

THIRTY YEARS AGO.

(From Headlight of Feb. 20, 1891)

Bay City—The machinery for the new sash and door factory arrived per the "Augusta" and now we will soon hear the hum of the planer and the matcher.

Garibaldi—The business at the Truckee Company's store is increasing so fast that the services of another clerk is required. The smiling countenance of Mr. A. McNair may be seen behind the counter in company with that of C. C. Babbige. Oretown—Last week Messrs. A. and L. Commons killed two panthers which their dogs had treed on the Dundas place. The oldest one was about 8 1/2 feet long; the other was half grown.

The Australian ballot system is now a law, the governor having signed the bill.

The appropriations for Trask river road and the Clatsop and Nehalem road passed the house, and have a

prospect for passing the senate, despite the opposition offered by some Tillamook people.

We visited the schools last Friday. G. A. Edmunds has over forty pupils and is doing good work. Mr. Hosmer's school is progressing nicely, over fifty pupils being in attendance. According to the Tribune of Bay City that place is to have an iron foundry and extensive milling enterprises will be established at an early date.

This office has been presented with a sack of fine eating apples but as Grant Mills requested us to say nothing about it we will not give the donor away.

The Tillamook incorporation bill has passed the house and will be concurred in by the senate this week.

TWENTY YEARS AGO.

(From Headlight of Feb. 14, 1901.) Governor Geer has vetoed the Barber Sunday closing law without his

signature, thus completing the proceedings necessary to make it a law. As it bears an emergency clause, it went into effect Monday, and will make barbering next Sunday a crime.

Several of the citizens had to pay \$ 2.50 to the city treasury for disregarding the bicycle ordinance. After a spell of bright weather the patter of Tillamook mist was heard again on Wednesday. We are a little surprised to find that Bay City is wanting to throw off her municipal robes now there is some prospect of securing a railroad. Representative Eddy has introduced a bill to repeal the act by which the town of Bay City was given a charter. The residents, finding city airs and honors burdensome after two years of experience, adopt the next best thing by applying to the legislature to smash the charter.

Did you like Lewis Sargent in "Huckleberry Finn"? See him again in "The Soul of Youth".—Gem Monday night. Hear Miss McDevitt on our new "Wurlitzer".

Outplayed and outclassed in every department of the game, Tillamook High went to defeat here Saturday on the auditorium floor, before the fast McMinnville High quintet by a score of 59 to 9. Tillamook scored merely through fouls. McCard was the scintillating star of the local team and the cheesemakers could not stop him from landing the ball in the baskets. Coach Dimick of Tillamook would walk around the floor in an endeavor to find a weak spot in the local aggregation's team work, but it was in vain. Tillamook proved to be one of the weakest teams that has played on the local floor this season.—McMinnville News Reporter.

Listen! Where is that "Wurlitzer"? At the Gem, of course! Let's go!

How Much Money Is Spent Advertising

ONE of the well-known officers of the Associated Advertising Clubs of the World estimates that the total amount of money spent in advertising in the United States in 1919 was one billion six hundred million dollars.

Looks like a lot of money, doesn't it?

Some folks, who haven't thought about it, might say that this more than a billion and a half is simply an added burden on the American buying public.

But hold on a minute. This amount was less than 5 per cent of the total volume of business done in the United States during that year. It is considerably less than half the amount it cost the business houses of the United States to send out salesmen to call on dealers during the year.

It is considerably less than the amount paid by retail merchants to the railroads for hauling their merchandise, and it didn't add a cent to the total cost of the merchandise sold in the United States during that year. Everybody agrees that salesmen are necessary to business. Everybody knows that we couldn't do business unless we had the railroads to haul our merchandise about for us. Of course, they have to be paid. But one thing that some of us overlook is the fact that this more than a billion and a half spent in advertising increased total sales of merchandise in the United States to such an extent that the actual retail sales price per unit of merchandise sold could be made smaller than it would have been without any advertising.

Of course, advertising makes people buy things that they wouldn't otherwise buy, but usually they really need these things and they can either live more comfortably or perform their work more efficiently because they buy this merchandise.

So this big advertising bill of the business houses of the United States is just as essential to the business machinery as lubricating oil is to an automobile.

You might save money in running your automobile by putting no oil in the crankcase, but you wouldn't have a car very long. Thus, in these modern days, you may think you are saving money by not advertising, but the other fellow who does advertise is getting the business, while you are saving your money. After a while he will have all the business and you won't have any money left to save.
