GO SLOW.

At the meeting at the court house last Wednesday night a sentiment was displayed that bordered close on the Soviet. Advocating the overthrow of the government is a dangerous pastime in these days of unrest and conservative business men will think long and carefully before they lend their support to such a movement.

It may be that the people of Oregon are burdened with a top-heavy array of commissions but these bodies are doing a certain amount of essential work and if they are discontinued something else must take their places. The idea of abolishing all commissions in a single sweep would be disastrous, to say the least, and the outcome would be the destruction of any morale we have left.

It is hard to say just where the movement started in Tillamook county though doubtless it partly originated from a few personal grievances. In any case it is beginning to follow the plan of the Non-Partisan League a vicious movement that has already engulfed some of the states of the middle west, causing the failure of several banks and disrupting business generally in those sections. The Non-Partisan League movement is striving to gain a hold in the Willamette valley and from appearances its emissaries have been at work in our county. Credence has been given it by several disgruntled taxpayers and thus the movement has spread.

As for the high taxes, nobody controls them but the taxpayers themselves. We clamor for improvements and then kick about paying for them. We spend money lavishly and blame the state government for it. The movement started Wednesday night should be squelched until such time that we have a substantial organization to take over the affairs that are now being handled by the commissions we are seeking to abolish, and as for the Non-Partisan League movement, a little study of this subject will convince any sound minded person of the inadvisability of giving it one atom of support.

OREGON DAIRYMEN'S LEAGUE

In an article headed "Oregon Dairymen's By-Products Corporation" in last, there appears several columns of praise for the work of the Oregon Dairymen's League in behalf of its patrons.

A statement of their July, 1920, "pool" shows that in Coos and Curry counties the farmers were paid an average of \$1.869 per hundred for their milk, while the total gross receipts were \$2,315 per hundred pounds of milk. Compare this with Tillamook county prices.

Take Maple Leaf creamery for an example: In July 1920 the Maple Leaf cheese sold for \$29,056.19; the factory received \$59,195 pounds of milk and the farmers were paid \$25, 186.99 for butterfat. Gross receipts were \$3.38 per hundred and the patrons received an average of \$2.93 per hundred pounds for their milk, which is \$1.05 per hundred more than received in Coos and Curry that month. If the Maple Leaf patrons had received the same as Coos and Curry county farmers for their milk it would have meant a total of \$17,058.35, or \$9,148.64 less than they were actually paid. Surely the Oregon Dairymen's League is a wonderful organization.

This league is also attempting to "steal" Tillamook's method of branding its product. The league people have a cute little name, "Melowest".

for their cheese and butter and they propose to print this name on the rind of the cheese in the same manner that "Tillamook" is printed on our product. This method of branding cheese is distinctly Tillamook's own and an effort is now being made to get it patented.

A LOCAL OPPORTUNITY

The question of a site for the proposed fruit cannery will come up for discussion at the meeting tomorrow evening at the city hall. The City Council has offered to give the old gravel pit, which consists of one block, with this proviso: That the pavement in front of the property amounting to about \$1,500, is to be paid for. On top of this would be the expense of putting in a railroad switch, which would be quite costly, and for that reason it is thought that a more desirable site should be obtained. Considering the importance of the industry and the benefit it will be to the city, the city could well afford to forego the cost of the pavement to obtain the fruit cannery. Other places in the county are offering free sites for factories, and Tillamook City will never get new pay rolls if something is not done to encourage people to locate in the city. At the present time there are a large number of persons who are contemplating the planting of loganberries, and with the assurance that a fruit cannery will be erected here it would stimulate the planting of more berries. One person who is interested in planting loganberries said that if it is decided to build the cannery the acreage would double itself. For that reason the business men should attend the meeting tomorrow (Friday) evening and not allow this industry to slip through our hands and go elsewhere. Another thing, the old gravel pit is a useless, unsightly place, and with a large fruit cannery built there, it would be a great improvement to the city, and would be taxable property as well.

A NOTABLE EXAMPLE

It must be disconcerting to the enemies of our American form of government to contemplate the life history of President Harding.

As the son of a minister of moderate means he lived the life of the average American boy and young man. The wholesome home influences surrounding him in early life undoubtedly laid the foundation for the strong character later developed, but it was pretty much the same influence which surrounds the average American family.

Equipped with no more education than is freely offered to every young American, he started his career with neither "pull" nor wealth to ease the path to success. He succeeded in business, not brilliantly, but as the average man, who sets himself resolutely and wholeheartedly to his task, succeeds. The president typifies the average American citizen of today, and refutes the assertion often made by radical agitators and shallow observers, that the average man has no chance today under our form of government.

His life offers inspiration to the young man, and assurance to all that America is still America.

CORRECTION

In the February 24th issue of the Headlight under the annual report of the Tillamook County Creamery association in the list of expenditures, the item of advertising was put down as \$47,128.42. This should have been \$24,280.21. The amount spent for telephone and telegraph was published as \$1949.65 while it should have been \$452.59.

Much agitation has been raised over the increase in rates granted the Pacific States Telephone company. Tillamook people are not so greatly effected by this raise as they are by having to support two systems. This is a rank imposition and a concerted effort should be made to compel them to consolidate.

It seems that people are still holding off buying, hoping for a further

decrease in prices. Their hopes may come to naught for many commodities have reached the bottom and are going up again. In any event it isn't probable that they will go much lower.

No marriage licenses issued since the last of January! That little god named Cupid will come in for some kind of a movement against him if he doesn't get busy. Tillamook people are after all useless office holders.

Editor Nunn of the Wheeler Reporter is the proud daddy of a fine son which arrived at his home on Tuesday of last week. Congratulations.

Notice of Hearing of Objections to Apportionment for Street Improvement

Notice is hereby given to all whom it may concern, that the Common Council has apportioned the cost of improving that portion of Miller Avenue from the south side of First Street, south to the City Limits in Tillamook City, Oregon, upon each tract, lot or part thereof liable therefor which is contained within Local Improvement District No. 18; that the said apportionment is now on file and may be seen by anyone interested, in the office of the City Recorder of Tillamook City, Oregon, and that the Common Council has appointed Monday, March 21, 1921, at the hour of 8 o'clock P. HAVE UNIQUE RECORD

Iowa Pioneers Live 75 Years in Same Spot. Couple Married Three-Quarters of a Century Bought Their Farm for \$160 in 1845.

Mount Zion, Ia.—Seventy-five years ago Daniel Reneker brought Mary, his bride of a few days, to Iowa from Ohio. Today they still are living on the original homestead they established in the "wild West" in 1845. Reneker will be ninety years of age February 24, and his wife is ninety-seven. Their marriage record and the number of years spent on the same homestead probably can be equaled by few couples.

The couple attribute their long years of life to the fact that they are God-fearing and believe in simple life and simple joys.

Mr. and Mrs. Reneker's married life of 75 years, in the eyes of modern-day folks, contains few thrills. It has been mostly hard work.

Reneker, when a young man, left his home in Ohio to go West to see the country. He returned in a short time to get his Mary. Their honeymoon was spent floating down the Ohio river to the Mississippi on a small boat. On landing at the Mississippi the couple headed north for the cabin Reneker had previously erected in the forest wilderness of Iowa, near the present site of Mount Zion. There they went and there they are today.

The early years were spent in clearing the 130 acres of timber Reneker had purchased at \$1 an acre. Supplies were brought from a trading post 45 miles away. Ground on their tract was broken with the aid of axes.

Five children were born to the Renekers. Four of them still survive. All are boys. The eldest is Jacob, aged seventy-two, and the youngest is Dr. George W. Reneker, aged fifty-two. The other two "boys" are John and Delmar Reneker. With the exception of Dr. George, all the sons remained near the old homestead. Dr. George Reneker left home at the age of twenty. Today he is a resident of Falls City, Neb., and is the state representative from the First Nebraska District.

The present home of the Renekers was built in 1858 near the site of the original log cabin.

The couple have taken few trips away from their home. They have made several trips to Falls City, Neb., to visit their "boy," Dr. George, and once went back to visit childhood scenes in Ohio.
