FETE FOR NAPOLEON

United States Asked to Join in Great Celebration.

Foch at Head of French Committee Arranging for Observance of Death Anniversary.

New York.—American participation in the celebration by France of the hundredth anniversary of the death of Napoleon on May 5 next, was invited here by Prof. William Mulligan Sloane of Princeton, N. J., speaking for the French committee headed by Marshal Foch. A feature of the affair whose objects, it is stated, are "to bind up the wounds of France," will be a great exhibition of Napoleonic relics at Malmaison, France, to which collections will be loaned from all parts of the world.

Professor Sloane, who for 42 years held the chair of history at Princeton, and latterly at Columbia university, said that French statesmen, soldiers and men of law and letters as well as other professions compose the committee which is arranging the centennial.

"Making all allowance for every severe criticism of Napoleon's career," he continued, "it is still true that his work unified France, saved it from partition among its foes and in civil life prepared alike the foundation and structure of the society which in the World war saved France and helped to save all western civilization.

"It was by his impetus and guidance that the financial credit of France was restored, that the magistracy and administration took definite shape, that the civil code was promulgated, the Bank of France created, the University of France modeled on that of the state of New York and the council of state organized.

"He made private property safe, opened public charges, great and small, to all classes; founded schools, colleges and secondary schools, built magnificent highways, dug an elaborate system of internal waterways, improved transportation of every sort and, above all, reorganized in his institutions the commanding position of belles-lettres, the fine arts and natural science. The superb inheritance of order, progress and prosperity which he bequeathed made the France of 1914.

"The French committee especially desires American participation by contributions by the loan of Napoleonic from American collections and, above all, the moral support of intelligent interest on this side of the Atlantic."

MAKES CLOCK IN 25 YEARS

Workman of Delaware, O., Evolves Elaborate Hand-Carved Affair From Walnut.

Delaware, O.—After 25 years of tedious labor, C. C. Cregmille has completed his construction of a grandfather's clock here.

The clock, on display in a local store window, is hand carved. It was made out of solid black walnut which formerly constituted part of a pulpit in the old William Street Methodist church here.

All polishing, carving and fitting was done at odd moments by Mr. Cregmille.

Standing eight feet six inches high, the clock is beautifully carved on its sides and face panels. All cutting is original. No design was followed.

Mr. Cregmille, although offered good money for the unique masterpiece, has offered to sell it for a relatively small sum to the William Street church. The clock is built so that it will house cathedral tubular chimera.

LOWEST PRICES EVERY DAY INSTEAD OF "SPECIAL SALE" PRICES NOW AND THEN HAVE BUILT FOR THE J. C. PENNEY CO. A CHAIN OF 312 DEPARTMENT STORES WITH ANNUAL SALES OF NEARLY FIFTY MILLION DOLLARS.

COMPARE OUR RECONSTRUCTION PRICES WITH THE SO-CALLED "SALE" PRICES OFFERED BY OTHER STORES.

Do you want to trade with a store in which you can have confidence that the merchandise and prices are right every day in the year? Of course you do. That's just why it will pay you to become a steady customer of the J. C. Penney Co.

Eighteen years ago this organization started out with one small store doing an annual business of twenty-nine thousand dollars. From this modest beginning we have grown to a chain of 312 stores doing approximately FIFTY MILLION DOLLARS. During eighteen years we have never held a "special sale" of any kind in any of our stores. Our prices are marked right in the first place. This does away with the necessity for "sales." Our enormous purchasing power enables us to buy our merchandise for less money than our competitors. We eliminate middlemen's profits and pass them along to our patrons in better merchandise at lower prices.

Just now every item in our stores has been revised downward to meet our lower replacement costs. These prices are not temporary, but will remain in force until the goods are sold or market conditions necessitate a further revision. Compare our prices with those offered by other stores. This will quickly convince you that the J. C. Penney Company can save you money.

Twenty Years Ago

(From issue of February 7, 1901)
The last census gives Tillamook City a population of 834; Bay City 203; and Nehalem 59; the latter place dividing the honor of being the smallest incorporated city in Oregon with that of Waterloo with a like number in population.

At a meeting in Portland last Friday the stockholders of the Portland, Nehalem & Tillamook Railroad Company 20,017 of the 29,917 shares subscribed were represented and the following directors chosen: Colonel John McCracken, George T. Myers, H. L. Pittock, Wm. Pledner, H. C. Campbell, H. S. Rowe, John Stewart, C. F. Pearson and William Reid.

John Marshall day was fittingly observed in the public school of this city Monday.

into wards was introduced in the house the same as the petition called for though we have been unable to secure a copy of it.

Tillamook city should have a business men's club where those interested in the industrial development of the city can exchange ideas, and all work for a common purpose.

WHO GOES THERE?

The Boston Chamber of Commerce Warns the Public

I am more powerful than the combined armies of the world.
I have destroyed more men than all the wars of the world.
I am more deadly than bullets and I have wrecked more homes than the deadliest of siege guns.
I steal in the United States alone, over \$300,000,000 each year.
I spare no one, and I find my victims among the rich and poor; the young and old; the strong and weak. Widows and orphans know me.
I loom up to such proportions that I cast my shadow over every field of labor from the turning of the grindstone to the moving of every railroad train.
I massacre thousands upon thousands of wage-earners in a year.

I lurk in unseen places, and do most of my work silently.

You are warned against me, but you heed not. I am relentless! I am everywhere; in the home, on the streets, in the factory, at railroad crossings and on the sea.
I bring sickness, degradation, death. And yet few seek to avoid me. I destroy, crush, maim, take all, and give nothing.
I am your worst enemy.
I am CARELESSNESS
