

850 DISASTER DEATH TOLL FOR ONE YEAR

Red Cross Gives \$1,871,000 Relief When 65,000 Families Are Made Homeless.

Forty-three disasters, resulting in the death in the United States of 850 persons and the injury of 2,500 called for emergency relief measures and the expenditure of \$1,871,000 by the American Red Cross during the fiscal year ending June 30, 1921, says an announcement based upon the forthcoming annual report of the Red Cross. These disasters caused property damage estimated at \$50,000,000, affected sixty-seven communities and rendered 65,000 families homeless.

The year's disasters were of varying types, including several which previously had never been thought of as falling within that classification. The Red Cross furnished relief in seventeen fires of magnitude, five floods, seven tornadoes or cyclones, one devastating storm, three explosions, including the one in Wall street; one building accident, two typhoid epidemics, the most serious being that at Salem, Ohio, which affected 9 per cent of the population; one smallpox epidemic, in the republic of Haiti; one train wreck, the race riot at Tulsa, Okla.; the famine in China, emergency relief in famine among the Indians of Alaska, the grasshopper plague in North Dakota and an earthquake in Italy.

Pueblo Most Serious

By far the most severe of the disasters in the United States during the period covered by the Red Cross report was the Pueblo flood early in June, 1921. The rehabilitation problem confronting the Red Cross in Pueblo was one of the most difficult in recent years. When the first news of the horror was flashed throughout the country, the American Red Cross National Headquarters responded with a grant of \$105,000 for relief work. Governor Shoup of Colorado, appreciating the long and successful experience of the Red Cross in organizing disaster relief work, placed the entire responsibility for the administration of relief in its hands.

In response to appeals from President Harding, Governor Shoup and other governors of western states and through local chapters of the Red Cross and other community organizations, public-spirited citizens brought the total contributed for Pueblo's rehabilitation to more than \$325,000.

The terrible havoc wrought by the flood waters is a matter of record. More than 2,800 homes were affected and 7,351 persons were left homeless. Estimates of \$500,000 as an absolute minimum for rehabilitation were made by Red Cross officials in charge of the relief work.

Fast Work in Wall Street

The Wall street explosion was notable in that relief workers of the Red Cross were on the scene twenty minutes after the disaster occurred. The race riot at Tulsa also was unique in disaster relief annals in that outside of a small emergency relief fund contributed by the Red Cross, the only relief measures outside the city consisted of the service of social workers, nurses and a trained executive whose object was to assist local forces in directing their own efforts.

In decided contrast with the previous year, only one tornado assumed the proportions of a major disaster. This occurred on April 15, in the border sections of Texas and Arkansas with the city of Texarkana as the center. The significant feature of this disaster relief work was the fact that it covered so much rural territory as to make necessary a large number of relief workers.

The famine in China, necessitating relief expenditures totalling more than \$1,000,000 by the American Red Cross was by far the most serious of the foreign disasters in which the Red Cross gave aid.

Builds Up Its Machinery

In connection with the administration of disaster relief measures, an increasing effectiveness on the part of the Red Cross to deal with emergencies was manifested during the past year. In 328 Chapters of the American Red Cross there have been formed special committees to survey the resources of the respective communities and to be organized in case of disaster. The 3,402 active Chapters of the Red Cross communication has been increased which instantaneous dispatch to the United States, and the Red Cross in this field may be expected to have greater effectiveness.

The American Red Cross is approaching a widespread renewal of its efforts during its Annual Roll which was conducted this year from October 11 to 24.

LIFE SAVING CORPS ENROLLMENT 10,000

Growth of Red Cross Life Saving Corps throughout the country continued unabated during the last fiscal year, a summary of the year's achievements by that Red Cross Service shows. There are now 168 Corps with a total membership of more than 10,000 members, of which 1,276 are sufficiently skilled in the work to act as examiners. Among the outstanding achievements of the Red Cross in this field during the last year was the organization at the United States Naval Academy, Annapolis, of what is perhaps the largest life saving corps in the world.

Prospective Mothers

Proper care of mother when Baby comes is vital to her future health and baby's as well. Each has the right to the very best attention and scientific skill, something that is impossible at home.

But here, at this wonderfully equipped, modern fire-proof maternity home, every care is extended to mother. Graduate nurses, who know and love babies and are specially trained for maternity work, are in constant attendance here day and night. The nurses in charge are graduates from Chicago Lying In Hospital, conducted by Dr. Joseph B. De Lee, America's greatest authority on obstetrics.

Come a week or so before Baby is expected and board at the hospital. The cost is much less than if you remained home under a nurse's care—and worms are eliminated.

All information and pictures of the hospital will be mailed in a plain envelope on request.

VICTORIES OF PEACE EQUAL THOSE OF WAR

Whether the task is the construction of a colossal harbor improvement project, or the administration of a newly acquired insular possession, the Department of War is always prepared to bring to the task a high degree of skill and masterful judgment. How "peace hath her victories no less renowned than war" for the military department of the nation is interestingly described and illustrated in one of an instructive series of articles on Our Government now being distributed exclusively by this Institution.

We shall be pleased to see that you receive the complete series, if you will send us your name and address.

Children Need Food for Proper Growth

"The bones and muscles cannot be built without suitable materials. The food which does this best and cheapest is MILK. It not only builds, but it protects children from disease. Every child under six years should receive a quart of milk a day, those older the same when it can be afforded. No child can thrive on less than a pint of milk a day."

The above is an extract from Extension Bulletin No. 327 issued by the Oregon Agricultural College. Is your child developing properly?

It back.—Exchange.

See Eve as Idealistic Woman.

Most Italian women if they had their choice to be anything they wished in their sex, would rather be Eve, according to results of a vote recently taken by one of the Roman papers.

The argument advanced for being Eve was that she, of all women, had no competition. Her husband was never away from home and there was no other woman on whom he might cast an alluring glance.

Those who did not choose to be Eve chose for the most part to be Mary because, after being all-enjoy all the sins of the world, she was forgiven and afterward became a saint, thereby enjoying all joys of heaven.
