

F. W. CHRISTENSEN'S ANNUAL REPORT TO THE CREAMERY ASSOCIATION

Cheese Inspector's Statement For Year Ending December 31, 1920, Shows Marked Improvement Over 1919

Following is my report of cheese inspected for the year ending December 31st, 1920:

	Seconds	Trips	Y.A.'s	H.	Trips	Twins	Y.A.'s	Tilla-	Horns
The Tillamook	---	---	---	---	32983	---	---	---	2916
Maple Leaf	111	---	---	---	28425	---	491	---	5049
Holstein	119	1	140	---	18614	40	927	8	6983
South Prairie	161	---	12	---	17392	---	---	---	2217
Red Clover	42	---	---	---	12454	---	741	---	2314
Mohler Cry	347	192	---	---	15579	---	8479	---	---
Fairview	---	---	---	---	7939	---	1409	---	5645
Three Rivers	21	---	---	---	10933	---	2376	---	2431
Cloverdale	53	17	11	---	10846	---	2960	---	537
Long Prairie	26	---	---	---	9581	---	2960	---	537
Oretown	68	23	8	---	8700	---	1306	---	729
Central	76	---	---	---	6598	---	---	---	---
Cold Springs	76	---	---	---	8205	---	---	---	---
Clover Leaf	445	63	12	---	6787	---	756	---	24
Beaver Cry	332	---	---	---	5729	---	1054	---	1
Meda Cry	155	---	---	---	5944	---	---	---	196
Elwood Cry	6	Dam'd	---	---	5753	---	2848	---	---
East Beaver	19	12	---	---	3997	---	2601	---	---
Pleasant Valley	---	---	---	---	4412	---	3424	---	---
Miami Valley	35	---	---	---	4479	---	336	---	---
Neakowin	46	---	---	---	4287	---	1661	---	---
Alder Vale	289	---	---	---	3976	---	381	---	---
Upper Nestucca	47	---	---	---	2903	---	6	---	---
Sand Lake	---	---	---	---	2129	---	138	---	---
	2444	308	182	---	237646	40	31885	8	32099

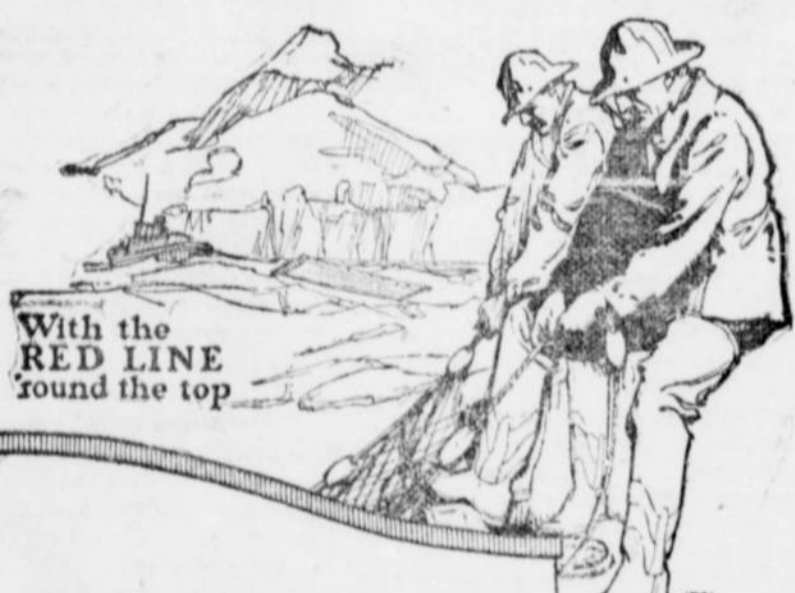

While this report shows 2444 Triplet, 308 Y.A.'s and 182 Horns as seconds, I am glad to report that this is approximately 1000 less triplets than for the previous year, and 5000 less than was made in the year 1918, and is .0997 per cent of the total cheese made.

I appreciate the hearty support of the Cheese Makers' Assn. in making this fine showing possible, which is not just luck but requires skill and lots of energy and good judgment on their part.

Following is a list of seconds as made by months:

January	49	1	23
February	---	---	---
March	91	---	---
April	114	---	19
May	198	---	12
June	228	45	---
July	791	36	112
August	361	186	12
September	155	17	---
October	209	23	---
November	79	---	---
December	178	---	---
	2444	308	182

The above will show that one third of the seconds were made in the month of July, and I call your attention to that fact on account of some dairymen neglecting their cans and milking machines during the rush of haying season. While the makers are instructed to reject this milk, yet some gets by and causes trouble. With the goodwill that has been gained for Tillamook cheese through years of honest effort and owing to the fact that the trade is willing to pay a wide margin in recognition of that quality, it becomes almost criminal for a dairyman to produce milk, not of the highest standard. While we have ideal climatic conditions in Tillamook for producing the best milk in the world it will not avail us of anything if we do not take advantage of it. Our fine Westerly breezes will not assure you of good milk if it is left in the barn, neither will our splendid cold water cool milk with out it is placed in it. Cheese to carry "Tillamook on the rind" with credit, should be made from milk equal to the best market milk, and it is never better than the day it is produced.

With the RED LINE 'round the top

More fishermen are wearing Goodrich Rubber Boots today than ever before.

The reason for this tremendous increase in users is simple—Goodrich wears longer than other boots, and fishermen have found it out. Naturally, when a man buys a pair of Goodrich "Hi-Press" and they last so much longer and are so much more comfortable, and so materially cut down that big foot-wear bill—he's going to tell his friends.

More and more fishermen are finding out that Goodrich won't leak, peel or come apart—it can't, for it is made in One Solid Piece—that's the Goodrich way.

Look for the Red Line 'round the top when you buy. 60,000 dealers are now selling Goodrich.

Guy F. Allen, recently named by President Wilson treasurer of the United States to succeed John Burke.

RAILWAYS REFUSE LABOR PROPOSALS

Chicago.—The Association of Railway Executives, at its meeting, unanimously adopted the report of its labor committee and resolutions refusing to enter into national conferences suggested by the employees as a means of settling differences over wages of unskilled labor and working conditions.

The committee report pointed out that the opposition made by the roads to the national agreements and the position taken was not to be construed as an attack on labor organizations themselves.

ARGENTINA REFUSES ALLIES

Buenos Aires.—Argentina has refused the request of the allies that she take measures to prevent German exportation of war materials to Argentina in violation of the treaty of Versailles. The government takes the ground that Argentina is not concerned in the stipulation of a treaty between other nations.

The fact that such a request had been made by the allies was disclosed with publication by the foreign office of an exchange of notes between the foreign office and the Italian minister to Argentina, Victor Cobianchi, as head of the diplomatic representatives of France, Japan, England and Italy.

Chamberlain Assured Place on Board

Washington.—Information brought to Washington by Republicans who have been in conference with President-elect Harding is to the effect that scarcely any consideration has been given to the appointment of new members of the shipping board, except in the case of Senator Chamberlain of Oregon, who will be offered a place on the board.

THE MARKETS

Portland.
Wheat—Hard white, soft white, and white club, \$1.53; hard winter and northern spring, \$1.40; red Walla, \$1.37.
Oats—No. 2 white feed, \$34.

Hay—Willamette valley timothy, \$27 @28 per ton; alfalfa, \$19.
Butter Fat—\$1@55c.
Eggs—Ranch, 27@29c.
Cattle—Best steers, \$7.50@8.50; good to choice, \$6.75@7.50; medium to good, \$6@6.75.
Sheep—East of mountain lambs, \$7.50@8; Willamette valley lambs, \$8.50@7.
Hogs—Prime mixed \$10.50@11; smooth heavy, \$10@10.50.
Seattle.
Wheat—Hard white, \$1.55; soft white, \$1.54; white club, \$1.52; hard red winter, soft red winter, northern spring and Eastern red Walla, \$1.46; big head bluestem, \$1.62.
Hay—Eastern Washington mixed, \$34 per ton, alfalfa, \$27.
Butter Fat—\$1@56c.
Eggs—Ranch, 30@32c.
Hogs—Prime, \$10.75@11.25; smooth heavy, \$9.75@10.75.
Cattle—Prime steers, \$8.25@8.75; medium to choice, \$7.25@7.50.

Banks To Help

Klamath county banks have agreed to finance customers who desire to buy registered stock at the second annual sale of the Klamath county farm bureau, according to E. H. Thomas, county agricultural agent. The banks will make six months' loans at 6 per cent yearly interest rate. The sale will be held about the middle of March.—Oregon Farmer.

POWER ASSOCIATION EXECUTIVES NAMED

Both Oregon and Washington Represented on Umatilla Rapids Project.

Walla Walla, Wash.—The executive committee of the Umatilla Rapids Power association, which has for its purpose the development of power on the Columbia river at Umatilla Rapids, was announced at a meeting here, as follows:

Washington—Dr. S. B. L. Penrose and Ben Stone of Walla Walla, D. V. Cox of Pasco, M. M. Moulton of Kennewick, R. S. Boynes of Seattle, ex-Governor M. E. Hay of Spokane and W. M. Warner of Alderdale.
Oregon—Ralph Stanfield of Echo, F. B. Sweazy of Hermiston, D. C. Brownell of Umatilla, George Hartman of Pendleton, Whitney L. Boise of Portland, J. M. Kyle of Stanfield and F. A. McMannon of Heppner. One Portland man is yet to be named.

Enthusiastic approval of the Umatilla rapids power project was given by members of the state legislature, railroad representatives, business men of Oregon and Washington, city officials of towns in this district and others.

The total estimated cost of the power project, including dam, equipment, etc., is \$25,000,000.

One hundred and ten thousand acres of land may be watered through the use of pumps directly connected by turbines.

Five hundred and fifty-eight thousand acres of arid land are susceptible of reclamation by pumping in the vicinity of the project.

The project would develop 120,000 continuous horsepower, with 200,000 additional horsepower during the irrigation season.

THIRTEEN KILLED IN IRISH FIGHTING

Cork.—Thirteen civilians were killed and eight captured, of whom three were injured, in an engagement between Liscoed and Middleton, Cork county, according to a general headquarters report. This was believed to be the largest number of casualties among members of the Irish republican army in any single encounter.

Two soldiers were wounded in the desperate running fight between a detachment of the Hampshire regiment and a large party of republicans.

The troops came upon the republican forces preparing an ambush and attacked them.

Nine members of the Cork corporation and other leading men of South Ireland were among 50 persons sent to the Spike Island internment camp as political prisoners.

GRAIN AGENCY IS PLANNED

Proposed Market Organization Would Be Co-operative.

Kansas City, Mo.—The farmers' grain marketing committee of 17, appointed by the American Farm Bureau Federation to devise cheaper marketing methods, announced it had voted to recommend formation of a non-stock, non-profit corporation to be known as the national sales agency which would handle the marketing of grain after it leaves the producer.

The organization would be co-operative, with growers of grain taking membership. They would then effect an agreement with local co-operative elevators or a local grain growers' association to deliver the grain either on the basis of a sales contract or a pooling contract.

The local elevator or grain growers' association then would contract with the national sales agency to handle the grain.

Enemy Act Bill Passes Congress

Washington, D. C.—The house passed the senate bill amending the trading with the enemy act to permit American wives of citizens of Germany and Austria-Hungary to recover property confiscated by the government provided they were married and in possession of the property before the United States entered the war.

British Commons Backs Indemnity

London.—The house of commons defeated the amendment to the reply to the speech from the throne censuring the government's policy with regard to the treaty of Versailles. The vote was 181 to 40. Premier Lloyd George in the house of commons declared that he stood by his pledge that Germany must pay to the limit of her capacity.

More Freight Cars Idle

Washington, D. C.—A freight car surplus is piling up at the rate of 25,000 a week, according to the American Railway association. Already 358,065 cars are reported idle as against a shortage of 150,000 freight cars November 1, the announcement said.

Dairymen Believe in Hogs

Tillamook dairymen do not all confine themselves to the care and development of the cow. Joe Donaldson of Tillamook, Ore., who now has quite a herd of registered Jerseys, has been breeding registered Chester White swine probably longer than he has purebred cattle.—Oregon Farmer.

Headlight Classified Ads—small cost, big results.

DOCTOR DOWELL

Dr. Norah E. Dowell, who has been appointed assistant geologist in the United States geological survey.

HUGHES NAMED NEW SECRETARY OF STATE

St. Augustine.—Charles E. Hughes, formerly supreme court justice and republican nominee for the presidency, was designated by President-elect Harding as the new secretary of state. The announcement embodying the first official word from the president-elect regarding selections for his cabinet was made in an oral statement after a long conference with Mr. Hughes on foreign problems.

There was no element of surprise in the selection, for it had been known several weeks that Mr. Hughes was almost certain to get the place. He is understood to have been Mr. Harding's choice from the first.

Mr. Harding declined to go into details about the subjects discussed with Mr. Hughes, saying that one of the policies of his administration would be to let each department head speak for himself. Mr. Hughes declared no public statement on the problems ahead would be expedient at present.

BRIEF GENERAL NEWS

A bachelor's tax was proposed in a resolution introduced in the Wisconsin legislature.

F. O. Lowden of Illinois has sent word to President-elect Harding that he could not permit himself to be considered longer for secretary of the navy.

Decline of 3 per cent in retail food prices in January as compared with December was reported by the bureau of labor statistics of the department of labor.

Loaded with more than a score of amendments, the Fordney emergency tariff bill passed the senate. The vote was 43 to 39 and the measure was immediately sent to conference.

The house of the Nebraska legislature passed the bill which would deprive aliens ineligible to citizenship from owning land in Nebraska. The vote was 69 to 29. The bill now goes to the senate.

Substantial reductions in transcontinental rail rates to enable western products to move to the eastern markets were recommended to the railroads and to the interstate commerce commission by the public service commissions of Oregon, Washington and Idaho, meeting in joint session in the Portland office of the Oregon public service commission.

Egyptian Self Rule Asked of Britain

London.—Negotiations with the Egyptian government for the conclusion of a treaty according self-government to Egypt was strongly advised in a long-awaited report on the Egyptian question, presented to parliament by Lord Milner, ex-colonial secretary. The negotiations should be entered upon by the British government without undue delay, Lord Milner declared.

Vice President Gets No Increase

Washington.—The vice-president and speaker of the house are not to receive salary increases. Senate amendments to the legislative appropriation bill to increase their salaries from \$12,000 to \$15,000 have been stricken from the bill by the conferees.

Would Change Idaho Primary Law

Boise, Idaho.—Idaho's latest election law, introduced in the senate by the committee on privileges and elections, absolutely cuts out the separate party primary elections and provides for the holding of but one election and the payment of judges of said election.

FINDS GROOM IS BELOW PAR

Swiss Father Sues Detective Bureau for False Recommendation of Daughter's Suitor.

Geneva.—M. Wader, a wealthy resident of Bienna, Switzerland, has just sued a detective agency for wrongly recommending a man as husband for his daughter and has obtained a verdict of 140 pounds, with costs, against the agency.

The prospective father-in-law engaged the agency at a cost of 500 pounds to investigate the reputation and habits of the young man who had asked for the hand of his daughter. The detectives reported that the youth was worthy, reliable and sober. After six months of wedded life, the bride returned to her father's house.

Did you ever stop to think where prosperity starts? It begins on the farms and in factories and other places where people are employed. It has no ending, for everyone shares in the benefits.

When you buy Oregon-made products you promote prosperity for others—and make your own "nationalized" bank account at the First grow that much bigger.

PAIGE

If you stepped into a New Series 5-passenger Paige Glenbrook without knowing its make or price and experienced its power, speed and general excellence in actual performance, we would be willing to make this prophecy:

After a single demonstration of its capabilities you would price the Glenbrook at five hundred dollars more than it costs.

That is because there are no existing standards by which the New Series Glenbrook can be compared. It has established its own standards.

There is only one way to prove such strong statements—to ride in the car.

Get Paige "6-40" Five Passenger Tourer, Car \$1250 (in A. Detroit).
Airflow "6-40" Six Passenger Sport model \$1015 (in A. Detroit).
Lenox "6-40" Six Passenger Tourer \$1200 (in A. Detroit).
Coupe "6-40" Five Passenger \$1000 (in A. Detroit).
Beak "6-40" Five Passenger \$875 (in A. Detroit).

All models will be available at Automobile Shows throughout the country.
