

They never made a cigarette like this in my day—

The Camel idea wasn't born then. It was the exclusive expert Camel blend that revolutionized cigarette smoking.

That Camel blend of choice Turkish and Domestic tobaccos hits just the right spot. It gives Camels such mellow mildness and fragrance!

The first time I smoked Camels I knew they were made for me. I knew they were the smoothest, finest cigarette in the world, at any price.

Nobody can tell me anything different.

R. J. REYNOLDS Tobacco Co. Winston-Salem, N. C.

WOMAN'S LOVE DEMANDS ALL

Can Never Be Satisfied With Anything Less Than Absolute Dominion Over One Man.

What every woman wants more than anything else in the world is absolute dominion over one man. There is a peculiarly rampant trend in feminine love which takes the form of demanding entire possession of the creature upon whom the affections have been fastened.

Every woman wants to feel that no matter what her occupation—be it the most exalted business or merely a game of golf—she is ever the possessor of the man's love. She must not forget her face, a single instant, and he must be secret-ly conscious that nothing is quite satisfactory, including the saving grace of her presence. And she requires continually to be assured of this. She believes that in following her personal inclinations he forfeits a thousand renderings his income from the attractions or blandishments of all other women.

It is difficult for the feminine mentality to grasp the enormous power of detachment of the intellect. A woman cannot comprehend, much less sympathize with that trait by which a man can divest himself completely of any thought of her while absorbed in something else.

A man's mind—and this particularly refers to the man of many serious interests—is like a number of compartments, each sealed from the other and docketed as to contents. While he is in one, he shuts out everything pertaining to any other.

A woman has not this capability of detachment. Whether she is playing bridge or apparently obsessed with some knotty domestic detail, she is always subconsciously aware of the one.

The retentive quality is the prevailing characteristic of woman. It is at once her greatest strength and her greatest weakness—she cannot bear to let go. If she sees the flame of a love on the verge she tries frantically to restore it to its full force. A man faced with the same contingency is apt to be more resigned—or brutal—and makes haste to finish completely the cooling affection.

A man likes to do a thing, have done with it, and consign all memory to oblivion—to wipe the slate clean and be ready for something new—May Isabel Fisk in the Continental Edition of the London Daily Mail.

Succeeds in Molding Basalt.

The common volcanic rock known as basalt cannot be easily shaped with chisel and hammer, but Dr. Kibbe, a French experimenter, claims much success for his method of shaping by molting after it has been melted at about 1500 degrees Centigrade. His first product was a glassy substance, which he has since been able to change to the crystalline structure of the original rock by a devitrifying process. The rock which has been melted and molded is found to be superior to the natural basalt in resistance to scratching and wear, and it proves to be especially desirable for such purposes as paving, curbstones and stairs. It can be shaped with great smoothness and exactness. As the material is not attacked by acids, it is suitable for vats for chemical use; and it is also an excellent electrical insulator, and a useful substance for firmly fixing metallic posts or other fittings in place by using as a hot paste.

Danger in Unclean Dishes.

Just how serious is the danger of infection from imperfectly washed dishes in eating places has not been determined, but the high count of bacteria left upon restaurant utensils suggests unpleasant possibilities. In the investigation of Roy S. Dearstyne.

Twenty Per Cent Discount For Cash

Pennsylvania AUTO TUBE 'TON TESTED'

Cut down your tire and tube expenditures by anticipating your Spring and Summer requirements and getting—

Absolutely FREE

—one "Ton Tested" Tube, of corresponding size, with every Vacuum Cup Tire bought at our store. Act quickly. This offer is LIMITED. Once it expires, it will not be renewed. Early ordering will avoid disappointment.

Where Quality Is Paramount LOLL & FOLAND

When Sunday Was Abandoned. The movement to enforce a "Blue Law" Sunday on the people of the United States recalls the fact that only once since the days of Moses on Mt. Sinai has Sunday been abandoned by any nation claiming Jehovah as God. That once was during and immediately after the French revolution. A decree was drawn up by Gobet, archbishop of Paris, that the French should worship Liberty, Equality and Reason in place of God and to make sure of the people's forgetting of the church, the buildings were denuded of their sacred ornaments and civic feasts substituted for the feasts of saints' days, while Sunday was wiped from the calendar by creating months of 30 days each and giving a holiday every ten days.

"Millions for Defense." Charles C. Pinckney was one of three envoys sent by the United States to France in 1797 to settle disputes which had arisen between France and the United States. The American grievance was caused by the seizure of American vessels by France. The French grievance was that commercial privileges had been granted to England. Talleyrand, the French foreign minister, refused to receive the envoys, but it had been conveyed to them by secret agents that before any settlement could be reached it would be necessary for the United States to pay a large sum of money, which was, in fact, little more than a bribe. It was then that Pinckney made his famous declaration that the United had "millions for defense, but not one cent for tribute."

No Two Snowflakes Alike. For 35 years Wilson Alwyn Bentley of Jericho, Vt., has been studying snowflakes. In that time he has made 3,800 photomicrographs of snowflakes and has found that no two of them are exactly alike. As a result of his exhaustive study he firmly believes that the snowflake is the most exquisite example of nature's art. His photographs have been introduced into several universities, and have also won a niche in the arts and sciences, as well as being used for designs in artcraft shops and for jewelry designing.

Task for Chemists. The technical chemists of the world are asked to solve a very tempting puzzle. They are told that if they can only discover how to get it out, there is to be had from Jerusalem artichokes a substance which can be turned into a sugar sweeter than cane sugar. The yield per acre of artichokes would be higher than the yield of beet sugar per acre of beet, and higher than the average yield of cane sugar per acre of cane. Truly an alluring bait, and an opportunity to make the land flow, if not with honey, at any rate with something not unlike it.

Looked Like Not Player. Leta, aged five, was visiting in the country, and, seeing a potato bug for the first time, she asked: "Mamma, does flies play tennis?" "No, dear," replied the mother. "Why do you ask?" "Because," answered the little miss, "I just saw one with a sweater on."

Much Affected. "Come, now! Don't look so miserable!" said a Tumlinville photographer. "Just pretend in your own mind that you are going to get married tomorrow." "Dad-burn the dad-burned luck!" returned the Arkansas sinner. "That's precisely what I am going to do!"

Tire Mileage at the Lowest Cost in History

Table showing tire prices for various sizes and types: NON-SKID, RED-TOP, RIBBED CORD, NON-SKID CORD, GRAY TUBES. Columns include Old Prices and New Prices.

These Prices Apply to Our Regular and Complete Line

Price unsupported by value never is an advantage to any but the man who sells to make a quick "clean-up" and quit.

A reputable, unexcelled mileage tire made by a company that can and will deliver all and more than you pay for is the only one you can afford to buy.

Sold only by Dealers

A New Low Price on a Known and Honest Product

BUICK'S twenty-year service record indicates that in Buick there is an extraordinary transportation value.

Ownership of a 1921 Buick will bring to you this sure personal transportation value with the added roominess and beauty that have been designed in the new models. Let us demonstrate how handy the mechanism, how easy the car operates, how powerful it is in taking hills.

Wherever you travel you will find Authorized Buick Service.

Since January 1, regular equipment on all models includes Cord Tires
