James Burke and family were Pacific City visitors Saturday.

P.O. Light was a Tillamook visitor last Thursday.

STUDEBAKER

MOST POPULAR SIX CYLINDER AUTOMOBILE

"If a man write a better book, preach a better sermon, or make a better mouse-trap than his neighbor, though he build his house in the woods, the world will make a beaten path to his door." EMERSON.

Never in the history of the automobile business has the truth of this saying been proved so conclusively as in the SALES of Studebaker Cars in Oregon, and over the entire country, in the six months ending June 30th, 1921. In California alone there were sold

3853 Studebaker Automobiles!

The fact that this remarkable increase in SALES is made in a BUYERS' Market—when the most rigorous inspection and comparison of car-values is made by prospective buyers—is proof positive that Studebaker Cars offer the highest quality at fair prices.

Further proof are the registration figures of the Oregon State Motor Vehicle Department, which show that

Studebaker Leads in Registrations!

with but one exception, Ford. And when all the distributors had cars to deliver and the prospective buyer was in a position to get and car desired.

A comparison in registrations, January 1 to June 30, 1921, inclusive, shows Studebaker enjoys a remarkable lead over all other makes, including fours, sixes and eights, save the one mentioned.
