People Generous With Tips.

New York likes to refer to its spendthrift millionaires. The head waiter of a magnificent eatery told me that for the bountiful gratuity he preferred the visiting sod-buster to the son of a millionaire. The young man from Hokokus having his annual fling has read so much about huge tips that he thinks anything under a \$10 bill will be tossed back at him. The information volunteered by the head waiter came after a well-known spendthrift had departed with two young ladies. His dinner check came to \$25 and he gave the waiter \$2—the head waiter nothing. "And," continued the head waiter, "see that young fellow over there in the green suit with a large Adam's apple. He has been shucking off \$5 bills to every waiter in the place. And he gave me a half century note. I'm afraid his keeper

FISH STEW EXCELLENT DISH

Home Demonstration Agents of the Department of Agriculture Recommend it Highly.

The "pine bark fish stew," which is being marketed by the canning clubs in the southern states along the Atlantic and Gulf coasts, should be of interest to housewives, says the New York Times. The development of combination foods peculiar to certain localities has been particularly fostered by extension agents of the United States Department of Agriculture and the state agricultural colleges which carry on boys' and girls' club work. Almost every country in the world and practically every district in the United States, has a special "one-piece" dish made of the products in that region. The gumbo of the far South, the New England boiled dinner, the bouillabaisse of Marseilles reproduced in New Orleans, Hungarian goulash, Chinese chop suey, Indian curry, Irish stew, French ragout, are instances of this tendency to blend flavors in one dish.

Pine bark fish stew is a characteristic dish in South Carolina. Very probably it was introduced by settlers from the southern part of France and from Italy. Italians living in southern California serve a similar fish stew. The home demonstration agents, seeking a popular and somewhat novel product which would not be in competition with commercial canned goods, decided to have the clubs make a specialty of canning pine bark fish stew.

Onion, tomatoes, celery, pimento and fish are the ingredients, which are cooked slowly in vegetable oil and poured over "southern style" rice. At large out-of-doors gatherings and community lunches this is served on pieces of pine bark, giving the dish its name. In Florida, Georgia and all the Gulf states various local fish are adapted to the combination.

CAN ONLY SEE DARK SIDE

Unfortunate Individuals Are Those Who Essay to Make Conversation About the Weather.

The weather is a singularly unfortunate institution. When it is bad it is freely abused; when it is good it becomes an object for profound suspicion. A wet day is an abomination; a fine one is an incipient drought. Three fine days in succession are enough to bring into blossom little paragraphs announcing that somebody's water supply will shortly have to be curtailed, and a week of them sees the farmers of Blankshire eloquently face to face with approaching ruin. A bad summer will not bear thinking about; a good one is proof that the climate of Europe is rapidly changing, that the North pole will soon enjoy the temperature of the equator, and that a few more thousand years will see mankind finally frizzled off the surface of a thoroughly inhospitable planet. This grateful and comforting game of looking a gift horse in the mouth is now being applied to the only good result of the coal stoppage—our cleaner atmosphere. Having survived the first shock of ill-considered gratitude at being able to see their own city, many Londoners, an evening paper announces, are now discovering that a feeling of lassitude and an overpowering inclination to yawn are the result of living in an unusually pure atmosphere.—Manchester Guardian.

Prompt Delivery.

George L. Loft, son of the candy magnate and former congressman, created a sensation on the stock exchange recently, when he sold a suit of clothes off his back for \$30 and made spot delivery. The young broker breezed onto the floor of the exchange early in the session, wearing a brand-new Palm Beach suit. It was so conspicuous some of his colleagues roughed him a bit and in the fracas the coat was torn slightly. Thereupon Loft yelled out for a bid for the outfit, just as if he were selling 100 shares of Loft, Inc. A broker in the crowd snapped back a bid of \$30 and demanded instantaneous delivery. Loft was game. He peeled off his coat and then shed his trousers and departed for the Luncheon club attired in his B. V. Ds. He was able to resume business later through the discovery of an old suit of clothes in a locker.—New York Tribune.

Doubles Shooting Popular.

Doubles shooting is gaining great popularity among trapshooters of this country. By doubles shooting is meant the release of two targets at the same time, one to the left and the other to the right. The shooter then tries to break both of them before they fall to the ground, firing one load at each target. This is a real test of shooting ability, and for this reason it is gaining in popularity. No one seeks a real test of his ability more than a trapshot. Because of the increased interest in this phase of the sport it is apparent that the doubles championship tournament at the Grand American handicap this year will be a much better event than in the past. The shooters have had greater practice at this style of shooting than ever before.

Florida's Entry Into Union.

One hundred years ago the Stars and Stripes supplanted the flag of Spain in Florida, which became a part of the United States. The sum paid Spain, including the payments to claimants for damages, was \$1,450,768 for a territory that included 50,298 square miles.—Miami Herald.
