The state general fund is again exhausted and it is necessary for State Treasurer Hoff to indorse warrants "not paid for want of funds." This is not an abnormal condition. However it is claimed a law enacted by the 1921 legislature, prohibiting the warrants being invested in funds of the state accident commission, may afford some inconvenience to the payees holding the warrants and that they may have to submit to discount at the banks. The warrants draw six per cent.

The Elks lodge of Lafayette, Ind. has withdrawn plans for a Fourth of July celebration to avoid conflict with a celebration of the American Legion.

Jubilee Singers in Old-Time Concert

Virginians Close Chautauqua.

Two programs of old plantation songs, camp meeting shouts and "negro spirituals" will be given by the Virginians, well known Jubilee singers on the last day of the coming Chautauqua. The Virginians are a company of highly trained, cultured and refined colored singers who have made friends all over the country with their public programs. It is not their aim to give high brow music, but rather to present the beautiful old melodies of the Old South before the Civil War, the shouts of joy from the old fashioned camp meetings where the darlies "got religion" and the spontaneous hilarity that characterized their simple social gatherings.

Such tunes as "Good News," "Go down Moses," "Bake Dat Chicken Pie" "Live a Humble," "Swing Low Sweet Chariot," "Old Time Religion" and "Inch in Along" will be included in their programs.

There is no more fascinating music known than that of the American colored people nor is there any other race with such natural aptitude for harmony and tone color and musical feeling. Negro music is gaining each year in its hold on the public and the Virginians are doing much to establish it in high favor.

AVERAGES COUNT

Life is nothing but a lot of averages. Nobody ever had everything his own way. Instead of deploring lack of profit this last year take a three or five year average. It will make you feel almost cheerful again.

Ups and downs will come, but a 'nationalized' account here at the First National will produce more 'ups' than 'downs'.
