HEAVY ARTILLERY STILL SHOOTING  
BIG PICTURES EVERY SHOT.

G E M

Saturday, April 23rd-

Douglas McLean and  
Doris May IN

"Mary's Ankle"

They have done it again! Followed their great laugh hits, "23 1/2 HOURS LEAVE" and "WHAT'S YOUR HUSBAND DOING," with another picture so funny it will keep you laughing for days. All about a young doctor who needed money, but could get from UNCLE only when he married a wife. So Doc asked Mary "LET'S PRETEND," and MARY said "O.K." But HORRORS! when UNCLE took them at their word and hustled them into a bridal suite on a ship heading south.....the rest is hurricans of fun. DONT MISS IT!

A LAUGH HIT THAT NEVER RUNS DOWN.  
"THE TWO FISTED JUDGE" 2 Reel Edgar Jones Production

THE BOOSTER COLUMN  
(By Fred C. Baker)

The dairymen down in Coos county are having a gay old time. What with the Dairymen's League and the Nestle's Food Co., scarping for control of the dairy industry in that county, they appear to be between the devil and the deep blue sea.

Of course we want lower telephone, electric light and water rates. But it is hoped that the request for a readjustment of electric light rates will not act as a boomerang and raise them, which it is liable to do. Why not ask for lower water rates as well, seeing that water is one of the most plentiful things in Tillamook county and easiest to obtain.

What a nice improvement it would be if the road between the main road and the depot was hard surfaced, for it will always be a dirty mud hole, or a number of them, until it is hard surfaced.

It has been suggested by some of the ladies in the Civic Improvement Club that their organization become auxiliary of the Tillamook Chamber of Commerce. That is a capital idea and would be a good stunt to pull off. One central community organization is all that is necessary for the upbuilding of the city, and with the ladies of the city organized for active work would be a wonderful acquisition to the Chamber of Commerce.

The Chamber of Commerce, in its efforts to induce more people to settle in Tillamook County, would like the names of persons in the Middle-West or East who are contemplating coming to the Northwest. Any of our citizens who know the names and addresses of such persons should send them to the Chamber of Commerce. This will enable the Chamber of Commerce to write them a personal letter and get in touch with them, also to send them interesting literature of the county. Send the Chamber of Commerce a post card with the name and address of the person who is looking for a new location and the Chamber will do the rest and endeavor to induce the person to locate in Tillamook county.

Personal letters about Tillamook county induced many of our citizens to come to Tillamook county, and the Chamber of Commerce is wanting to get in personal touch with others who contemplate coming west. The Chamber of Commerce would be pleased if it had the names of 1,000 home seekers right now to write to, but the best results will be obtained by the citizens of the county sending in the names of those who they know are contemplating a change of location.

The Fair Board organized last week with R.C. Magarrel president and Bert Folks secretary, when plans for holding the annual county fair were discussed. Another meeting will be held in a few days when the date will be decided upon and plans more fully outlined. Everybody in the county will be expected to have the fair spirit this year, with everybody cooperating with the Fair board to make the fair, this year, the biggest and best ever held in Tillamook county.

Tillamook county does not appear to be as hard pressed for money as some other counties in the state. If tax collection is any criterion to go by. The total amount of tax levies was \$805,000. The amount of taxes paid on the first half amounted to \$352,092, or 65,000 more than was collected on the first half a year ago. This is on the same per cent that was paid in 1920. Quite a number of other counties, from the reports published, show a decided decrease in the amount collected for the first half.

The trees planted in the Camp Grounds, of which there are about 400, are budding out, and from present appearance, it looks that the loss will be very small. Nursery men claim that 10 per cent of trees die when transplanted, and one person said only 10 percent of trees die when in the camp ground would live. As a good deal of care was exercised in gathering, pruning and planting the trees but very few will fail to complete the design. It will not be many years before the camp grounds will be a pretty little spot, where people can hold picnics. The only trouble with the grounds is

that it should contain another acre of ground, but a good start has been made, and with the expenditure of a limited amount of money every year, for improvements and gradually adding a little more land it will not be long before the city will

have a camp grounds that will compare with other towns.

New York, April 16th—Despite the fact that 28.9 per cent of the world's savings are in this country and that the average depositor in

the United States has a greater sum to his credit than his European neighbor, only 8 per cent of the total number of the world's savers are Americans.

Authority for this statement is the Savings Banks' Association of

the State of New York, which has made an extensive investigation of savings banks throughout the world. In proportion to population, said a statement issued today, a number of foreign countries exceed the United States in numbers of depositors.

"European people, through centuries of struggle for mere existence," said Dr. H.H. Wheaton, executive manager of the Association, "have been trained to the most rigid economy, while Americans have found life a comparatively easy matter. The average American family until quite recently made its expenditures on the plan, pay expenses first and save what's left - if there is anything.

Dr. Wheaton said that in France, one out of every five inhabitants has a savings account. In his opinion the economy of the French people has been their protection against the "death thrusts of centuries."

CLOVERDALE BRIEFS

Miss Myrtle Moore who has been teaching school near Prineville, visited her parents, Mr. and Mrs. J. T. Moore, on Monday and Tuesday of last week.

Mr. and Mrs. Will Hatfield were in Salem Sunday to see his grandfather, Mr. Tooley.

Arthur Southmayd, our local painter, is adding a new coat of paint to W.A. High's residence.

In the dairy cow there is secreted in a gallon of milk nearly enough iron to make a small nail, enough of potash salts to fill a small wine-glass, enough of calcium or lime salts, coupled with phosphoric acid to fill a still larger wine glass, and enough sodium, chloris, magnesium sulphur in the form of sulphuric acid, and silica to fill another small wineglass.—Oregon Farmer.

Harold Bell Wright's

"The Shepherd of the Hills"

Millions of people have read the book. Millions of people have seen the play. Tillamook people can see the picture. It is a masterful visualization of both.

"The Shepherd of the Hills" is a famous rural story of the Ozark Mountains

10---MASSIVE REELS---10
