#### WHY NOT MACADAM?

It is quite noticeable that the macadam parts of the main road out of the county south are generally in better shape than the sections that have been paved, and the initial expense of making such thoroughfares is much less than that of pavement at the present time.

Why not put down good gravel roads until such a time when the pavement can be laid more economically built? The results would be as satisfactory, if not more so.

The Sourgrass road is well known for its riding and wearing qualities; no pavement we now have in the county is in better shape after several years of use.

It has been called to our attention that again a very low form of vandalism has appeared in the city. One local business house, wishing to improve the appearance of its property, has gone to considerable expense and trouble to grow flowering plants in a plot especially provided for that purpose. Not long ago some Hunnish creature with perverted ideas pulled up and crushed the growing plants in this plot for no other purpose, apparently, than that of destruction. This person, who is thought to be an adult, did not care to get the plants for himself but simply wished to destroy them. The local Chamber of Commerce experienced this same thing after setting out shade trees in the tourists camp ground; the young trees were cut and damaged for none but vicious reasons.

If physical qualifications equaled the mental, an animal that would commit such acts as these could walk upright under a crawling earthworm and have plenty of room for the performance.

Again Tillamookers have been nicked by the gentle grafter. It is an old established fact that soft soap and blarney usually gets the results where honest purpose and endeavor fails.

It may be said authoritatively that Tillamook has more weather than any other place in Oregon.

**CLEAN UP DAY**  
Notice is hereby given that Wednesday June 29, 1921 has been designated as clean up day by order of the Common Council. Garbage and refuse will be hauled at rate of 25c per sack full, 50c per barrel or box. Leave orders with City Transfer Co., Oregon Transfer Co. and Tillamook Transfer Co.

Lake Keechelus—in the heart of the Cascades, Washington

**Through the heart of the Cascades**

**RED CROWN GASOLINE**  
The Gasoline of Quality

ON the motor road from Seattle to Tacoma and the East, the motorist passes through many points of unusual scenic interest. Lake Keechelus is one of these. It is over six miles in length, having the appearance of a great river, and is situated at an elevation of 3,000 feet in the very heart of the Cascade range.

Motorists will find this region a most enchanting country dotted with beautiful lakes and mountains and huge fir, spruce and cedar trees measuring in some instances six to eight feet in diameter.

And all along the route the motorist can get Red Crown Gasoline—the all-refinery motor fuel that insures quick starting, rapid acceleration and more power.

Look for the Red Crown sign.

STANDARD OIL COMPANY (California)
