 15 head of cattle. There is also 10 or 12 tons of Chittum bark on the place. This place lies in a cove, surrounded by high mountains east north and west; facing the south; the warmest and most sheltered place in Tillamook County, so deserves the name of Shelter Cove. The land can't be beat, will grow anything; some of it as good as river bottom. Part of it can be irrigated from the creek that runs through the place, which supplies water all through the summer. If you are looking for a good and cheap place, here is a chance. For further information apply to owner on the place, Manuel Suarres, Beaver, Tillamook County, Oregon.
