We are intensely proud of the fact that our "Daytona 6-66" model broke the world's stock car record for speed. But speed we consider a mere by-product.

What we wanted to establish was enduring strength and stamina. We knew that any car strong enough to win a world's championship would be strong enough for all amateur demands—in years of service.

And now, we say, test the 6-66 for yourself. Test it in comparison with any other car—at any price—and draw your own impartial conclusions.

Our dealer is ready to give you a demonstration.

## SPRING WEIRD IDEAS

### "Inventors" Relieve Monotony for British Commission.

#### One Would Freeze the Clouds So Guns Could Be Mounted on Them to Repel Air Attacks.

London.—The report recently issued by the royal commission on awards to inventors calls to mind both the new powerful engines of destruction the war brought into being, and also the many weird and impracticable ideas advanced by "inventors" who had evolved curious plans for winning the war. A one-time member of the war inventions department of the ministry of munitions told of one man who sent in an invention which he said could freeze clouds so that guns could be mounted on them for firing at aircraft and bombing enemy lines. He was kindly but firmly led to the door, but before he left managed to explain a scheme he had for suspending heavy guns from captive balloons. One inventor wished to project heat waves against airplanes and so destroy them. Part of his plan was to set up electric fields that would paralyze the magnetos of enemy airplanes when they attempted an attack. None of these enthusiasts seemed to realize the limitations of their suggestions. A man planned to attach searchlights to anti-aircraft guns, and so fire along the beam of light. He neglected the fact that the path of a shell and the path of a ray of light are somewhat different.

Among other weird inventions was one for throwing live wire cables against the enemy, using rockets to get the cables across No. Man's Land. It was suggested that a tunnel be built all the way into Germany, and also that trained cormorants be sent to pick the mortar out of the chimneys of the Krupp factories at Essen.

## LEPROSY OIL CURE SUCCESS

### Need for Mission Near Honolulu Decreases—To Abandon It in Few Years.

Honolulu, T. H.—The Catholic leper mission on the island of Molokai, where Father Damien passed the greater part of his life and eventually died of the disease, and where Brother Dutton and others of his faith now are at work, probably will be abandoned in the course of a few years, owing to the great success of the chaulmoogra oil treatment of the lepers, according to a statement by Brother Louis Lelou, who for twenty-two years has been stationed at the leper mission. Five years ago the mission at Kalaupapa, island of Molokai, had from 125 to 130 inmates, while today it has but 63, Brother Louis said. Virtually no new cases have been received during the last few years.

The mission, which was established in the sixties and in which the Catholic priests shortly after took up their work, is supported by appropriations from both the territorial and federal governments. All leper work on the island, including that of the mission, is directly under the supervision of the territorial board of health.

## Labor of 200,000 Men Support Rat Population

Washington.—It keeps 200,000 men working full time to support the nation's rat population. That assertion is made by the biological survey bureau in figures issued showing that there are as many "common brown rats" as humans in the United States, and each of the 100,000,000 or more destroy \$2 worth of foodstuffs a year.

They also maintain an efficient transportation system for "black death" and other plague germs, the bureau adds in urging a starve and slay campaign to check "a real hazard against American lives and property."

## ABANDONED FARMS FOR IDLE

### Pennsylvania Trying to Put Men Back on Land Left Idle During War Rush.

Pittsburgh, Pa.—Scores of farms in Allegheny county, abandoned in the rush from rural districts to industrial centers during the war, are being used by the farm bureau here in an effort to solve the unemployed and housing problems.

The bureau has advertised for married men who are willing to work as tenant farmers. Such men who qualify will be placed in charge of the abandoned farms, officials of the bureau say.

## Mexican Bandits Killed American.

Washington.—Gunsight wounds inflicted by Mexican revolutionists headed by the Arrieta brothers caused the death of R. B. Case, an American citizen, at the Pilonas mines in the state of Durango, the state department at Washington has been advised.

## Bill Would Ban Meat Eating Friday.

Salt Lake City.—A measure to prevent the eating of meat in public places on Friday and also the selling of meat for possible consumption on Friday has been introduced in the Utah legislature by Representative James Ivers, Jr.
