Health After Chronic Indigestion

WHEN disease persists for a great length of time it becomes what is known as chronic. Many persons have indigestion without apparently being unhealthy. They have to be constantly watchful of what they eat, and some things they like must be avoided entirely.

When disease becomes chronic it is a certain indication that the cause is deep-seated, that it lies in some structural defect of the body which can only be righted by chiropractic spinal adjustments. When the spinal joints at "stomach place" are out of alignment, there is a stomach weakness, either chronic or certain to become chronic, unless the structural defect is corrected by adjustments. This is the service the chiropractor of skill renders.

ACT TODAY CHIROPRACTIC REMOVES THE CAUSE OF YOUR INDIGESTION
