CAMPAIGN FOR SETTLERS

(Continued from Page 1)

The cheapness of the water power and the resources awaiting development would be impressed upon them.

"Upon arrival in Oregon the party would be entertained by the various commercial organizations along the route. Advance preparations would be made for their reception and each community would endeavor to impress the visitors with attractions they have to offer. Data will be compiled relative to all branches of the state's resources, especially in regard to the possibilities of the various communities through which the party will be shown.

"Many settlers from the middle west have been placed in Oregon through correspondence. Hundreds are preparing to move westward with the coming of summer. By grouping them together, under the direction and care of representatives of the State Chamber and with all arrangements for their entertainment made in advance and assured of a royal welcome along the route, it is believed that a large number of substantial citizens can be added to the state."

In addition to the cooperation of the railroads, which has already been assured, the cooperation of various organizations and associations including the newly formed Oregon Tourist Bureau, the Farm Bureau, the Oregon State Motor Association, the Wool Growers and Fruit growers Associations, and the directors of the 1925 Exposition is expected.

A.L. Tetu, president of the Oregon State Motor Association, stated that the proposed plan would be backed by his organization "to the limit."

Directors of the State Chamber who met in yesterday's meeting were Leslie Butler, Hood River; L. L. Goodrich, Eugene; W.P. O'Brien, Astoria; Roy T. Bishop and Alfred A. Aya of Portland.

PAIGE

THE MOST BEAUTIFUL CAR IN AMERICA

ANNOUNCING The PAIGE NATIONAL DEMONSTRATION WEEK

For one week—commencing Monday, April 4th.—our Dealers in every section of the nation will conduct a special series of demonstrations with the complete line of Paige cars.

Our "Daytona 6-66" model now holds the world's stock car record for speed. It will be the purpose of Demonstration Week to prove that any Paige car—in the hands of an unprofessional driver—is indeed Master of the Highway.

Demonstration Week offers an unrivaled opportunity. You have but to get in touch with our Dealer and he will book you for a ride that will prove finally convincing.

No other stock car has ever equalled our own speed record of 102.8 miles per hour. No other car, we are confident, can defeat a Paige in the milder tests of general demonstration work.

Then, with an actual record of the tests, you will be in position to compare the Paige 6-66 with any other motor car—at any price—on the American market.

By proving itself the fastest car, the Paige 6-66 has revealed qualities of endurance and strength that are beyond dispute. World's championship form is a guarantee of all 'round efficiency—the best guarantee that the sporting world affords.

You will also be able to determine whether the New Series "Glenbrook Six-44" is or is not the greatest dollar for dollar value in the light six field.

But these are facts that we want you to establish for yourself, and

Surely no man could ask for a fairer or more sportsmanlike proposition. Whether you contemplate buying a motor car or not, we very cordially invite you to ride with Paige during the coming week. It will prove a revelation, we believe—and a liberal education in strictly modern engineering.
