

698 DAIRIES IN TILLAMOOK CO.

13,590 DAIRY COWS OWNED IN THE COUNTY

Report of Dairy and Food Commissioner Contains Many Interesting Facts

Extrats from the report of D. R. Tinnerstet, deputy dairy and food commissioner for Tillamook County: In the county we have 29 cheese factories of which 25 are operated under the supervision of the Tillamook County Creamery Association.

The average score (as per score card) of these dairies is 63.4, the highest being 88.6 and the lowest 29.

Tillamook County has 13,590 dairy cows, of which 633 are pure-bred as follows: 296 Jerseys, 132 Holsteins, 98 Guernseys, 31 Red Polls and 26 Ayrshires.

There are 594 sires of which 398 are pure-bred as follows: 204 Jerseys, 102 Holsteins, 81 Guernseys, 5 Shorthorns, 4 Redd Poll and 2 Ayrshires.

In several localities two or more dairymen own a good pure-bred sire together; this makes possible the service of a good sire to the dairyman of moderate means.

2,069 heifer calves were raised in the past year, of which 240 are pure bred. This is a slight reduction in the calf crop in comparison with the previous year, due no doubt to the high cost of feed in the early part of last year and dairymen in general being overstocked, but they are carefully selected from dams and sires that have proven their value as dairy cattle.

Six lactometer tests were run but in no case did the tests show any adulteration with water.

84 per cent of all evenings' milk is being set in tanks of running water over night. A good cooling system is one of a dairyman's best investments and never fails to bring a smile from the cheese maker.

The advancement of the dairy industry depends not only upon improving the dairy herds so as to get the highest producing cows but also upon improvement of the methods employed in caring for the cows, barns, utensils and milk. A successful dairyman not only aims at increased production but at all times strives to improve the quality of the product.

The most effective and at the same time instructive test to the dairyman is the sediment test which shows to the patron without argument the exact amount of sediment or dirt in each pint of milk he is delivering to the factory and is in nearly every instance a fair sample or proof of the cleanliness and sanitary condition of the dairy from which it came.

Let us continue the slogan "All No. 1 Cheese for 1921."

Long Distance Call.

Tarzan Jones was sitting down to his breakfast one morning when he was astonished to see in the paper an announcement of his own death. He rang up friend Howard Smith and translation was made by commission at once. "Hallo, Smith!" he said. "Have you seen the announcement of my death in the paper?" "Yes," replied Smith. "Where are you speaking from?" —Exchange

In Ye Olden Time

Hoop skirts were worn by those who first asked the druggist for, and insisted on having the genuine Favorite Prescription put up by Doctor Pierce over fifty years ago. Dress has changed very much since then! But Dr. Pierce's medicines contain the same dependable ingredients. They are standard today just as they were fifty years ago and never contained alcohol.

Beauty depends upon health. Worry, sleepless nights, headaches, pains, disorders, irregularities and weakness of a distinctly feminine character in a short time bring the dull eye, the "crow's feet," the haggard look, drooping shoulders, and the faltering step. To retain the appearance of youth you must retain health. Instead of lotions, powders and paints, ask your druggist for Dr. Pierce's Favorite Prescription.

ADELIA M. STEWART

GERMANS MAY OFFER 150 BILLION MARKS

Berlin.—The ministry of finance has reached the conclusion that the utmost sum Germany can pay in reparations is 150,000,000,000 marks, including all she has paid so far in cash and goods, according to information which the Deutsche Zeitung says it has received from a "special" source.

This 150,000,000,000 marks would be paid off in thirty years under the plan outlined by the newspaper's informant, who also is quoted as declaring that the proposal would be submitted to the authorities at Paris to learn whether the coming London conference on reparations will permit of its consideration along with the allied proposals adopted at the recent Paris conference.

Refusal to allow consideration of the German counter-proposal would result in Germany absenting herself from the London conference, set for March 1, the newspaper declares it has learned.

BRIEF GENERAL NEWS

A salary increase of \$3000 a year—from \$12,000 to \$15,000—was voted for Vice-President Coolidge by the senate.

An attempt was made to shoot Chas. M. Fleckert of San Francisco, who prosecuted Tom Mooney, noted labor leader.

Uncle Sam has, as assets, \$2,313,129, 373.77 in gold coin and bullion, and in order to store it safely treasury officials are asking congress for a new vault.

Federal Judge Landis of Chicago, was within the law when he accepted the office of supreme baseball arbitrator while still serving on the bench, Attorney General Palmer states.

The quadrennial tidal wave of office seekers and advice givers that always engulfs a president-elect on the eve of his inauguration is rising steadily about Warren G. Harding's headquarters at St. Augustine, Fla.

Confirmation of statements of Austine Chamberlain, British chancellor of the exchequer, to the effect that Great Britain had suggested to the United States cancellation of all allied war debts, was given by the senate foreign relations committee by Secretary of the Treasury Houston.

MERRY SEX WAR ON

Bureau of Engraving and Printing in Throes of Controversy.

Plate Printers' Union Charges That There Are Too Many "Trifling Girls" in the Bureau.

Washington.—A merry sex war is in progress in Uncle Sam's money factory.

The war started when the Plate Printers' union in the bureau of engraving and printing made formal charges that there were too many "trifling girls" in the bureau and that they were retarding the efficiency and the amount of production of paper money. In their charges the plate printers intimated that too much time was spent by girls employed in the bureau in administering "little dabs of paint and powder." In fact it was intimated that the plate printers objected to "flappers" being employed in the bureau.

The plate printers let themselves in for trouble. Federal Employees' Union No. 105, embracing the women employees of the bureau, at an indignation meeting, condemned the attitude of the plate printers, denied their charges and deplored their giving publicity to what they alleged to be a misstatement of facts.

Miss Gertrude McNally, secretary of the union, declared that the records of the examining division showed that the greatest percentage of spoilage of printers' work is for "stypewipes," "lifts" and "breaks," which spoilage could in no way be attributed to the assistants.

"Plate printers are paid by the piece rate and in many instances the presses are speeded up for production at the expense of the quality

His funniest comedy yet.
Owing to the length of this bill, the evening show starts at 6:30 P.M.

Do you know what the devil's passkey is? Can it be bought? Who uses it? You'll know when you see this amazing photodrama of an American husband and wife in Paris—one day on the very crest of the social wave, the next day, the storm centre of the biggest scandal Paris ever knew. A picture so real, so human, so crowded with suspense that you'll remember it all your days. Now playing. Don't miss it

FRIDAY, MARCH 11---

THE GIRL FROM NOWHERE

As Exhilarating as the virile mountain air of the Great Northwest is this play. It is a real out door feature as swift as a mountain torrent and wild as a raging cataract.

It is the 4th of our super specials for Friday.

TUESDAY, MARCH 8---

Lyons & Moran

In "ONCE A PLUMBER" is better than "La La Lucette." It's a scream.

PRIZES FREE.

Electric percolator and 4 others.

American Legion Notes

On February 25th, the "flying squadron" left Portland on the first lap of its trip through the state to clean up claims of ex-service men. Following are members of the squadron: Frank J. Elvers, service officer of the Legion for the department of Oregon; Dr. F. W. White, U. S. public health service, Seattle; Kenneth L. Cooper, federal board, Portland; Cliff Wood, bureau of war risk insurance, Portland; Major Sloan, U. S. A., with field clerk. Only one day is being devoted to each town in which a Legion roset is located. The first trip includes the Willamette Valley and southern Oregon, including Klamath Falls. The second trip, which will commence about March 8th, will cover eastern Oregon towns. Tillamook will probably not be reached until the middle of March. It is the purpose of the squadron to get in personal touch with ex-service men throughout the State in order to adjust all claims in connection with their service in the recent War and to take applications for Victory medals. This service is for all former service men.

War risk insurance policies carry all of the features which insurance agents of this day like to talk about. They are free from restrictions as to travel or occupation, provide that policies become payable if the insured becomes permanently disabled, carry dividends, have cash and surrender values, extended insurance and policy loans. No private company writes insurance that is more liberal and no other is as cheap. Besides, all income derived from government policies is exempt from creditors and taxes.

Grover Cleveland Bergdoll, notorious draft dodger, is quoted as saying that he expects to be pardoned. When that happens, it will be time for the American Legion to enter politics.

"Cable dispatches announce that the city of Frankfurt-on-the-Main has just awarded a bonus of fifty marks to each veteran of the War of 1870-71 whose income does not exceed 3,000 marks. At the present rate of exchange, this "adjusted compensation" is equivalent to about seventy-five cents. "Let's see. It took just fifty years for the seventy-five cents to overtake the Frankfurt veterans. And this is 1921!" The American Legion Weekly.

The following bulletin has been received from National headquarters:

The Gasoline of Quality

Red Crown gasoline has well earned the right to be called "The Gasoline of Quality."

Its continuous chain of boiling points insures all of the qualities of a good motor fuel—readystarting, rapid acceleration, and maximum power.

You can get Red Crown gasoline wherever you see the "Red Crown" sign. Look for it on garages and service stations.

We learn at School to love our country. The School is the foundation of a nation. It is to the nation, in peace what the barracks are in war. In it is developed the nation's character. With these things in mind, The American Legion, in its Americanism program, is seeking to raise the standard of education and to improve the condition of teacher student and school.

If we are to succeed in the work to which we are pledged, we must co-operate with our teachers, with teachers' organizations and with Boards of Education. The teachers of America welcome our co-operation. They understand the spirit of sacrifice for no group of people have served this country more unselfishly, none have been so little compensated and none have been so little recognized.

While money is the least compensation which draws men and women to the great teaching profession, yet without a salary in keeping with the dignity and responsibilities of the profession, its dignity will decline. It will become an irresponsible profession and America will have lost its mightiest champion.

The nation has thus far ignored our educators. Let us awaken all the people to this truth. Education in America is in a sad condition. Statistics to prove this truth are overwhelming. The teachers are doing their part to correct this condition.

Let us join hands with them. Let us get every loyal American behind them. Let us get every state and the nation to help. Without this effort our country cannot go on.

Every Acre Reclaimed is a permanent investment paying profits every year

It costs something in both time and money to clear cut-over land, but you only spend it one year—once for each acre. One fair crop will pay for the work and usually show a profit besides. Then, free from stumps, that land will pay profits every single year. Results in this state have shown conclusively that

STUMPING POWDERS Du Pont and Repauno Brands

are ideal for this work—quick, effective, economical. Therefore they are used by a majority of farmers.

Clear more land in 1921
1920 was one of the biggest land-clearing years this state has ever known. The farmers all over this district are planning for even greater accomplishments in 1921. Join the movement and reap the benefits.

See our local dealer regarding Du Pont Explosives for spring delivery. Write for "Development of Logged-off Lands." It's valuable—and free.
