Eugene Jenkins and family left Wednesday for a few days trip to Willamette valley points.

Ramon Dimick went to Woodburn Friday where he ran several concessions during the celebration at that place.

TARIFF IS OPPOSED

WASHINGTON, July 6.—Declaring that he is opposed to any tariff on lumber, Charles L. Pack, of the American Forestry Association, in a letter sent to President Harding before the president departed for his holiday, pointed out several reasons why he believes Congress should not impose such a tariff.

Mr. Pack believes that with the country in vital need of at least 1,000,000 homes and quite as many, if not more, farm buildings, any tariff which would add to the cost of construction would result in serious delay in solving the housing problem and the equally important need of buildings for agricultural purposes he believes that now is the time to build because it is certain that prices of lumber will increase as the years go by to such an extent that unless adequate housing is now provided, it will be seriously retarded by growing costs.

He also believes that any tariff which will add to the cost of paper is inadvisable because it will materially affect the production of newspapers, magazines and books, the greatest educational mediums in the country.

Another reason advanced in opposition to the tariff by Mr. Pack is his belief that no restrictions should be made against the use of the national resources of any country by the United States when such natural resources of its own are being steadily decreased by our constant need of them.

Finally he declared that our own forests are being depleted at such an extent that it will be false economy to adopt any measure which would increase the demands upon them when such demands can be supplied by importation from other countries. The time is now here, he says, when we have awakened to a realization of the serious situation brought about by our diminishing forest areas and our failure to provide means for perpetuating our forests so that they will provide for our present as well as our future needs.

The public service commission has issued an order holding that the American Railway Express company is not entitled to a 20 and 26 per cent rise in express rates on interstate milk, cream, and ice cream. The company failed to justify the demand at a hearing the commission holds.
