# PAIGE

The Most Beautiful Car in America

## Distinction Without Extravagance

Most five-passenger cars are undistinctive and commonplace. They are types instead of original creations. And therein lies the first great difference between the New Series "Glenbrook" and many other cars of the medium priced field.

When you first look at a "Glenbrook" you will recognize it at once as a car with a very distinctive and altogether charming personality. Like well groomed people, it is individual and unique.

Ride in the Glenbrook and your first impression will become enthusiastic convictions. You will sense at once the power and mechanical resources that meet every emergency of the road. Each burst of speed, each conquered grade drives this conviction home.

But spirited performance is most appreciated these days when it is achieved without waste and extravagance. Not the least of the Glenbrook owner's satisfaction lies in his modest bills for fuel and upkeep.
