LET US BUILD A CITY HERE

# "BUY IT IN TILLAMOOK"

The business men of Tillamook have invested many thousands of dollars in stocks of goods and service plants so that your wants may be satisfied quickly and conveniently. They stand back of their representations. They contribute both time and money to the various civic activities which combine so make this city a good place to live. There are no good reasons why anyone should send their money away, and below are a number of good reasons why they should not.

## The Sun Has at Last Begun to Shine in Tillamook

and you are going to want your car.

What kind of shape is it in?

Do your brakes need re-lining?

Is your motor running properly?

Is your battery in good condition?

Does that front end need re-bushing?

Is your starting motor and generator working as they should?

We have one of the most complete Auto Repairing Shops on the Coast --- Letson Brothers in charge.

All work positively guaranteed.

We are here to give you SERVICE.

### Sunset Garage.

- FEED---
- POULTRY SUPPLIES---
- SEED.

## The Mail Order Houses

have built up a large business selling goods by catalogue, getting the cash in advance and their customers paying transportation charges. Seldom do they stop to think that the freight cost makes these goods cost just that much more than the catalogue list.

And generally the same people who send their money in advance to the mail order house ask their local dealer to wait from 30 to 90 days for his money. Then if they should get too many jars or other goods on hand take them back to their local dealer, after the season for that class of goods is over, expecting to get back their money, which the local dealer does with a smile.

When taxes come due, and interest must be paid, how handy to drop in the local store and stand your account off for another 30 days to save borrowing money to make more interest.

Let the merchant do the borrowing, and if he goes broke, as 90 per cent of merchants do, someone else will step in his shoes and try the same game.

Moral: When you have some cash to send with a nice fat mail order, come in to Conover & Conover and see how much we can save you on that cash proposition, for we appreciate your business and are willing to give you 30 days.

## Conover & Conover.

# The Dollar Sent To The Mail Order House Is Gone Forever, While The Dollar Spent At Home Returns To You Again And Again
